Practice Placement Test Information for CPT

Go to [http://ncc.mymathtest.com/](http://ncc.mymathtest.com/)

The material covered in these practice tests is representative of the course content of the corresponding math courses, briefly:

**Practice for MAT 090 - Basic Mathematics** covers arithmetic operations; addition, subtraction, multiplication and division of whole numbers, fractions, decimals and integers, order of operations, ratios, proportions and percent.  
**Take Test 1**  
**Take Test 2, skip # 7-15, 19, 20, 21, 22, 23, 26**

**Practice for MAT 095 - Beginning Algebra** covers linear equations and inequalities, operation on polynomials, rules for exponents and graphing linear equations.  
**Take Test 2, skip # 1 – 6, 14, 15, 23, 27, 28**  
**Take Test 3, skip # 10, 16, 17, 19, 26**

**Practice for MAT 099 – Intermediate Algebra** covers factoring, rational expressions, simplifying radicals, quadratic and rational equations, and equations of lines.  
**Take Test 3, skip # 10, 19, 26**  
**Take Test 4, skip # 13, 16, 25, 26, 27, 28**

**Once complete:**  
1. Click **Score** to see how many you got right.  
2. Click **Review Test** to see which questions you got right or wrong.  
3. Click **Study Plan** to see the topics you need to study.

*For additional practice, including word problems, go to:*  
www.testprepreview.com/accuplacer_practice.htm

The practice tests are a diagnostic tool to help you discover what material you need to study in order to place into a particular course. The Math Center staff are not able to tutor these topics in lieu of your taking the appropriate level course.
