FINAL EXAM PERIOD

During the final week of classes, Wednesday, Dec. 16 through Tuesday, Dec. 22, day classes (defined as Monday – Friday that start before 4PM) are assigned a two-hour block of time. This period of time may be used for final exams, classroom instruction, or other types of evaluation as the instructor may choose.

If a course does not fit exactly into one of these modules, it assumes the closest time module for that time. For example, if a class meets on MW from 9:30 a.m. – 10:45 a.m., it would be assigned to the MWF 9:00 a.m. time slot, which is module 02.

THE COLLEGE CLOSES AT NOON ON FRIDAYS FROM JUNE 5 to AUGUST 14

Take an online course at QCC

General Information:

Online classes are similar to face to face classes in the sense that there is a real instructor and fellow students involved in the learning process during the college term. Grades, lectures, due dates, assignments, group discussions, textbooks, tests, college credit, are all a part of online classes as well. The main differences are that the classroom is a web site that can be accessed from anywhere in the world, and that lectures are most often read instead of listened to; discussions are typed instead of spoken. Courses have a weekly schedule so the student needs to logon to the online class several times a week to stay current. Discussions and communication with the instructor are conducted predominately in web-based message areas, chat rooms, e-mail, and online discussion groups.

Some classes may require students to logon and participate at specific times for some of the course work. For a small number of courses instructors may require on-campus or proctored mid-term and final exams. Computer Literacy, keyboarding skills, and internet connectivity are required. Check the *Online Section Notes* below listed along with each online course section for details. An online course list can also be found at www.QCC.edu , click Academics, then ***online degrees and courses*** to view the list of courses and sections.

Requirements:

To take part in an online course you will need a computer with Internet access with the following minimum standards for technology. Some courses may require access to specific applications not listed below.

Supported Browsers

Blackboard supports four primary browsers for Learn releases. Links to the vendor sites for the browsers are included in this topic. To learn more about Blackboard's general browser support policy as well as information about Javascript, Cookies, and other software, see the Browser Support Policy topic in this section.

The browser versions listed are those that were available when Blackboard Learn 9.1 April 2014 was released. These are not the only browsers supported on this release. To learn more, see the Browser Support Policy topic in this section

Configuration Notes:

- Internet Explorer is only supported in Standards Mode.
- Blackboard strives to make all its products as accessible as possible. JAWS 14 and 15 were used during accessibility testing of Learn 9.1 October 2014
- Chrome support: Due to the auto-update feature of Chrome, support is based on the version available at the time of testing. Learn 9.1 October 2014 was tested with Chrome 34.
- Firefox support: due to the auto-update feature of Firefox, support is based on the version available at the time of testing. Learn 9.1 october 2014 was tested with Firefox versions 32 and 31 (ESR).
- Note on OSX 10.8+ Java is no longer shipped as part of the OS install and must be downloaded and installed by users on request of application/applet - this is a one time action on the part of the user.
- Client Technology Highlights of changes from Previous Releases
- OSX 10.10/Safari 8 support added.

Technologies not supported

- Windows XP
- Firefox 1.x, 2.0, 3.0, 2.5, and 3.6
- Mac OSX through 10.6
- Internet Explorer 6, 7, 8
- Safari 2, 3, 4, 5 (or any version on Windows)
- JRE 5

THE COLLEGE CLOSES AT NOON ON FRIDAYS FROM JUNE 5 to AUGUST 14

TYPES OF COURSE MODALITIES

The following types of course modalities are offered at Quinsigamond Community College:

Blended

A Blended (also, hybrid) course has fewer in person course meetings than a face-to-face course. A portion of the course is delivered online and a portion is delivered on-site face-to-face. Blended courses use the institution's Learning Management System for the online portion of the course.

Online

An online course is a course that is provided entirely through the institution's Learning Management System. No on-site class meetings are required. Although it is preferred that all assessments occur within an online course, a proctored in-person exam may be required.

Accelerated

An accelerated course runs in a compressed time and either meets more often to ensure adequate contact time or utilizes other proven accelerated learning methods to replicate the required contact hours. Specialized accelerated learning cognitive methods may also be used. An accelerated course may be offered face-to-face, online or in a blended modality.

Emporium

An emporium model course is a course that utilizes computer-based learning versus a lecture approach, and is supported by individualized instruction. It is delivered entirely onsite in a computerized classroom and requires an additional weekly meeting. Students may have the opportunity to complete more than one course in a single semester and have their progress carried over to the next semester.
