PLACEMENT TESTING REQUIREMENT

If you plan to register for an English or mathematics course or a course that requires English or math as a pre-requisite, you must take the Placement Test in English and mathematics prior to registration. The initial test is free and untimed and takes approximately 2 to 2 ½ hours to complete. This requirement will be waived if you can demonstrate successful completion of college level English and mathematics at a regionally accredited post-secondary institution. Go to the web at **www.QCC.edu/testing** to schedule your own placement appointment or call 508.854.2784. *HVAC students do not need to take the accuplacer.

Placement Testing at 5 Optical Drive in Southbridge. Walk-in on the following days:

- Tuesday, 8:00 a.m. – 11:00 a.m. and
- Wednesdays, 3:00 p.m. – 6:00 p.m.

HOW DO I REGISTER?

Currently enrolled students must contact their assigned advisor. Your advisor assignment can be found on *The Q*, The Student and Faculty Portal at **www.QCC.edu.** For questions about advisor assignments, please go to the Advising Center in Room 61A in the Administration Building, email advising@qcc.mass.edu, or call the Advising Center at 508.854.4308.

New students MUST take the placement test as outlined above and then may schedule an appointment to meet with an Advising Center Advisor at **www.QCC.edu/advising** or by calling 508.854.4308. Registration for new students begins April 3. Avoid the Wait! Schedule an Advising Appointment Early!

Advising Hours are listed below:

- Monday - Thursday 8:00 a.m. – 7:00 p.m.
- Friday 8:00 a.m. – 5:00 p.m.*

FINAL EXAM PERIOD

During the final week of classes, Wednesday, December 13 through Tuesday, December 19, day classes (defined as Monday – Friday that start before 4:00 p.m.) are assigned a two-hour block of time. This period of time may be used for final exams, classroom instruction, or other types of evaluation as the instructor may choose.

If a course does not fit exactly into one of these modules, it assumes the closest time module for that time. For example, if a class meets on MW from 9:30 a.m. – 10:45 a.m., it would be assigned to the MWF 9:00 a.m. time slot, which is module 02.

Revised Day Schedule to allow for a Final Exam Period: Day Classes December 13 – 19.

THE COLLEGE CLOSES AT NOON ON FRIDAYS FROM JUNE 2 TO AUGUST 18

Take an online course at QCC

General Information:

Online classes are similar to face-to-face classes in the sense that there is a real instructor and fellow students involved in the learning process during the college term. Grades, lectures, due dates, assignments, group discussions, textbooks, tests, and college credit are all a part of online classes as well. The main differences are that the classroom is a web site that can be accessed from anywhere in the world, and that lectures are most often read instead of listened to; discussions are typed instead of spoken. Courses have a weekly schedule, so the student needs to logon to the online class several times a week to stay current. Discussions and communication with the instructor are conducted predominately in web-based message areas, chat rooms, email, and online discussion groups.

Some classes may require students to logon and participate at specific times for some of the course work. For a small number of courses instructors may require on-campus or proctored mid-term and final exams. Computer literacy, keyboarding skills, and internet connectivity are required. Check each online course section note for details. An online course list can also be found at **www.QCC.edu.** From that web site, click "Academics," then "Online Degrees & Courses" and "Find a course" to view the list of courses and sections.

Technical Requirements:

To take part in an online course you will need a computer with Internet access. The minimum standards for a personal computer can be found on our website: **www.QCC.edu/tech-specs.** Some courses may require access to specific applications not listed; please check the course syllabus and/or program requirements.

Supported Web-Browsers:

Blackboard supports five primary browsers for Blackboard Learn releases.

Run the Blackboard browser checker (https://en-us.help.blackboard.com/Learn/Student/Getting_Started/Browser_Support/Browser_Checker) to see whether Blackboard Learn supports your browser.

To learn more about Blackboard's general browser support policy as well as information about Javascript, Cookies, and other software, see the Browser Support Policy Page (https://en-us.help.blackboard.com/Learn/Student/Getting_Started/Browser_Support).

Helpdesk Information

The QCC IT Helpdesk (**www.QCC.edu/help**) provides assistance with operational problems within the Online Classroom. To contact the helpdesk use one of the methods outlined below. In your correspondence, make sure to include your name, the problem, and return contact information; never include your password.

TYPES OF COURSE MODALITIES

The following types of course modalities are offered at Quinsigamond Community College:

Face-To-Face

A face-to-face course is one in which instruction is delivered fully on-site with face-to-face interaction between the instructor and student. A face-to-face course may make use of computers, the internet or other electronic media in the classroom. Students may be directed to online materials provided by publishers, or to other internet accessible sources as part of their course work. They may also use the institution's Learning Management System.

Blended

A Blended (also, hybrid) course has fewer in person course meetings than a face-to-face course. A portion of the course is delivered online and a portion is delivered on-site face-to-face. Blended courses use the institution's Learning Management System for the online portion of the course.

Online

An online course is a course that is provided entirely through the institution's Learning Management System. No on-site class meetings are required. Although it is preferred that all assessments occur within an online course, a proctored in-person exam may be required.

Accelerated

An accelerated course runs in a compressed time and either meets more often to ensure adequate contact time or utilizes other proven accelerated learning methods to replicate the required contact hours. Specialized accelerated learning cognitive methods may also be used. An accelerated course may be offered face-to-face, online or in a blended modality.

Emporium

An emporium model course is a course that utilizes computer-based learning versus a lecture approach, and is supported by individualized instruction. It is delivered entirely onsite in a computerized classroom and requires an additional weekly meeting. Students may have the opportunity to complete more than one course in a single semester and have their progress carried over to the next semester.
