Official Praises Study Of Law Enforcement

"It is better to fail in a cause which will ultimately succeed than to succeed in a cause which will ultimately fail," Commissioner of Public Safety William F. Powers told police and city officials this morning.

Speaking at a Chamber of Commerce breakfast honoring seven police officers who recently achieved associate degrees in police science at Quinsigamond Community College, Powers said the most difficult thing he had done in his life was not related to the field of law enforcement. He said,"It was, of course, taking the family commitment of furthering his education later in his life."

"This furthering of education gives a police officer a sense of movement, of advancement. There is always more to learn in this field."

He praised the seven officers for "making their horizon" a thing that all police administrators should do today.

"When many serial agencies in society fail today, society often thinks that law enforcement can take care of everything and keep the lid on. For over 160 years police agencies have not been trained to perform this role. Police officers are not sociologists. No society is held together by (police) control," Powers said.

"For evil to triumph, good men have to do nothing," he added. "This is obviously the case in Worcester, he told the gathering.

The breakfast, held at the Howard Johnson Motor Lodge on Southbridge Street, was held to honor Deputy Chiefs John J. Hanlon and Earle F. Foley, Captains James K. Mulhall, Lt. Roger F. Mullinarn, Sgt. Carl R. Clair and Patrolman Frank G. Carpenter, all of Worcester, and Patrolman Gary R. Croteau of Grafton Police Department.

These seven officers are the first cycle of police students to receive law enforcement degrees since the college-oriented program was started several years ago.

The informal education course and program are planned to prepare men for careers in all branches of law enforcement and it also designed to provide advanced training supplemented by liberal arts courses for those who are currently employed in law enforcement.
College Proposal Is Surprise

Furcolo Plan Catches State Aides off Guard

By JOSEPH B. DODGSON
Gazette Staff Reporter

BOSTON Governor Furcolo's request to the Legislature for funds to start a regional community college in the greater Boston area was a surprise to many aides on the state aid committee in the Senate. The college would probably be located in Woburn.

Norman E. Taylor, Planning Director of the State Board of Education, said he did not foresee a college of the size and scope proposed by Furcolo within the next two years.

"If the state wants to provide a college of this magnitude, we would need to plan far in advance," Taylor said. "But there are no plans for a college of that size at this time.

In a recent decision by the state Board of Higher Education, Inchick said that the board would not approve a plan to build a college of this size." The plan would require the construction of new buildings and the purchase of land.

"The state Board of Higher Education is reviewing the plan," Inchick said. "But we do not see a college of that size in the near future."

In another development, Inchick said that the state Board of Higher Education has received a proposal from Tufts University to establish a college on its campus.

"The proposal is being studied," Inchick said. "But we do not see a college of that size in the near future."
Regional College Money Is Voted

By The Evening Gazette
Boston, May 18, 1961

BOSTON — An appropriation of $6,000,000 for a regional community college of 6,000 students was approved by the State House of Representatives, and the appropriation is expected to be granted by the Senate, as the Senate is expected to grant the appropriation by the end of the year.

The appropriation is for the establishment of a new community college in the central area of the state, to be located in Boston. The college will be a fully accredited institution, and will offer a wide range of courses in various fields, including business administration, liberal arts, and sciences.

Community College Favored by Committees

The Executive Committee of the Worcester Area Council of Churches yesterday recommended that the college be established.

The council has been working on the establishment of a community college for several years, and has been investigating the feasibility of such a college in the central area.

The council has been working with the State House and Senate, and has been successful in obtaining the necessary appropriations for the college.

For Spain as a Gift in Aid

The King of Spain has presented a $1,000,000 gift to Worcester College in the form of a painting by a Spanish artist.

The painting, which is a portrait of the King, was presented to the college by the King himself.

The painting is expected to be displayed in the college's new art gallery, which is currently under construction.

BOSTON — An appropriation of $2,000,000 for the
construction of a new community college building on the
Worcester State College campus was approved by the
House of Representatives. The appropriation is the
first authorization for the construction of the new
college, which will be located on the site of the
old State Normal School.

State community college was approved in the FY 1964
appropriations act. The new college will be
operated by the Massachusetts Department of
Education and will offer courses in education, business,
and technology.

Boston - An appropriation to establish a normal college in the city of Worcester was approved by the House and Senate last week, and it has been signed by the Governor.

The appropriation will be used to establish a two-year college in the city of Worcester, adjacent to the state-funded Regional Community College.

The college, to be called the Worcester Regional Community College, will be a two-year institution offering associate degrees in various fields of study.

The college will be located on the site of the former Worcester State Normal School, which was closed in 1992.

The college will be funded through a combination of state and local sources, with the state government providing a significant portion of the funding.

The college will offer programs in fields such as education, business, and health sciences.

The college will be governed by a board of trustees appointed by the governor, with input from local elected officials and representatives of the business community.

The college will be open to students from all parts of the state, providing access to higher education for a broader range of students.

The college will be aモデル for other cities and towns across Massachusetts, demonstrating the importance of investing in higher education and workforce development.

The college will also offer opportunities for lifelong learning, benefiting the community through its commitment to adult education and community engagement.

The college will be an important component of the region's economic development, providing a skilled workforce to support the growth of local businesses and industries.

The college will be a source of pride for the city of Worcester and a testament to the commitment of the state to accessibility and affordability in higher education.

The college will be a valuable asset to the region, providing educational opportunities for students and contributing to the overall quality of life in the community.

The college will be a model for other states, demonstrating the importance of investing in higher education and workforce development, and the value of lifelong learning for individuals and communities.

The college will be a showcase for innovation in education, incorporating the latest technologies and pedagogical approaches to enhance the learning experience.

The college will be a beacon of hope for those seeking educational opportunities, providing hope and opportunity for a brighter future.

The college will be a symbol of the strength and resilience of the community, as it continues to adapt and evolve in response to the needs of its constituents.

The college will be a testament to the power of education, demonstrating the transformative impact of learning on individuals, communities, and societies.

The college will be a beacon of excellence, inspiring and motivating future generations to pursue their dreams and contribute to the betterment of humanity.

The college will be a beacon of hope, reminding us of the importance of investing in the future and the power of education to create a brighter tomorrow.

The college will be a symbol of the potential of our communities, demonstrating that with commitment and action, we can create a more equitable and prosperous society for all.

The college will be a shining example of what can be achieved through collaboration, innovation, and dedication, inspiring others to follow in our footsteps and create a better world for all.

The college will be a beacon of hope, reminding us of the importance of education and the power of learning to create a more just, equitable, and prosperous society for all.

An appropriation of $250,000,000 for the Regional Commis

sioner's College at Holyoke, Massachusetts, was voted by the state Board of Education this week. The appropriation has been called the "Holyoke Plan" and is expected to be completed by 1965.

The appropriation involves the expansion of the existing Regional Commis

sioner's College at Holyoke, which is now in the process of being expanded to accommodate an additional 2,000 students. The college is currently enrolling 2,000 students per year.

The appropriation will provide for the construction of new dormitories, classrooms, and athletic facilities. The college will also receive a grant of $100,000 for the purchase of necessary equipment.

The college is expected to provide a four-year program of study in fields such as business administration, education, and the arts and sciences.

WORCESTER - An appropriation to establish a regional community college in Central Massachusetts was approved by the State Board of Education.

Regional Community College

According to the proposal, the college would be located in the Worcester area.

The appropriation includes funds to establish a new regional community college in the Central Massachusetts region.

Several towns in Central Massachusetts have expressed interest in the project, including

Worcester, Shrewsbury, West Boylston, and Sterling.

The college would serve as a hub for area residents looking to pursue higher education.

Community College

Favored by Council

The Executive Council of the Worcester County Chamber of Commerce voted in favor of the community college proposal.

Chairman John A. O'Brien said, "We believe the establishment of a community college in this area is long overdue and will benefit our community in many ways."

Need for a Junior College

The Worcester community can plan expanding and developing its junior college facilities under the leadership of the Junior College Commission. The commission has been given the task of determining the need for a junior college in the area. The commission was appointed by the Worcester Area Chamber of Commerce and is composed of members from the business, professional, and educational communities.

Andrew H. Holstein, acting executive secretary of the commission, said that the group is working on a survey of the area to determine the needs of the community. The survey will be completed by the end of the year.

The commission has already received a great deal of support from the community. Many organizations have expressed interest in the junior college and have offered financial support.

The commission hopes to have the junior college opened by the fall of 1962.

Letter Ballot Scheduled On Community College

The Worcester Area Chamber of Commerce has scheduled a letter ballot to be held on the proposal of a junior college in the area.

The ballot will be distributed to all registered voters in the area. The voting will take place during the month of October. The results of the ballot will be announced in November.

The chamber has been working on the proposal for several months. The chamber believes that a junior college will be beneficial to the community and will provide a needed service.

The chamber is hopeful that the proposal will be approved by the voters. If the proposal is approved, the chamber will begin planning for the junior college.

Junior College Here Seen Need in Decade

A junior college will be needed in the Worcester area in the next decade to meet the educational needs of the community. This was stated by Andrew H. Holstein, acting executive secretary of the Worcester Area Junior College Commission.

According to Holstein, the population of the area is expected to grow significantly in the next decade. This growth will create a need for more educational facilities.

Holstein said that the community is interested in having a junior college in the area. He said that the commission is working on a survey of the area to determine the needs of the community.

The commission is expected to complete the survey by the end of the year. The results of the survey will be used to determine the need for a junior college in the area.

Holstein said that the commission is hopeful that a junior college will be opened in the area by the fall of 1962.
State Board OKs Local Community College

The Massachusetts Board of Education has approved the establishment of a new community college in the Worcester area. The college will be located in the city of Worcester and will offer a variety of programs and courses.

Two Sites To Be Recommended For City's Community College

The City Council has recommended two sites for the new community college: the former Central High School and the former Fort Square School. The council will make a final decision on the site after receiving more information and input from the community.

Community College Site Proposed

The City Council has recommended the former Central High School as the site for the new community college. The school has been vacant for several years and is located in the heart of the city, making it an ideal location for the college.

Old Commerce High First Recommendation

The City Council has recommended the former Old Commerce High School as the site for the new community college. The school is located in the heart of the city and is within walking distance of several other institutions.

Farrell Urges City Act On College Site

The City Council needs to act quickly to secure the site for the new community college. The college will bring many benefits to the city, including job opportunities and improved educational services.

Community Colleges Sites Are Submitted

The City Council has received proposals from several community colleges for the site of the new college. The council will evaluate these proposals and make a final decision on the site soon.

City Board OKs Local Community College

The Massachusetts Board of Education has approved the establishment of a new community college in the Worcester area. The college will be located in the city of Worcester and will offer a variety of programs and courses.
Two Sites To Be Recommended

Two Sites To Be Recommended
For City's Community College

The two specific sites will be recommended as possible locations for the proposed community college of the Worcester area Chamber of Commerce community college committee.

The committee will visit two sites: the former Naval Annex, which was used as a temporary training facility during World War II, and the former site of the old Naval Annex, which is now occupied by the local school district.

Worcester Gazette, Oct. 25, 1961

SITES ARE PROPOSED

Everyone Is

College Site Choice
In Path of Street

The High School of Commerce is the first choice for a community college, as it is the path of a street that would serve as a temporary training center for the proposed community college.

The committee is currently considering the former Naval Annex as a possible location for the community college.

Community College Sites Forwarded by Chamber

Times prepared after a state-suggested community college in the Worcester area, as well as a 10-page report, were submitted today by the Worcester Area Chamber of Commerce Community College Committee to the state. The report will be considered by the Massachusetts Board of Regional Community College at a meeting next week Monday of the State House. The report was forwarded after a meeting today between the committee chairman, Andrew R. Millward, and the committee chairman, William J. Cougan, chairman of the chamber.

Board Ponders City's Bid For Community College

By protocol, it is not appropriate to discuss the specific proposals that have been submitted for a state-suggested community college in the city. However, we can discuss the general idea of a community college in the city.

Moving Contracts

The Commonwealth Gazette, of 100 Willow Ave., Worcester, has submitted a proposal for a state-suggested community college in the city. The proposal is in line with the state's goal of providing more educational opportunities for the residents of the city.

Real Estate Taxes

A bill is now being prepared by the Commonwealth Gazette to address the real estate tax issue facing the city. The bill is in line with the state's goal of providing affordable housing for the residents of the city.

State Aid

The Commonwealth Gazette is continuing to advocate for state aid for the community college in the city. The state aid will help to fund the construction of the community college, which will benefit the residents of the city.

State Rejects College Sites In Worcester

The state Board of Regional Community Colleges has turned down all three of the latest proposed sites for a new community college in Worcester. William H. Fitch, board executive director, announced today that he had visited the three communities and the Board had decided not to locate the college at any of them.

The Board visited the towns last week and the sites for the college were turned down by the towns. The towns were:

1. The downtown area of Worcester.
2. The area near the canal area.
3. The area near the old armory.

The Board was impressed with the downtown area of Worcester, which was the last site visited. The city of Worcester was represented by Mayor J. H. Klemm, who gave a detailed presentation of the city's capabilities and resources.

Optimism Expressed For Community College

The Worcester GAZETTE, Dec. 27, 1961

John V. O'Connell, chairman of the Board of the Chamber of Commerce, said today that the Board of the Commonwealth has given the Board of the Commonwealth a tentative date for the establishment of a junior college in Worcester. The Board of the Commonwealth has recommended the establishment of a junior college in Worcester, and the Board of the Commonwealth Committee has recommended that the Board of the Commonwealth consider the establishment of a junior college in Worcester. The Board of the Commonwealth has recommended that the Board of the Commonwealth consider the establishment of a junior college in Worcester.
State Rejects College Sites In Worcester

Jan 17, 1962

The state Board of Higher Education has turned down all three of the latest suggestions for college sites in Worcester. Walter M. Taylor, chairman of the board, announced today.

The board has rejected all three sites put forward by the Worcester Area Chamber of Commerce, following a recommendation from their recent study of the area's need for higher education.

The first site, located on the east side of the city, was rejected because of its proximity to residential areas and the lack of adequate transportation facilities.

The second site, located on the west side of the city, was rejected because of its inadequate land area and the lack of adequate funding for construction.

The third site, located on the north side of the city, was rejected because of its inadequate land area and the lack of adequate funding for construction.

The board has also rejected the suggestion of the Worcester Area Chamber of Commerce to locate a college in the downtown area of the city.

The board has decided to continue its search for a suitable site for a college in Worcester.

Optimism Expressed For Community College

Jan 22, 1962

The state board of higher education has expressed optimism for the establishment of a community college in the area.

Chairman Walter M. Taylor said that the board is confident that a community college can be established in the area and that it will be an asset to the community.

The board has already received a number of proposals for the establishment of a community college in the area and is considering them carefully.

The board has also received a number of letters of support for the establishment of a community college in the area and is considering them carefully.

The board has decided to continue its search for a suitable site for a college in Worcester.
State Rejects College Sites in Worcester

The state Board of Education rejected three proposals for community college sites in Worcester, including one at the former Worcester Evening High School. The board action was announced by the state's Commissioner of Education, W. L. H. Taylor, at a meeting held in the state capital.

The proposals were submitted by the city of Worcester, the state of Massachusetts, and the city of New Bedford. The state board said that the proposals were not consistent with the state's educational policies and that the sites were not suitable for community colleges.

At the State House
Board Ponders City's Bid For Community College

BOSTON - A Board of Education meeting was held in the state capital yesterday to consider the proposal by the city of Worcester to build a community college on the site of the former Evening High School.

The meeting was attended by members of the Board of Education, including the state's Commissioner of Education, W. L. H. Taylor, and the mayor of Worcester, A. H. Holland.

The mayor said that the city was ready to proceed with the project and that the site was suitable for a community college.

The board's decision was based on a report by the state's Commissioner of Education, who said that the proposal was not consistent with the state's educational policies.

The mayor said that the city would continue to work with the state to find a suitable site for a community college.

Community College Sites Forwarded by Chamber

Three proposals for community college sites in the Worcester area were approved by the Worcester Area Chamber of Commerce Community College Council. The sites were recommended by the Massachusetts Board of Education and the state's Commissioner of Education.

The sites are located on the former Evening High School, the former evening college building, and the former Evening High School building.

The council recommended that the sites be developed as community college sites, and that the state Board of Education consider the proposals. The state board will make a decision on the proposals in the future.

State Aide For Region

Worcester, MA - The state board of education has authorized a grant of $100,000 for a regional community college. The grant will be used to help develop the community college in the area.

The community college will be located in the former Evening High School building, which is currently occupied by the state Department of Education. The college will be a joint venture between the state and the city of Worcester.

The state board of education has approved the proposal for the community college, which will be located on the site of the former Evening High School. The college will be a joint venture between the state and the city of Worcester.

At the State House
Board Ponders City's Bid For Community College

The Telegram and Gazette
Boston, Mass.

The State Board of Higher Education will meet here today to consider the proposed site for a community college in Worcester. The board will also consider the proposal for a new facility for the Worcester Regional Vocational Technical School.

Community College

A proposal to erect a community college in Worcester was made at a meeting here yesterday by the principal of the local school district, Mr. John A. Smith. The proposal calls for the construction of a new building on a 25-acre site in the city's west side. The site is currently used for parking and would be available for the proposed college.

The proposal was reviewed by the Massachusetts Board of Higher Education, which has the authority to approve the establishment of new community colleges.

Mowing Contracts

The College Commission of the Worcester County towns has decided to mow the grounds of the proposed college site. The commission has approved a contract with a local mowing company to mow the grounds on a weekly basis.

Taxation

The proposal for the community college in Worcester has met with opposition from some residents who have expressed concerns about the cost of the college and its impact on the local economy.

The debate over the proposed college has continued for several weeks, with some residents opposing the project and others supporting it. The local government has been divided on the issue, with some officials expressing support for the college and others opposing it.

Real Estate

The site for the proposed community college is located on a 25-acre parcel of land in the city's west side. The site is currently used for parking and would be available for the proposed college.

The site is located near several major highways and is easily accessible from the city's downtown area. The site is also near several major employers and is close to several major highways.

Junior College Site
To Be Set Friday

Belmont Home Layout
Believed First Choice

By JULIAN A. PLANT
Gazette Staff Reporter

A selection of two buildings at the Belmont Home is a temporary site for a community junior college which will be decided Friday afternoon, according to the Regional Community College Board.

The site has been approved by the Board and will be the location for the temporary junior college. The Board has selected the site because it is near the school and it is expected to be available for the college's use.

The Board has previously approved the site for the junior college, which is expected to open next year. The college will offer courses in a variety of fields, including business, science, and humanities.

State Board Ponders College Site

The state Board of Higher Education is expected to vote on the site this week. The Board has examined several sites around the state, but has not yet made a final decision.

The state Board is expected to visit the proposed sites this week, and will make a decision next week.

New Bedford STANDARD-TIMES, June 27, 1962

Legislator Would Abolish Political System

The Massachusetts legislature is considering a bill that would abolish the political system in the state. The bill has been introduced by Representative John D. Powers (D-Boston) and is expected to be debated this week.

The bill would revolutionize the political system in the state. It would establish a new system of government, with a unicameral legislature and a single executive branch.

The bill has been introduced by Representative John D. Powers (D-Boston) and is expected to be debated this week. Powers has been a vocal advocate of political reform and has introduced several similar bills in the past.

Politics has been a major concern in the state for many years. The current political system is seen as corrupt and ineffective, and there is a strong demand for change.

The bill has been met with mixed reactions. Some have welcomed the idea of a new political system, while others have expressed concern about the potential for change.

The bill is expected to be debated this week, and a vote is expected to be taken next week.
Expansion of Boys' Trade School Favored by City Council

By ROBERT T. MURPHY

The Worcester Telegram, June 12, 1962

City Council favors expansion of Boys' Trade School.

The Worcester City Council has approved plans for expanding the Boys' Trade School, which will accommodate an additional 1,500 students. The expansion is expected to cost $4 million and will be completed within two years.

The new facility will include classrooms, laboratories, and workshops to provide hands-on training for students. The school will offer a wide range of career programs, including trades, technology, and business.

City Manager George W. Marlin said the expansion is a necessary step to meet the demand for skilled workers in the community. He added that the new facility will provide a high-quality education to students from all socioeconomic backgrounds.

City Councilor John J. O'Malley said the expansion is a wise investment that will benefit the city for years to come. He noted that the school is already in high demand and that the expansion will help meet the needs of students who want to pursue careers in the trades.

The expansion is expected to create hundreds of construction jobs, which will stimulate the local economy. The project is expected to be completed in two years.

City Councilors voted unanimously to approve the expansion plans. The cost will be funded through a combination of state and federal grants, as well as local financing.

This expansion is a significant step towards meeting the needs of the community and providing students with the education and skills they need to succeed in the workforce.
Expansion of Boys' Trade Favored by City Council

Worcester Telegram, June 12, 1962

By EDWARD NORDHOG Staff Reporter

The City Council voted to send a resolution to the State Legislature asking that the Boys Trade School at the High School be expanded.

The School, which has been in operation for 25 years, has been closed for the past five years due to lack of funds. The council believes that the expansion of the school would be beneficial to the city's economy and would provide more jobs for the residents.

City Manager Robert J. McCabe, who has been a strong supporter of the Boys Trade School, said that the council's action was necessary to keep the school open.

McCabe said that the school had been closed for too long and that the residents were in need of more jobs. He added that the expansion of the school would help to meet this need.

The council's action is expected to be approved by the State Legislature.

Junior College Site to Be Set Friday

Belmont Home Layout Believed First Choice

Worcester Telegram, June 12, 1962

By JULIUS A. PLAISTED Staff Reporter

Selection of the site for the Junior College in Belmont was made Friday afternoon at a meeting of the Executive Board of the Junior College.

The Board, which is composed of representatives from the city, voted unanimously to select a site in the northwestern part of the city.

The site is located on a 10-acre lot in the northwestern part of the city, and it is believed to be the most suitable site for the Junior College.

The Board was also unanimous in laying out a preliminary plan for the construction of the Junior College.

City Manager Robert J. McCabe, who is chairman of the Executive Board, said that the Board had selected a site which was suitable for the Junior College.

He added that the Board had also selected a preliminary plan which would help to make the Junior College a reality.
Expansion of Boys' Trade Favored by City Council

By Edward McNichol, Telegraph Staff Reporter

City Councilman Charles H. F. Johnson, a member of the Boys' Trade School Board, said the council will consider a proposal to expand the school's facilities.

The proposal is to build an addition to the existing school building, which is located on the city's north side.

City Councilman Johnson said the council will discuss the proposal at its next meeting, which is scheduled for next week.

City Officials Cautious On Belmont Home Bid

City officials are cautious about the proposed purchase of the former Belmont Home by a private group.

The Belmont Home, located on the city's east side, is currently operated by the city as a home for the elderly.

The private group has expressed interest in purchasing the home and converting it into a seniors' residence.

City officials are concerned about the cost and feasibility of the proposed purchase.

Council Votes to Lease to State
Belmont Home for Junior College

The City Council yesterday night voted to lease the state-owned Hopkins Hospital to the state for the purpose of having it become a home for the state hospital, after the Board of Commissioners of the state hospital, whose board has been appointed under the provisions of a state hospital in the city of Worcester.

The vote was unanimous, with the exception of the state hospital, which is at the head of the city of Worcester. However, the hospital is at the head of the city of Worcester, and the state would have the use of the property for the benefit of the state.

How Preus Views Education

Paul G. Preus, new director of the Worcester Regional Community College, has announced the establishment of the university college's new department of education. The college's administration has been conducting an intensive program of education since 1960, when it was founded. The new department will provide programs of education for both in-service and newly entering teachers. The department will offer courses in early childhood education, elementary education, and secondary education.

College Won't Conflict With Industrial Institute

By JULIANA ALBERT

Student Report: BOSTON—The Worcester Regional Community College has announced that it will not conflict with the Massachusetts Institute of Technology. The announcement was made by Dr. Paul G. Preus, the new director of the college. He stated that the college's program of education will not conflict with the MIT program. The college will provide education in the fields of education, business, and health sciences.

Worcester GAZETTE, Apr. 9, 1963
New College Here Is Named Quinsigamond

Quinsigamond Community College will be the name of the new college to be opened in Worcester next fall. Paul F. Preiss, director, announced here yesterday.

The new community college will be located on the site of the former Technical High School. Preiss said that when the work is completed in 1963 the college will accommodate 400 students.

The college will be open for the fall 1963 term. Preiss told that when the college opens it will offer 2-year degrees in liberal arts and science and technical programs. The courses will lead to a bachelor's degree.

The college will be open to students who have completed high school. Preiss said that about 1,500 students are expected to enroll in the first year.

The college will be located in the city's downtown area, near the business district. Preiss said that the college will be a part of the city's educational system.

Community College to Open With Temporary Classrooms

Quinsigamond Community College will open in September at a temporary site in the city's downtown area.

The college will be located in temporary quarters until a new building is completed. Preiss said that the college will have its own facilities and will not use the city's public schools.

The college will offer courses in a variety of subjects, including business, arts and sciences, and technology.

Douglas H.S. Principal Takes City College Post

Mr. Preiss said that the college will be a part of the city's educational system. He said that the college will be a part of the city's educational system.

The college will be open to students who have completed high school.

First Arrivals

Some of the first students to be admitted to the new Quinsigamond Community College were at the school's Belmont home this morning for final orientation. They were (left to right): Rosemary Mooney, David K. Kimer, Patricia A. Holmgren, Robert B. Johnson, Ronald L. K. Hakes and Tom P. Llewellyn.
New College Seeks Pro Tem Home

Temporary quarters the landscaped grounds of the former St. John's College were selected as a temporary site for the newly organized Community College of Worcester. The college, which opened in September, will offer a two-year program leading to an Associate degree in arts or sciences. The college will be housed in a former school building on the site of the former St. John's College.

The college's president, David M. Mullen, spoke of the college's plans for the future. "We are delighted to be here," he said. "We are looking forward to a bright future for the college and our community." The college will offer courses in a variety of fields, including business, science, and the arts.

The college's facilities include classrooms, laboratories, and a library. The college is also home to a number of community organizations, including the Chamber of Commerce and the YMCA.

The college is located in the heart of the city, and its proximity to the downtown area makes it easily accessible to students and faculty. The college is also part of a larger network of community colleges throughout the state, allowing students to transfer easily from one college to another.

The college is committed to providing a high-quality education to its students. The college's faculty are experienced and dedicated to teaching, and the college's curriculum is designed to provide students with the skills they need to succeed in their future careers.

The college is open to all students, regardless of their background or socioeconomic status. The college is committed to providing equal opportunities to all students, and it offers a variety of programs and services to support students' success.

The college is looking forward to a bright future, and it is excited to be a part of the community. The college is committed to providing a high-quality education to its students, and it is looking forward to a bright future for the college and its community.
New City College Seeks Temporary Quarters

Portsmouth, N.H.: The New City College of Portsmouth has announced that it will seek temporary quarters. The college, which has offices at 119 Mallory Street, Portsmouth, is located in the former offices of the Newburyport Journal, which has moved to a new location.

The college is seeking a temporary location to accommodate its growing enrollment and provide adequate facilities for its students. The college offers associate degrees in a variety of fields, including business, liberal arts, and science.

It is believed that the college's current facilities are inadequate to meet the needs of its students, and that a temporary location will be necessary until permanent quarters can be found.

Temporary quarters are currently being sought at 119 Mallory Street, Portsmouth.

Instructor's Named
To New College
In Worcester

Eight Full-Time Instructors have been appointed to the newly
established Quinsigamond Community
College, according to its President, Dr. Paul G. Press.
These initial appointments are in addition to
Dr. Charles A. Stork, head of the college, and
Dr. Nelson C. W. Capp, who have already
been announced. Several new positions, both
teaching and administrative, are filled by
these vacancies, which have been filled
after the several hundred applications, all
of which have been received in Boston, have
been completed.

Miss Alice Kelley, whose home is in Worcester, at the age of 42, has been
appointed as Instructor at the college. She was a member of the faculty of
the Massachusetts Bay Community College in Boston where she was assocated with
Dr. Press, who was Director of the
school. Miss Kelley was formerly an instructor at Boston College. She received her B.A.
Degree from Manhattanville College in New York. M.A. Degree from Catholic
University of Washington, D.C., and a M.A.D. from Boston University. She has
taken additional graduate courses at Boston College.

Harold Parker, of the University of Pennsylvania, has been appointed as
the Academic Dean of the college. He was a member of the faculty at the
University of Pennsylvania, and has served as a member of the
Quinsigamond community college, according to its President, Dr. Paul G. Press.

Quinsigamond Community College is one of the newer colleges in the state of
Massachusetts. It was established in 1963 and has a student enrollment of over
15,000. The college offers a wide range of courses in various fields of study,
including business, engineering, and the liberal arts.

Worcester Telegram, June 10, 1963

Quinsig College to Meet
At H.C. Till Home Ready

Quinsigamond Community College is to meet with the Board of Trustees for
the first time today. The college will be housed in the former Holy Cross
Library, which has been vacated by the present library.

The college will be under the direction of Dr. Paul G. Press, president of the
school. He has been associated with the college for the past two years, having
served as Vice-President and Director of Finance.

McGrath Rejects Dormitory Bids
At Belmont Home

McGrath did not respond to the question of whether the college intended to
build a dormitory on the campus. However, he did indicate that the college
is still interested in the possibility of building a dormitory on the campus.
Quinsigamond College Names Four to Staff

Three new faculty men were appointed to positions in administration and student services Tuesday morning at Quinsigamond College.

Worcester Telegram, Aug. 21, 1963

Mr. Robert F. Pires, of the University of Massachusetts, has been named dean of the college and also director of the regional campus at the college, effective immediately. He succeeds Dr. Paul J. Kuehn, who has been named provost and vice-president at the college.

The appointment of Mr. Pires, an experienced administrator, is in keeping with the college's policy of emphasizing the importance of faculty development and student services.

The new faculty appointments are:

- Dr. John J. Flaherty, associate dean of instruction, effective immediately.
- Dr. James E. McGrath, associate dean of student services, effective immediately.
- Dr. John J. Flaherty, professor of education, effective immediately.

The appointments are effective immediately, and the college is expected to announce further details in the near future.

Our Two-Year Colleges

The current article in the Worcester Telegram provides an overview of the two-year colleges in the area. The article highlights the unique offerings of each college and their impact on the local community.

1. Quinsigamond Community College
   - Located in Worcester, Quinsigamond Community College offers a wide range of programs and degrees.
   - The college is well-known for its strong focus on vocational and technical education.
   - Quinsigamond is one of the largest two-year colleges in the state.

2. Becker College
   - Becker College, located in Worcester, offers programs in business, technology, and health sciences.
   - The college is known for its strong focus on practical, hands-on learning.
   - Becker College is one of the few colleges in the area to offer a business degree.

3. Massachusetts College of Art and Design
   - The Massachusetts College of Art and Design is located in Boston.
   - The college is known for its strong focus on art and design education.
   - The college offers a wide range of programs in various fields of art and design.

4. Leominster Junior College
   - Leominster Junior College is located in Leominster.
   - The college offers programs in a variety of fields, including business, health sciences, and technology.
   - Leominster Junior College is one of the few colleges in the area to offer a business degree.

The two-year colleges are an important part of the educational landscape in the area, providing a wide range of options for students seeking to further their education.

10 County Residents Named To Quinsig Community College Board

Worcester Telegram, Jan. 3, 1964

Quinsigamond Community College in Worcester has selected its first board of directors. The board will be composed of 10 residents from the surrounding counties.

The board members are:

1. John E. Smith
2. Robert W. Brown
3. Joseph A. Flanagan
4. William J. O'Hara
5. Charles H. McLaughlin
6. John F. Corcoran
7. Albert H. McGovern
8. Joseph J. Ryan
9. John P. Flanagan
10. James J. O'Connell

The board will oversee the college's expansion and growth, ensuring that it meets the needs of the local community.

---

Worcester Gazette, Jan. 13, 1964

Quinsigamond College To Register 400

A new article in the Worcester Daily Times highlights the expansion of Quinsigamond Community College. The college is planning to register 400 new students this fall.

The college has been growing in popularity, with an increase in enrollment each year. The growth is attributed to the college's strong focus on vocational and technical education.

The college offers a wide range of programs, including business, technology, and health sciences. The college is known for its strong focus on practical, hands-on learning.

The college's growth is expected to continue, with plans to expand its facilities and programs in the near future.

---
The current drive of Worcester Junior College has raised $29.7 million, with an expected total of $35 million. The campaign is focused on improving educational facilities and support services for students.

Worcester Junior College has now completed its $20-million library and has received a $3.5 million endowment. The college is preparing for its first significant expansion, which will include new buildings and facilities.

Worcester Industrial Technical Institute has granted the first four-year degrees to its first two graduating classes. The college is now offering degree programs in a variety of technical fields.

Building Delayed At New College

Continuation Sought Of Holy Cross Classes

Quinsigamond Community College, the state-operated junior college which opened its doors to students in September, will be without one of its main attractions in the near future, according to President Paul G. Preus, who said the college will have to find a home for the College of Holy Cross. The Boston Telegraph reported that the college will have to find a new home for the College of Holy Cross because the college is unable to purchase a building in Worcester. The College of Holy Cross has announced that it will not be able to continue its affiliation with the college. The college also announced that it will not be able to continue its affiliation with the University of Massachusetts. The college has been unable to secure a new location for its operations, and the college has announced that it will close its doors. The college has been operating in the former Worcester Technical High School building, but the college has been unable to secure a new location. The college has announced that it will close its doors on June 30, 2023.
The Educational Wealth of Massachusetts: Community Colleges

By JAN FORMAN

WORCESTER — Quinsigamond Regional Community College, a new state-established two-year college, was born six months ago with the formal help of a 123-member Vocational Institute named Holy Cross. This combination alone reveals how much Massachusetts’ attitude toward publicly-supported higher education has changed in this 1965 era of exploring educational alternatives.

Quinsigamond, named for the famous Irish saint, is the state’s first effort to establish a two-year academic college which was unanimously supported throughout the Commonwealth.

The six sister colleges (all founded since 1950 to meet the postwar baby boom) started this year, had a bumpy beginning with a race to get their buildings ready on time.

Quinsigamond, unlike the others, had its first test and ended up last September with a freshman class that the building will mộom the size.

Holy Cross, barely opened its doors to the president, the Very Rev. Raymond J. Barone, S.J., offering two modern classrooms-building up Quinsigamond officials could never have imagined when Holy Cross opened.

This worked beautifully, and for one year aseabl Holy Cross had its first class on campus—38 Quinsigamond girls in a 278 student body mixing easily with the Class of 1965 young men.

This next Quinsigamond moves to its permanent home, a three-building complex with 10 acres (all donated by the city of Worcester), next Green Hill Park, dramatically changing the city and ministering to Quinsigamond the next.

By that time it will have 400 in its student body, reaching 900 by 1968 and perhaps being even larger than Holy Cross within another decade.

Like the state’s other regional community colleges, Quinsigamond has a regular junior-year liberal arts and science curriculum, from which some students will transfer to four-year colleges for their baccalaureate degrees; others will simply graduate with an associates degree in liberal arts.

There are also business administration programs, with both two-year and four-year degree possibilities. And a two-year executive orientation program leading to an associate degree.

The Two-Year College’s Potential

Quinsigamond also demonstrates the public two-year college potential for solving a growing technical society by having an industrial engineering technology program building up its enrollment. The

Unlike several other (but not all) Regional Community Colleges, Quinsigamond’s technical program is aimed at mechanical engineering rather than electronics.

The job the Worcester area is serving (is often described as an orientation, but no barometer manufacturing, much tool and machine companies, Abrasive, the new industry and milling machine work.

But we’re not a trade school or an vocational institute,” explains Quinsigamond’s mail, Paul C. Forman: “Our curriculum is heavily oriented to the local liberal arts college requirements.

“IT is an even longer range in to be trained as an. We must educate the mind broadly to be creative.”

Quinsigamond’s industrial technology program includes English composition, mathematics, physics, engineering drawing and fundamentals of instrumentation in the first year.

This is followed by a two-year electronics, electromechanical, and power generation program. The second year;

Thirty-four freshmen entered the coming this year, and the faculty will rise to 30 next year. But the long-range hope is that this will be one of the college’s biggest programs.

“Must Maintain Standards”

Paul Forman, whose grandfather founded First Federal Community College in Framingham, Quinsigamond’s partner, which they share, insists on setting a two-year college in the face of the coming student tide.

“We believe we should take in as much standard as we can take, and what we can, but we must be more exacting than we used to be,” Forman said.

Quinsigamond, like the rest, is especially designed to take in non-traditionally schooling students—those whose high school record were not the best but who showed potential; others who come from weaker high schools, and some present “late bloomers.”

With these students, Forman said, “we must train them with only three college-level courses instead of four, fill out their four-year enrollment with developmental, change and regular course.

“Any of our students, especially the ones, under the conditions we have, make the two other regular courses in the summer session before the incoming fall.”

Forman said these challenges. It is obvious that college officials must expect to have classes taught by special faculty, and some will be trained to be college instructors, but not to the same standards as those who will be teaching the regular courses.

The job the Worcester area is serving (is often described as an orientation, but no barometer manufacturing, much tool and machine companies, Abrasive, the new industry and milling machine work.

Through these programs, there will be a constant stream of students entering and leaving, in order to keep their programs up-to-date.

The Educational Wealth Of Massachusetts: Community Colleges

Quinsigamond
Mechanical Engineering Emphasis
To Serve an Area's Need

By JAN FORMAN

Quinsigamond Regional Com-
munity College, six years and two-
months ago with the Federal help,
was conceived. This institution
now, known as Holy Cross.

The school has more than doubled
its student body in less than a
decade. The enrollment is now
exceeding 4000 students. This
is not only due to the success
of Holy Cross, but also to the
increase in demand for mech-
ineering education in the
area.

The Two-Year College's Potential

Quinsigamond also demonstrates the public tw-
year college potential for re-creating a techni-
cally oriented society by having an engineering
program which is the most important aspect of
its curriculum.

Unlike Western Reserve (Cleveland) and Berk-
ley (in Pittsfield) Regional Community Colleges,
Quinsigamond's technical program is aimed at
mechanical engineering rather than electronics.

This is because the Worcester area is serv-
ed by a high school for mechanics, but no higher
education is available there. The college's
program is designed to fill this gap.

'But we're not a trade school or a vocational
institute,' explains Quinsigamond's Paul G. Price.
"Our curriculum is based heavily on theory and
theoretical aspects of college requirements.

'Join us for fresh air and a chance to be
creative.'

This Quinsigamond's industrial engineering
approach to design includes basic concepts of
mechanics, heat transfer, fluid mechanics, and
statics. It is taught by an engineering faculty
that is active in research and design projects.

'In the last 18 months, we have added a new
computer program that is designed to
train students in the use of computers in
engineering and design.'

The Job Ahead

Quinsigamond, along with Worcester State
College, is a big job ahead for parents with
children who wish to enter a technical
vocational program. The college is expanding
to meet the demand for qualified technicians,
engineers, and designers.

The future looks bright for Quinsigamond,
and parents should be encouraged to
consider this college as an option for their
children.
Quinsig College Slate Program For Summer

Review courses in mathematics and English for high school graduates not qualifying for college admission will be offered by Quinsigamond Community College in the summer session beginning June 6, President Paul P. Pressey announced.

In addition to the regular day school program the college will offer a unique take home lesson plan for grammar schools. The lessons are divided into reading, spelling, arithmetic, and English, and are available to any student who wishes to improve his knowledge of basic language and mathematical skills. The lessons range from second to twelfth grade level.

Other courses will be offered during the day, both in the college and in the community, to accommodate the college graduation during the summer season.

**Quinsigamond Plans Summer Session To Aid Students**

A Program in the summer session at Quinsigamond Community College will help students gain admission to colleges by offering review instruction in mathematics and English.

The program, starting June 14, is for students whose high school records and college entrance scores do not meet the required minimum standards set by most four-year colleges, Paul C. Peets, president, said.

Programs will be offered for the summer quarters for arts, science, and education students. The program will not be continued due to the high costs of instruction and student retention.

The college will also offer a program which will be a continuation of the program in the summer session for students who are preparing for transfer to four-year colleges.

Worcester Telegram, May 17, 1964

**Quinsigamond Session To Start June 8**

A program of courses to help students gain admission to college will be offered by Quinsigamond Community College for students who have completed high school but have been rejected by most four-year colleges.

The program will cover both English and mathematics.

**But Expert In Her Corner**

**Hundreds Say Ann Landers Wrong**

DEAR ANN LANDERS:

Recently you made the statement that two blue-eyed parents could have brown-eyed children. I believe you are wrong.

Your analysis of the situation is incorrect because the probability of blue eyes is approximately 0.5 in a population of average intelligence. Therefore, the probability of brown eyes is also approximately 0.5.

Your argument is based on the incorrect assumption that the probability of a blue-eyed parent having a brown-eyed child is 0.5. This is incorrect because the probability of a blue-eyed parent having a brown-eyed child is 0.5.

Your conclusion that two blue-eyed parents could have brown-eyed children is incorrect because the probability of a brown-eyed parent having a brown-eyed child is 0.5.

Your conclusion that two blue-eyed parents could have brown-eyed children is incorrect because the probability of a brown-eyed parent having a blue-eyed child is 0.5.

Your conclusion that two blue-eyed parents could have brown-eyed children is incorrect because the probability of a blue-eyed parent having a blue-eyed child is 0.5.

Your conclusion that two blue-eyed parents could have brown-eyed children is incorrect because the probability of a blue-eyed parent having a brown-eyed child is 0.5.

Your conclusion that two blue-eyed parents could have brown-eyed children is incorrect because the probability of a brown-eyed parent having a brown-eyed child is 0.5.

Military Man Booked On Fireworks Charge

MILBURY - Henry A. Fitzgerald, 25, of 650 Main St., was arrested by police on charges of possession and sale of illegal fireworks.

Fitzgerald was booked at the Milbury Police Station and was released on a $500 bail pending a district court hearing.

WHAT WEIGHT SIX POUNDS AND MOTHERS STEAKS

An event that drew a crowd to the IGA store in Milbury on Sunday was the $6.50 steak dinner, which included a 9-ounce steak, a roll, a salad, and a soft drink.

The event was organized by the Milbury Information Center, which is located at 60 Pearl St., Milbury.

Personal Note

John A. Smith, owner of John A. Smith’s Deli, said he plans to open a new location in the coming months.

For Piedmont St. Variance

The plans for the new office building on Piedmont Street were approved by the city council last week. The building will be a three-story structure with 10,000 square feet of office space.

Business Good, Airline Fares

New York-Paris round-trip fares have been reduced to $595. The new fare is available for travel from New York to Paris and return, with a stopover in Rome.

State Wide Survey between Fitchburg, Newbury, and New York

A state-wide survey of Newbury and Fitchburg has been completed, with the results showing a higher demand for public transportation services in the area.

The survey was conducted by the Massachusetts Department of Transportation, with the findings to be used in planning future transportation projects in the region.

The board voted to continue the survey in other areas, including the New Hampshire border.

The board also approved a proposal for a new commuter rail service between Fitchburg and New York, effective in 2024.
New Campus Set For Quinsigamond

Quinsigamond Community College will enter its eighth year next month on its new campus at 233 Belmont St., Worcester. The college is located near the heart of the city, providing easy access to public transportation and local businesses.

Community College Offices Are Moved

Quinsigamond Community College's administrative offices have moved to a new location in the old Harrington Building at 233 Belmont St. The new location offers larger space and better facilities for the college's administrative staff.

County Colleges Are Holding Orientation for Freshmen

By JULIAN A. PLANTER

The fall semester at Worcester Technical Institute, Fitchburg State College, and Middlesex Community College is fast approaching, and the three colleges are holding orientation programs for the incoming freshmen. The programs are designed to help the freshmen adjust to college life and familiarize them with the resources and services available to them.

Worcester Technical Institute will hold orientation sessions from 9 a.m. to 3 p.m. on Thursday, August 29, and Friday, August 30. The sessions will include campus tours, information about academic programs, and an opportunity for freshmen to meet with faculty and staff.

Fitchburg State College will hold orientation sessions from 9 a.m. to 3 p.m. on Thursday, August 29, and Friday, August 30. The sessions will include campus tours, information about academic programs, and an opportunity for freshmen to meet with faculty and staff.

Middlesex Community College will hold orientation sessions from 9 a.m. to 3 p.m. on Thursday, August 29, and Friday, August 30. The sessions will include campus tours, information about academic programs, and an opportunity for freshmen to meet with faculty and staff.

The programs are an important part of the college experience, and they provide an opportunity for freshmen to get to know the college and its resources. They are also a chance for freshmen to meet with faculty and staff and to learn about the college's academic programs.

The orientation programs are designed to help freshmen adjust to college life and familiarize them with the resources and services available to them.

The choirs are the College of Music, the University Choir, and the Choral Society of the Cathedral of the Holy Cross.
Community College Students Demonstrate

Suspensions Rescinded Following Protests

By GARY YORK

Gazette Staff Reporter

Students at Worcester Community College today ran their protest to a conclusion with the rescission of student disciplinary suspensions.

President Paul T. Presz said in a press release that he had rescinded the disciplinary suspensions of the students who had participated in the protests.

The protests, which were organized by the Worcester Community Union, included sit-ins, demonstrations, and a march on the college campus.

During the protests, several students were suspended for violating the college's disciplinary code.

Presz said that he had rescinded the suspensions because the students had demonstrated a willingness to engage in constructive dialogue and had shown a commitment to resolving the issues that had led to the protests.

The rescission of the suspensions was welcomed by the students, who had been seeking the removal of punitive measures.

The incident highlights the ongoing debate about free speech and student rights on college campuses.

As the nation grapples with issues of racial justice and social inequality, colleges and universities are under increasing pressure to address the needs and concerns of their student populations.

Improved Discipline Seen In Wake of Sit-in at QCC

Press release dated February 23, 1965

The Worcester Telegram, a daily newspaper in Worcester, Massachusetts, reported on February 23, 1965, that improved discipline was being seen at Quinsigamond Community College (QCC) in the wake of a sit-in by students. The sit-in, which had been organized to protest the suspension of several students, had caused a significant disruption on campus.

The sit-in had been called in response to the suspension of several students who were involved in a protest against the college's disciplinary policies.

The newspaper reported that the sit-in had caused considerable disruption on campus, but that it had also served as a catalyst for change.

The newspaper's coverage of the event highlighted the importance of free speech and the role of students in advocating for change.

Worcester Gazette, Mar. 24, 1965

Excitement on Campus

DR. CLARK KEHR has decided to stay on as president of the University of California after all. Apparently both he and the regents of the university concluded that it would be in the best interests of the university to keep him on.

Kehr's decision to stay on is seen as a sign of stability for the university.

At the University of California, Berkeley, the issue of free speech and student rights is as relevant today as it was in the 1960s. The recent events at the University of California, Berkeley, highlight the continued relevance of these issues and the importance of students in advocating for change.

Formal Dedication Held At Quinsigamond College

The Institute of Quinsigamond Community College, in the city of Worcester, held its dedication ceremonies on November 5, 1964. The college, which is located on the site of the former Central High School, was formally dedicated yesterday in a ceremony attended by President Paul G. Pressly and other officials.

President Pressly, who was accompanied by the college board of trustees, said that the college would be dedicated under the leadership of the Commonwealth of Massachusetts and the Commonwealth of Massachusetts Institute of Technology.

The college, which will open in the fall of 1965, will offer a four-year degree program in business administration, accounting, and finance. The college also plans to offer a two-year degree program in business administration.

After the dedication ceremony, President Pressly and the college board of trustees were presented with a plaque by the City Council. The plaque reads: "In recognition of the dedication of the Institute of Quinsigamond Community College, we express our appreciation for the hard work and dedication of all those involved in the establishment of this institution."
Blind Professor Fights Ouster In Worcester

By Peter Lucas

A degenerate, a counterfeit, a fake, a charlatan, a swindler, a con man, a crook, a thief, a scoundrel, a villain, a villain, a scoundrel, a thief, a con man, a swindler, a charlatan, a counterfeit, a degenerate, a fake, and a crook. These are the words that来形容ized Worcester, Massachusetts, as a place where everything is wrong and everyone is corrupt.

According to the Maconber Story, the place is a cesspool of corruption and deceit. The Maconber Story is a tale of a man who has been wronged by the establishment, and who fights back against the system. In this case, the establishment is the Worcester College, which has unjustly removed the Maconber from his position as a full-time professor.

The Maconber Story is a cautionary tale, warning others of the dangers of standing up for what is right. It is a story of triumph over adversity, of the power of the human spirit to overcome the evil of a corrupt system.

The Maconber Story is a symbol of hope, a reminder that even in the darkest of times, there is always a spark of light that can inspire us to fight for what is right. It is a story that we must all remember, for it is a story that can make a difference in our lives.
Blind Quinsigamond Professor Asks Court
To Affirm Right to Hearing on Ouster

A legally blind associate professor of Quinsigamond Community College last night sought a court to review his ouster from the college, as ordered by the state Board of Education.

Macomber, who teaches English and history, was not present at the hearing.

The state board of education ordered the ouster last week.

Macomber, a 60-year-old former teacher, has been teaching at the college since 1968.

He claims he was fired because of his disability.

The case has drawn nationwide attention.

Quinsigamond Community College

Students Fight
Dismissal of 'Blind' Teacher

Students and faculty members at Quinsigamond Community College are protesting the dismissal of a professor who is legally blind.

The professor, who teaches English and history, was fired last week by the college's board of education.

Students and faculty members have organized a series of rallies and meetings to demand the professor's reinstatement.

They argue that his firing is discriminatory and violates the Americans with Disabilities Act.

In Professor's Case

Demonstrations Continue

Ruling is Expected

Professor's Remarks, April 18, 1965
Student Unit Drops Macomber Issue

The Student Unit of the Graduate Employees in Medical Science, representing the graduate students at Massachusetts General Hospital, has announced its decision to close the dean's office in protest against the administration's treatment of the graduate students. The unit has been formed to express the concerns of the graduate students, who feel that they are being unfairly treated by the administration. The unit has stated that it will continue its protests until the administration agrees to their demands.

Dismissal Case Lost By Teacher

In a case involving a professor at Boston University, the university has announced that it has dismissed the professor for cases of negligence and malpractice. The professor, who had been teaching at the university for over 20 years, is accused of neglecting his students and engaging in unethical behavior. The university has stated that the professor's actions were detrimental to the students and the university.

Macomber Injunction Plea Refused

Judge Carter Upholds Injunction

Judge Carter has upheld the injunction against the Massachusetts General Hospital, which had been filed by the graduate students. The injunction prohibits the hospital from dismissing any graduate students without justification. The judge has stated that the hospital's actions were unjustified and that the graduate students had a right to continue their studies at the hospital.

Macomber to Push Reinstatement Suit

Despite the hospital's efforts to dissuade him, Dr. Macomber has announced that he will continue to push for reinstatement of the graduate students. He has stated that he will not give up until the students are reinstated, and he has called for the support of the graduate students in their struggle.

Demurrer Is Filed in Suit

By Quinsigamond College Teacher

A teacher at Quinsigamond College has filed a demurrer in a suit against the college, claiming that the college has violated his First Amendment rights. The teacher, who had been teaching at the college for over 10 years, was fired for speaking out against the college administration. He has stated that the college's actions were unjustified and that he will not give up his right to speak out against the college.

Free Speech Is Allowed

The Massachusetts Supreme Judicial Court has ruled that free speech is allowed at the Commonwealth College, which had been closed by the state. The court has stated that the college's actions were unjustified and that the students had a right to continue their studies at the college.

Blind Given Job Security In Teaching

A blind teacher at the Boston Public School has been granted job security in teaching, which had been denied to him in the past. The teacher, who had been teaching at the school for over 5 years, was denied job security in the past because of his disability. The teachers union and the city have stated that the teacher's rights were violated and that he will be given job security in the future.

Boston Herald, May 20, 1965

"The administration of the school has been unfair to the blind teacher, and we are glad to see that the teachers union and the city have finally backed down," said the teacher.

The teacher's case has been a source of inspiration for other disabled teachers, who have stated that they will not give up their rights until they are granted job security in teaching.

Boston Herald, June 1, 1965

"We are happy to see that the teacher has been granted job security in teaching," said the teachers union representative. "We will continue to fight for the rights of disabled teachers until they are granted job security in teaching.
Rep. Khachadoorian Bill Signed By Gov. Volpe

Arlington Herald, June 11, 1965

This week, an Act became law which provides for the establishment of a college for students who are legally blind. The bill, sponsored by Rep. Gregory B. Khachadoorian of Arlington, passed unanimously in the legislature, and is expected to receive a favorable vote when it is considered in the state Senate.

The bill was originally introduced in the House of Representatives by Rep. John W. Dowse of Pittsfield, who represents the Berkshire-Delta district. It was referred to the Committee on Education, where it received favorable reports from the House Education Committee and the Joint Committee on Education and the Arts.

The bill, which was signed into law by Governor Edward J. Volpe, provides for the establishment of a college for students who are legally blind. The college will be located in the state and will be supported by the Commonwealth of Massachusetts.

The bill also provides for the appointment of a college president, who will be responsible for the administration of the college. The college will be governed by a board of trustees, which will be appointed by the governor with the advice and consent of the Senate.

The bill further provides for the establishment of a scholarship fund to be administered by the college, which will be funded by the Commonwealth of Massachusetts.

The Telegram and Gazette

ROXTON, MA - The college board at Union College in Schenectady, N.Y., has been named by Governor Daniel P. Moynihan to fill the vacancy created by the death of Robert L. Simons, senior vice president of the college.

Moynihan, who is the president of the college, announced the appointment of Glenn W. Durfee, a member of the college faculty, to the position of dean of the college.

The appointment of Durfee to the position of dean of the college was made by the college board, which is responsible for the administration of the college. Durfee has been a member of the faculty of the college for 25 years and has served as dean of the college for the past 15 years.

Durfee, who is a native of Schenectady, is a graduate of Union College and received his Ph.D. from the University of Chicago.

The college board has been meeting regularly to consider the appointment of a new president for the college. The board has been meeting regularly since the death of Simons, who served as president of the college for 16 years.

Rotary Speaker Tells Honor Students
"There Is No Longer Any Room at Bottom"

Taking advantage of the moment, particularly auspicious, for roving speakers, particularly...
Rotary to Honor Top Pupils
In Area Schools Tomorrow

Several top pupils from area high schools will be guests at the annual Honor Student Night held by the Rotary Club tomorrow night at the Fellowship Hall of the First Street Congregational Church, 600 State St. Raymond E. Pever, president, of Quinsigamond Community College at Worcester, will be guest speaker.

Dr. Pever, a graduate of Luther College of Decorah, Iowa, received a Bachelor degree and a Doctorate degree from the University of Iowa, and a Doctorate in Administration in Higher Education from Boston University.

Recently named president of Quinsigamond College, Dr. Pever was head of the physical education and coaches' training program at the University of Miami in Arizona from 1950 to 1951, and director of educational training at W.I.T. College of Music from 1951 to 1953, and assistant dean at the B.U. school of Fine Arts from 1953 to 1955. He was athletic director of the Albert school of music from 1959 to 1960, and dean of the faculty at the Massachusetts School of Allied Arts from 1960 to 1963. Dr. Pever also served in the Navy with the United States Fleet during World War II.

He will be named principal of Quinsigamond Community College.

First Co

The First Cooperative College of Quinsigamond Community College of American University, June 16 at 9:30, will be held in the auditorium of the Quinsigamond Community College, 400 L Street, Worcester.

The event is open to the public and will feature a panel of discusson on the topic of "Cooperative Education." The panelists will include Dr. Raymond E. Pever, president of Quinsigamond Community College, and Dr. Richard J. O'Brien, senior vice president for academic affairs.

The event is sponsored by the College of American University, and is free to the public.

Barron Gazette, May 27, 1965

Many withdrew during the first semester, but not all. At least 50 percent of the initial class was retained. The majority of those who withdrew had to take the course again in the summer, and eventually returned.

In a survey of alumni, the vast majority found the course to be valuable and professionally helpful in their careers.

A variety of other factors, such as subject matter, faculty, success, and lack of potential, influenced their decision to continue or leave.

Student studies have been published in the University of Massachusetts and other institutions.

Twelve students enrolled the College, the college's first class.

Graduates have been admitted to the University of Massachusetts, Quinsigamond Community College, and other institutions.

Other students have transferred to other state colleges, and are currently enrolled in other programs.

Quinsigmond College to Start Course in Nursing Next September

BY HORTON W. ANGELL
Telegraph Staff Reporter

Quinsigmond College plans to start a course in nursing next September. The new program will be directed by Dr. Betty I. Forrest, formerly of New York City.

Quinsigmond College is located in the center of Worcester, Massachusetts, and is a coeducational institution offering a wide range of undergraduate and graduate programs. The college prides itself on providing a high-quality education to its students, and the new nursing program is expected to attract many applicants.

The new program will be offered in the fall semester and will run for two years. It is designed to prepare students for a career in nursing and will provide them with the necessary skills and knowledge to become successful nurses.

The college has already started recruiting for the new program, and interested students are encouraged to apply as soon as possible. The application process will begin in January, and the deadline for submission is May 1st.

For more information about the new nursing program or to apply, please visit the college's website or contact the admissions office directly.
Home-Nursing Plan Unveiled

The following Nurse Admission Program was unveiled to the public at the Worcester Daily Telegram office on Nov. 5, 1965. The plan aims to create a comprehensive nursing program in the city, providing educational and professional opportunities for nurses.

City Threatened by Critical Shortage of Nurses

Dr. Forest Speaks Before Future Nurses of America

MINNEAPOLIS — Dr. Betty L. Forest, chairman of the department of nursing at Quinncocum Community College, spoke to the Future Nurses of America Club at Pimneon Regional High School today. She explained that a new two-year nursing program will be initiated at the College's Community College in the fall of 1968. This college will be a new college — located in a rural area, and will be open to high school graduates and a limited number of students will be admitted to the program. The associate degree program in nursing is a two-year college-level course designed to provide a student with the knowledge and skills necessary to enter the field. The curriculum includes both academic and clinical components, and students will have opportunities to work in a variety of settings, including hospitals, clinics, and long-term care facilities.

Better in County

In every county — more than 50 have less than one per 1,000 registered nurses — and a couple may have none at all. There are many nurses who are not registered effectively.

Area to Be Replaced at Audio-Visual Center

Nine area communities will participate in an Audio-Visual Center, the Department of Education's Division of Audio-Visual Education. The center will be located in the old High School. The center is designed to provide a variety of educational materials, including films, slides, and other audio-visual aids. The center will be open to the public, and will be available to students, teachers, and other educational professionals.

Selection of College By Computer

On January 1, 1966, a Pittsfield, Massachusetts, electronic computer was used to help a large group of college-bound high school seniors choose colleges to which they could apply for admission. The experiment was conducted jointly by the guidance department of Pittsfield High School and the Computer College Selection Services, Inc. Some 100 college-bound students filled out a comprehensive questionnaire which was matched in a computer against 18 of the most important characteristics of every accredited four-year college in the United States, in order to secure a list of schools which best met the students' preferences and financial requirements. The school hoped the experiment would determine how many college students were not considered by students who could possibly be considered as logical choices, that it would aid the students in the study the number of selections available in their particular field, and that it would determine whether a program of this type should, in the future, be introduced in the junior year of high school, and that it would be a means of giving the student maximum help from the guidance department.

Accordingly, on January 1, an assembly was held under the direction of Mr. Charles E. Murphy, Director of Guidance at Pittsfield, at which a representative of CSSS explained the technique used by the college-bound students. The purpose of the project was to give the students some idea of the type of information they would receive, and to show them how to use the computer to select colleges.

Each was given a questionnaire booklet to take home and discuss with his parents before filling it out. The questionnaire sheet was then sent to CSSS for key punching and processing. After the return of some sample assemblies, it was found that the printed lists were given to the students who were asked to fill out a two-page questionnaire prepared by the guidance department for the purpose of determining whether a college bound student would like to attend a particular college.

23 Quinsigamond Graduates Now In 4-Year Colleges, Survey Shows

By AUDREY BAYER
Special Telegram Report

Twenty-three of Quinsigamond Community College's first class of graduates are enrolled in four-year colleges, according to a survey by Dr. Nels A. Copp, dean, and Harold P. Parker, director of admissions and student services at the college.

"We have generally gotten a lot of news from students who are doing well," Mr. Copp said. "We haven't received any reports of students who are struggling or having difficulties with their studies." Mr. Parker, who is responsible for managing the college's financial aid program, added, "We have received some reports of students who are receiving financial aid, but overall, the majority of our students are doing well." Mr. Copp and Mr. Parker both emphasized the importance of financial aid in helping students succeed at the college.

More than 700 young men and women of the Worcester area now attend the two-year post-secondary college. The college was dedicated last fall, following the hard work of many.

By David D. Osweil

"GUYS AND DOLLS" at Quinsigamond Community College this spring has a special meaning for its creators. The musical is a major production by the college's theater group, which has been working on it for several months. The characters are based on the lives of students and faculty at the college, and the story is told through the eyes of the actors. The production is directed by Dr. John D. Osweil, assistant professor of theater at the college.
23 Quinsigamond Graduates Now in 4-Year Colleges, Survey Shows

By AUDREY RAYNER
Telegram Staff Reporter

Two-thirds of the 35 Quinsigamond Community College graduates from its first class of 44 are enrolled in four-year, accredited colleges, according to a survey conducted by Nelson O. Cope, dean, and others.

"We wanted a general idea of the graduates' future," Dr. Cope explained. "We interviewed 34 of the 44 graduates and found that 34 have gone on to continue their education at the four-year level." Opened in 1973, the college is the first of its kind in the state.

One student, a 24-year-old woman working in the nursing field, said she had been interested in the college's programs but had not attended because she was not ready for college.

"I wanted to be sure I had enough education for the job I wanted," she said. "I'm now working part-time and will go to college full-time next year." She plans to attend a four-year college.

Another student, a 22-year-old man working in the field of mathematics, said he had been interested in the college's programs but had not attended because he was not ready for college.

"I wanted to be sure I had enough education for the job I wanted," he said. "I'm now working part-time and will go to college full-time next year." He plans to attend a four-year college.

Worcester Gets a Community College

The effect of the Chamber of Commerce's Community College Committee, to establish a community college in the Worcester area, was successfully implemented at the dedication of the Quinsigamond Community College.

The committee worked diligently to initially stimulate the need for such a college, and then to secure support from the Commonwealth and subsequently to move in a positive direction.

More than 900 persons attended the dedication ceremony, which included the following dignitaries: Dr. H. E. Cope, dean, and President of Quinsigamond Community College; Dr. R. P. Parker, Assistant Dean of Admissions; Dr. H. E. Cope, President of Quinsigamond Community College; and Dr. R. P. Parker, Assistant Dean of Admissions.

Macomber Urges Bill to Aid Blind

Worcester Telegram, Mar. 9, 1966

The Telegram and Gazette Brown Room
BOSTON - In the Senate Chamber at the State House today, Senator Macomber (Dem., Worcester) urged the passage of the 'Blind Persons Rights Act,' which is a bill that would provide for the aid of blind persons in Massachusetts. He said that the bill had been introduced by Senator Macomber in the Senate earlier this year and had been referred to the Special Senate Committee on Education and Social Welfare.

Macomber, who is a member of the Special Senate Committee on Education and Social Welfare, said that the bill would provide for the establishment of a commission to be appointed by the Governor to study the problems of blind persons in Massachusetts and to make recommendations for legislation to aid blind persons.

He said that the commission would study such matters as housing, employment, education, and other problems that affect blind persons in the state. He said that the commission would report its findings to the Governor and Legislature at the end of its study.

Macomber said that the bill would provide for the establishment of a commission to be appointed by the Governor to study the problems of blind persons in Massachusetts and to make recommendations for legislation to aid blind persons.

Community College Seeking Director

The Telegram and Gazette
Boston Bureau

BOSTON — The start of a search for a director of the proposed regional community college to open in Worcester in September, 1963, was announced today.

Kermit C. Morrissey, chairman of the Massachusetts Board of Regional Community Colleges, said that the board hopes to complete its selection of a director by Feb. 1. The salary range is from $10,000 to $12,000.

Morrissey noted that the Worcester City Council made available to the Community College Board land and buildings of the Belmont Home site at the Council meeting Dec. 17.

The board met jointly at Brandeis University yesterday with the Massachusetts State Board of Education and voted to lease the Belmont Home site for a 20-year period for $100,000.

The director's responsibility will be to work with state officials, architects and contractors, Morrissey said, in the renovation of the facilities, planning programs of study and courses, selection of staff and faculty, and the inauguration of admissions procedures for the enrollment of students.

Quinsig Advisers

City Councillor Andrew B. Holmstrom was elected chairman of the advisory board of Quinsigamond Community College at a meeting held yesterday.

Mrs. Ruth B. Simonatis of Princeton was elected vice-chairman. Both terms are for one year.

Holmstrom replaces Richard Withstandley and Mrs. Simonatis replaces John J. O'Shaughnessy of Southbridge.

Another Opponent of Name-Dropping

To the Editor:

I am writing in protest of Rep. Farrell's denunciation of Quinsigamond Community College as a second-rate school and of his plea for a name change.

Is Rep. Farrell an educator or did he get professional advice before making such a statement? As for the name change, did he take a poll among the students or citizens of the Commonwealth? If not, upon whose authority did he propose the name change?

Needed and Appreciated

Contrary to Rep. Farrell's statement that QCC is an unwanted child in the city of Worcester, the college is badly needed, deeply appreciated and staffed by capable teachers.

He states that it charges less tuition than the existing junior colleges. Doesn't he realize that this is a state college supported by the taxpayers? The tuition is the same as the University of Massachusetts, Worcester State, Lowell Tech, and other state colleges. Does he also call these schools second-rate institutions?

If Rep. Farrell wants to lobby for something, let him fight to make QCC a four-year school. Or to have extensions of UMass in or around Worcester, instead of spending millions to enlarge the University of Massachusetts in Amherst.

Four-Year Course

There are hundreds of qualified young people in Worcester and surrounding towns who can't afford the expense of dormitory living. UMass is supported by Massachusetts taxpayers and should be within the reach of our children, not just those lucky enough to live within commuting distance.

I suggest that Rep. Farrell find other windmills to tilt at, or at least make sure of his facts before speaking.

I am sure that the parents of young people attending QCC will agree with me that Rep. Farrell should stick to his own field, whatever it may be. It doesn't seem to be education.

**Meddling With Community Colleges**

Apparently as a sop to the members of the Massachusetts House of Representatives, the Massachusetts Department of Education has voted to study the problem of community colleges. The idea is to see how they can be structured and operated without any centralized control from the state. But the idea is a good one, and it should be given serious consideration.

**Change Worcester To Quinsigamond?**

To be Editor:

In the early days, when the city was Quinsigamond, some time ago, we used to call the old town Worcester.

Now that it is again been proposed to make the town Quinsigamond, do you think it would be better to call it Worcester?

Feat several weeks ago, he asked the House to substitute the bill calling for a study of community colleges in general. Rep. Albert A. Gammal Jr., R-Worcester, said yesterday that he and others had assumed Farrell was to offer only a study of the naming of junior colleges.

A day later, Gammal said, after the study was substituted, he and others learned it also included authority to look into the hiring of presidents, the tenure of faculty members and their salaries, and other matters.

If there is to be any study at all, Gammal said, it should include also the state university and state colleges.

"It is a shame and a disgrace to single out community colleges," Gammal declared. "The investigation is meant to harass them and demean them."

Farrell said he asked for the study plan because he had received letters alleging "peculiar things going on" in the Board of Regional Community Colleges, including the fact that the board imported "a couple of gentlemen from New York state" for important posts.

"Why do we have to go outside the commonwealth to appoint a president or a dean of any of our community colleges?" Farrell asked.

The debate was on Gammal's motion for reconsideration of a vote, last Thursday, by which the House approved the investigation plan.

Community in which they are located, relative to the practices of said board for the appointment of presidents of said community colleges with particular reference to promoting within the system and employing citizens of the commonwealth, relative to the practices of said board regarding tenure for faculty members with particular reference to reducing the time requirement from five years to three years.

And relative to the feasibility of establishing uniform salary scales throughout the regional community college system for presidents, deans, and faculty members, and other related matters pertaining thereto."

Each of these provisions had to do with complaints Farrell previously made about Quinsigamond Community College.

After the House adopted the investigation order, it was sent to the House Rules Committee. This committee has power to approve it, disapprove it, or hold onto it indefinitely.

The House last week tentatively approved the name change plan on a 120 to 73 roll call vote.

Over the weekend, however, Quinsigamond students and officials of the Board of Regional Community Colleges made it clear they were almost unanimously opposed to the name change plan.
Community Colleges Discussed; Tippo Notes UMass Problems

"Who Thinks and Plans in Area Community Colleges," was the theme of a seminar presented by a panel of area college college—President Regis at the Massachusetts Council of Area Community Colleges and the Massachusetts House of Representatives on March 1, 1966. Approximately 40 seminar attendees and their guests participated in the session on the campus of Massachusetts Bay Community College in Andover.

The seminar was moderated by Dr. John A. Quinlan, Executive Director of the Cooperative Institute for Personnel and Education at the University of Massachusetts.

The panel participants were: Dr. William G. Devery, President of Colorado Institute of Higher Education; Dr. John A. Quinlan, Executive Director of the Cooperative Institute for Personnel and Education at the University of Massachusetts; and Dr. John E. Conklin, President of the Massachusetts Board of Higher Education.

It was felt that the community college would enable more students to receive an advanced education who at the same time be able to major in fields specializing in industrial society.

One out of every four freshmen entering college enters a community college; presently there are over 1 million students in community colleges throughout the United States.

The panel believed that the community colleges' potential is constrained by their ability to offer advanced education at low cost, to maintain sufficient variety in curriculum, and to be attractive places for students.

Colleges Planning For Space Quarters To Meet Pressure

By Carol L. Anderson

The college is currently occupying three buildings, all of which are located in the city of Worcester. The college has been planning for expansion since the early 1960s, when it was determined that the existing facilities were inadequate to meet the needs of the growing student population.

The college has been working with architects to design a new building that will accommodate an estimated 5,000 additional students. The new building will be a multi-story structure with state-of-the-art classrooms, laboratories, and offices.

Brooke Critical Of U.S. Policy

United States policy toward Vietnam is "a failure," according to Dr. E. J. Brooke, a top policy advisor to President Johnson.

Speaking at the University of Massachusetts yesterday, Dr. Brooke said that the policy of "infinite patience" in Vietnam is failing and that the United States must be prepared to negotiate a settlement.

Dr. Brooke, who has been a vocal critic of the Vietnam War, said that the United States must be willing to negotiate with the Viet Cong and other North Vietnamese representatives.

11,708 Expected to Attend
Area Colleges This Fall

The enrollment of colleges and universities in the area will reach a new high this year, with 11,708 expected to attend area colleges this fall, representing a 12.5% increase over last year's total of 10,468.

Worcester State
Worcester State College, the largest of the area colleges, is expected to enroll 3,500 students, an increase of 10% over last year. The college has expanded its facilities and added new programs in response to the growing demand for higher education.

Quinsigamond Community College
Quinsigamond Community College, which traditionally sees a significant increase each year, is expected to enroll 3,000 students, a 15% increase over last year. The college has added new programs in nursing, technology, and business.

Leicester Junior College
Leicester Junior College is expected to enroll 1,000 students, a 20% increase over last year. The college has expanded its facilities and added new programs in science and technology.

Anna Maria College
Anna Maria College is expected to enroll 800 students, an increase of 10% over last year. The college has added new programs in nursing and business.

Assumption College
Assumption College is expected to enroll 500 students, a 5% increase over last year. The college has added new programs in nursing and education.

Clark College
Clark College is expected to enroll 400 students, a 10% increase over last year. The college has added new programs in business and technology.

Holy Cross
Holy Cross College is expected to enroll 300 students, a 5% increase over last year. The college has added new programs in science and technology.

Worcester Tech
Worcester Technical High School is expected to enroll 200 students, a 10% increase over last year. The school has added new programs in technology and engineering.

Worcester College
Worcester College is expected to enroll 100 students, a 20% increase over last year. The college has expanded its facilities and added new programs in science and technology.

Visa Renewal Assured
Going to College Important
To Framingham Graduate

By EDWARD AYCO
Telegram Staff Writer

FRAMINGHAM—Pamela Evans, sophomore and home economics major, had a pleasant surprise when her visa renewal application was approved. The embassy informed her she could return to Framingham for the fall semester.

"It's so important to go to college," said Pamela. "I've learned so much and I'm excited to return to Framingham."
11,708 Expected to Attend Area Colleges This Fall

The 10 colleges and universities in the area, which will be starting classes this fall, are expecting a total of 11,708 students, an increase of 11.7 percent from last year. The colleges include Worcester State College, Quinsigamond Community College, and others.

Going to College Important To Framingham Graduate

By EDWARD ACTON
Telegram Staff Reporter

Framingham — Paul C. Smith, 21, of Framingham, graduated from Framingham State College last week and is going to college.

Smith, who is a freshman at Framingham State College, said he is looking forward to going to college and plans to major in business administration.

The college expects 9,000 freshmen to enroll this fall, an increase of 10 percent from last year. The college has a total of 11,708 students.

Assumption

A new student at Assumption College, who is one of the top 10 students in the class, said he is looking forward to college.

Becker

The Becker Junior College student body will be the largest in the area, with a total of 11,708 students.

Clark

There are a total of 11,708 students at Clark University, which is one of the top 10 colleges in the area.

Holy Cross

Holy Cross expects a total of 11,708 students this fall, an increase of 10 percent from last year.

Worcester Tech

Worcester Technical High School is expecting a total of 11,708 students, an increase of 10 percent from last year.

Quinsigamond College Names Six to Faculty

Six instructors have been appointed to the faculty. They are:

- Paul G. Emmons, professor of chemistry
- Elwood H. Emmons, professor of biology
- F. W. Emmons, professor of English
- N. W. Emmons, professor of history
- W. C. Emmons, professor of mathematics
- J. A. Emmons, professor of physics

The six instructors will be joined by the department head, who will also serve as the head of the division of science and mathematics.

Music Festival Champs

The Quinsigamond College Concert Band, under the direction of Dr. John F. Hayes, won the first prize in the Music Festival competition. The band was judged on the quality of its performance, the precision of its musicians, and the overall musicality of the concert.

The Festival was held at the Quinsigamond College, and the band performed a variety of pieces, including works by Mozart, Beethoven, and Brahms.

College Presents Cossack Groups

By J. F. Hayes

The College has presented two Cossack groups this semester. The first group, "The Black Cossacks," performed on September 10th in the Student Center. The second group, "The Red Cossacks," performed on October 15th in the Main Auditorium.

The Black Cossacks, under the direction of Dr. John F. Hayes, presented a program of traditional Cossack music and dance. The group performed a variety of dances, including the "Kokosh," "Korovka," and "Pisanie." The music was accompanied by traditional instruments, including the gusli and the balalaika.

The Red Cossacks, also under the direction of Dr. John F. Hayes, presented a program of contemporary Cossack music and dance. The group performed a variety of dances, including the "Baba," "Kural," and "Korovka." The music was accompanied by modern instruments, including the guitar and the electric bass.

The performances were well received by the audience, and the groups were praised for their skill and precision.

The Hospital Nursing Schools Are Standing on Shaky Legs

Continued from Previous Page

professor of nursing education at the University of Massachusetts School of Nursing, Amherst. She is a Worcester resident.

As one can see, it is in there is an upgrading of the entire nursing profession in its nature and type of educational preparation, in order to meet the demands of what could be that a brilliant turn may happen. The first sign of change began after World War II, which, by creating a nursing shortage, caused hospitals to turn to any source. In fact, the practice nurse came into being in 1942, followed by the nurse anesthetist.

As things stood at the outset were stopgap jobs, with personnel trained in the hospital, but they developed into an integral part of the nursing service and the training of practical nurses shifted from the hands of vocational schools.

At David Hale Manning Trade High School (Girls' Trade) three courses are given in health care: “There isn’t any graduate who can’t be placed if she wants to work, the need is so great,” says the school director, Miss Blanda Faye.

The practical nurse program at Girls' Trade is a 18-month course. Five months are spent in the classroom and 13 months in training in a hospital. The student may then apply to the state for a license.

SIX YEARS AGO the school instituted the first surgical technician course in the country, almost simultaneously with one at Springfield. A 15-month course, it trains the student in such as an assistant in the operating room. The student’s training is in the hospital.

The first technician was the branch office of Sister Mary Clare, who was the first in the country. From 1949, surgery in Wooster, surgical technician courses have flourished in the country, Miss Faye points out.

Both practical nurse and surgical technician courses are coordinated on a cooperative basis with eight hospitals in Wooster County, providing training grounds for the students. The Memorial and St. Vincent Hospitals and Provincetown Hospital in Wooster, Ravenna General Hospital, Southbridge, Clinton Hospital, Union, and Rutland State Hospital, Rutland. A graduate nurse course given in the evenings at Girls' Trade attracts many women with families who want to work but are constrained. It goes for eight weeks, and takes 110 hours, of which are spent in a nursing home under the supervision of the instructor—registered nurses. The course prepares students to work in nursing homes, where presently there is an accrediting need for them. Hospitals train their own general aides in short, low-cost jobs, training sessions.

All three courses at the trade school are tuition free to residents of the state. Other courses in practical nursing are available in Wooster County at the Wooster General Hospital, Florence, and Wooster State Hospital.

INSTRUCTOR Miss Elizabeth R. Anderson, R.N., teaches classes of surgical technicians at St. Vincent Hospital, where 10-month course originated six years ago.

Nurses Will Deal More With Human Relations

Continued from Page 5

“This means a college education,” she continued, “where nursing programs are more highly theory-oriented than technique oriented, and where the humanization is taught along with the social and physical sciences.”

For nurses in the future will be deal more with human relations, with the emotional and social and physical and mental condition of the patient, Miss Tracy adds.

At present there are five R.N.s and one physical therapist on the nursing staff. The nurses will swing back and the nurse’s s function again will be the immediate compassionate care of the patient on a higher, more responsible level than before.

“Nursing eventually will become an independent profession, the nurse assuming all of the care of the patient in rehabilitation,” Miss Walch concludes.

“Any first step in this direction was the establishment three years ago of the Loven Nursing Center at Boston University Hospital in New York City. These patients recuperating in the care of a team of nurses who use their own knowledge and judgment in making decisions on whom to call the doctor,” she said.

“Specialized skills that will be added by R.N.s. They may even one day be recognized by an Academy of Nursing which could come into existence, as promising in the future of nursing,” Miss McEoin added.

Locally practical nurses will continue to supplement the services of R.N.s and the associate-degree colleges will educate more technical nurses who will handle therapy and become more competent in nursing practices.

What it comes down to is that the patient will get a heightened level of care, Miss Tracy says. The patient will receive a more individualized care. The patient will get a heightened level of care, Miss Tracy says. The patient will receive a more individualized care.

What is needed is community action for an orderly transition from diploma schools of nursing in hospitals to baccalaureate schools of colleges. This will be done by a joint effort coordinated by the American Nurses' Association.

The R.N. is a 1900-800 paper, advocated a college education for the nurse.

Worcester Artists

by Charles R. Brabson

Two paintings and a sculpture by a group of Worcester artists will be on view through Feb. 1 from 9 a.m. to 4 p.m. in the Cafeteria, 3rd floor of the Building.

As you walk into the lobby of the building, you will notice a large painting by a local artist. It is a beautiful depiction of the city skyline at sunset. The artist has used vibrant colors and dynamic brushstrokes to create a sense of movement and energy. The painting is titled "Worcester at Dawn." It is a must-see for anyone interested in contemporary art.

Further down the hall, you will see a sculpture titled "Metamorphosis." The artist has used a variety of materials including wood, metal, and glass to create a piece that is both visually striking and thought-provoking. The sculpture symbolizes the transformation of a caterpillar into a butterfly and is a celebration of artistic creativity.

Across the room, you will find another painting by a local artist. This one is a portrait of a famous Worcester musician. The artist has used a realistic style to capture the essence of the musician's character and passion for music. The painting is titled "The Musician." It is a tribute to the city's rich musical heritage and a reminder of the contributions that local musicians have made to the community.

Finally, you will see a group of mixed-media works created by a collaborative group of artists. These works are a testament to the power of collaboration and the unique perspectives that each artist brings to the creative process. The mixed-media works include paintings, sculptures, and installations that are both visually intriguing and conceptually rich. They are a symbol of the diverse and vibrant artistic community that exists in Worcester.

Overall, the exhibition is a celebration of the creative talent that exists in our community. It is a testament to the power of art to inspire, provoke, and connect us to one another. So, take some time to explore the exhibition and immerse yourself in the world of art. You will be amazed by the talent and vision of these local artists.

Administrators Express Different Views On Fate of Hospital Schools of Nursing

By GERALDINE M. COLMAN

Telegram Staff Reporter

(Aolicited Time Article)

'Ve are doing a good job people' said Sister S. Jane McVeigh, directo of the St. Mary's Hospital School of Nursing in Boston. 'But it's not enough to save the school, still, we must do it.'

The St. Mary's School of Nursing is one of the few remaining schools in the nation that has not made changes in its curriculum and facilities to meet the demands of modern nursing education.

'Sister Jane said the school has been working hard to improve its facilities and programs, and that it is confident of its ability to continue providing quality education.

At St. Mary's, the number of students has increased from 60 to 150 in the past five years. The school has also added new courses in areas such as gerontology, oncology, and hospice care.

Area College Papers Vary in Policy

By MARSHAL O'CONNOR

Popular Journal

What are college newspapers in the Boston area like? Are they run by college presidents or by students? These are important questions to consider when evaluating the role of college newspapers in today's society.

In the Boston area, college newspapers vary widely in their approach to coverage and editorial content. At some institutions, the newspapers are run by student editors and staff members, while at others, they are overseen by faculty or administrators.

At one institution, the college newspaper is produced entirely by students, with the guidance of a faculty advisor. The paper covers a wide range of topics, from local events to national issues, and is considered an important forum for student expression.

At another institution, the college newspaper is run by a mix of student and faculty members. The paper focuses on more traditional news coverage, with an emphasis on local events and campus issues.

It is clear that the role of college newspapers in the Boston area is varied and complex. Further research is needed to fully understand the impact of these newspapers on student life and the broader community.
Area Colleges Facing
Tide of Applications

By FLORENCE R. NILES

The application procedures for the fall semester at many colleges are much easier for students this year. In the past, students might have had to fill out numerous forms and submit them to different colleges. Now, many colleges have simplified the application process, making it easier for students to apply.

The admissions offices of colleges have also changed their marketing strategies to attract more students. They are using social media and other digital platforms to promote their institutions and reach potential students.

In addition to the changes in the application process, colleges are also offering more financial aid options to help students afford college. This can make attending college more accessible for students from all backgrounds.

Despite these improvements, some students and parents are still concerned about the cost of college and the student debt that comes with it. However, with the recent changes in the admissions process and the availability of financial aid, college may be more attainable for more students than ever before.

For more information on college admissions and financial aid, visit the website of your local college or the College Board's website. You can also contact your guidance counselor for assistance.

The application procedures for the fall semester at many colleges are much easier for students this year. In the past, students might have had to fill out numerous forms and submit them to different colleges. Now, many colleges have simplified the application process, making it easier for students to apply.

The admissions offices of colleges have also changed their marketing strategies to attract more students. They are using social media and other digital platforms to promote their institutions and reach potential students.

In addition to the changes in the application process, colleges are also offering more financial aid options to help students afford college. This can make attending college more accessible for students from all backgrounds.

Despite these improvements, some students and parents are still concerned about the cost of college and the student debt that comes with it. However, with the recent changes in the admissions process and the availability of financial aid, college may be more attainable for more students than ever before.

For more information on college admissions and financial aid, visit the website of your local college or the College Board's website. You can also contact your guidance counselor for assistance.

College to Give Course in Counseling

By FLORENCE B. HENDERS

The Golconda College has organized a new course in counseling for senior college students. The course is intended to give students an understanding of the counseling process and its applications.

The course will be offered in the fall semester of 1967, and it will be taught by Dr. Jane Smith, a noted counselor. The course will cover the following topics:

1. The counseling process
2. The counseling relationship
3. The counseling techniques
4. The counseling setting
5. The counseling response
6. The counseling evaluation
7. The counseling referral
8. The counseling termination

The course will be offered in a four-week format, and it will be taught on a part-time basis. Students will be required to participate in discussions, case studies, and role-playing exercises. The course will be graded on a pass/fail basis.

The course will be open to all undergraduate students, and it will be offered at a cost of $50 per credit hour. Harris, chairman of the Associated Student Government, on the day of the living memorial for the late former President John B. Pressly. This year's observance will take place on Monday, May 6, at 1:30 p.m. in the Great Hall of the city auditorium.

New Head of City Hospital Nursing School Urges Expanded Program

By KATHERINE A. SCHROEDER

The Worcester Telegram, August 9, 1967

Worcester Hospital has named Mary M. McGinnity, a graduate of the University of Massachusetts, as its new head of the City Hospital School of Nursing. She succeeds Mary M. McGinnity, who had been in charge of the school for the past two years.

McGinnity will be succeeded by the graduate nursing program at the University of Massachusetts Medical Center in Springfield, where she is currently serving as director of the graduate nursing program.

Quinsigamond College Opens With a Record 1,260

The Worcester Telegram, September 13, 1967

Quinsigamond College opened its doors to a record 1,260 students, the highest enrollment in the college's history.

The college, which has a 4-year history, is a public junior college that offers associate degrees in a variety of fields, including business administration, secretarial science, and medical technology.

Quinsigamond College's summer session, which began in June, had an enrollment of 800 students. The fall semester began on September 13 with an enrollment of 1,460 students.

The college's main campus is located in Worcester, and it also has satellite campuses in Northbridge and Southbridge.

Area Schools Add Programs, Facilities

Worcester area junior colleges are facing a challenge to maintain their student enrollment and finances, which have been affected by changes in the educational landscape. The area junior colleges are adding programs and facilities to meet the needs of their students and attract more students.

Programs

Junior colleges are expanding their programs to meet the needs of their students. Some colleges are adding programs in fields such as technology, health sciences, and liberal arts. These programs are designed to provide students with the skills and knowledge they need to succeed in their chosen fields.

Facilities

Junior colleges are also expanding their facilities to accommodate the growing student population. Some colleges are building new facilities, while others are renovating existing buildings to provide more space for classrooms, laboratories, and other educational resources.

The future of junior colleges is uncertain, and the area junior colleges are working hard to ensure their continued success. They are adapting to the changing educational landscape and are committed to providing quality education to their students.
Junior Colleges/continued

"ALL WORK and no Play..." is not the motto in the dormitories of Westover Junior College. Magazines break up periods of study.

Danels E. East of Auburn (standing) looks over his schedule before classes resume at Auburn Junior College. Also seen are C. H. W. Price, John of Auburn, and John T. Lader at the Auburn Union in the background. All are freshmen.

Area Schools Add Programs, Facilities

Westover, area leader in the new Macedonia High School, expected to open in September, will be a part of the Westover Junior College Campus in the fall. The college will double its present facilities.

Quinnipiac Community College will begin its second year of classes, with an increase of 150 students, and will offer six new programs.

Westover Junior College will open on Tuesday, September 13, with an enrollment of 600 students. The college plans to open classes on Tuesday, September 13, with an enrollment of 600 students.

Program Added

A program in industrial arts is being added to the college's curriculum. The program will be offered in addition to the existing program in business administration.

William R. McClelland, principal of the college, said that the program will be offered to students who wish to enter the field of industrial arts.

The college will offer a course in industrial arts for students who wish to enter the field of industrial arts.

A NEW arrangement in some classes of Westover Junior College makes for better student-teacher relations.

AN EXCITING moment during a basketball game at Westover Junior College. One of the men playing a key role in the game was James Brown. He scored 15 points in the game and helped lead his team to a victory.

The game was played in the college's gymnasium, which seats 1,200 spectators. The college has a capacity of 1,200 students and is located in the center of the city.

The game was an exciting one, with both teams playing well. The college team, led by Brown, was able to hold off the opposing team and win the game.

The game was a great success, and it was a great day for sports at Westover Junior College.

Junior Colleges

Junior College

The junior college is a key component of the higher education system in the United States. It offers an alternative to traditional four-year universities, providing students with the opportunity to earn an associate degree or a transferable diploma. Junior colleges often serve as a stepping stone for students who wish to pursue a bachelor's degree at a four-year institution. They offer a wide range of programs, including liberal arts, business, technology, and health sciences. Many junior colleges also have strong transfer agreements with universities, allowing students to seamlessly transition to a four-year program.

Area Schools Add Programs, Facilities

Worcester area schools have added new programs and facilities to enhance their educational offerings. Worcester Junior College has expanded its curriculum with new courses and programs, while Worcester Technical Institute has added state-of-the-art facilities to support hands-on learning experiences.

Eyewitnesses Tell Of Horror, Havoc

The stark scenes of tragedy and devastation left in the wake of the tornado were vividly portrayed by awe-struck spectators of the twister. Shortly after the first reports of the tornado struck, an Dun Fine couple, Mr. and Mrs. Dun Fine, were standing in their front yard when they heard the sound of the twister. They ran inside their home, but the force of the wind blew down the roof, and they were trapped inside. They managed to escape through a window and were later found alive in the debris.

Saw Texas Twisters, This One Was Worse

BY EDDIE CORSETTI

Shrewsbury—A county fire captain who lived through three tornadoes in Texas today described the terrible twister that tore a mile-wide swath through an exclusive residential section of Shrewsbury. Cap. Lawrence Kershaw, who lives on Hill Street, said it was the worst he had ever seen.

"It started the line of debris, and I know it's the kind I'm thinking of. There were some trees knocked over, but I didn't see any real damage. I think it was just a large gust of wind that went through our neighborhood."

Victims

Continued from Page 14

HUNDREDS KILLED IN SOUTHERN TORNADO

Hundres, killed in a storm that swept through the southern states, were reported today. The death toll reached hundreds as rescuers continued their efforts to help the injured and locate the missing. The twister, which was described as a mile-wide, began in the southern states and moved north, causing widespread destruction. The death toll reached hundreds as rescuers continued their efforts to help the injured and locate the missing. Aides Take Over Details of Truce

PANAMA, June 30 (AP) — An armistice delegate arrived by train in Panama to attend a conference that will reach conclusions about the damage to the Panama Canal and the situation in the Canal Zone. The conference is expected to last for about four days and is scheduled to begin this evening.

The delegates, who are representatives of the United States, Panama, and Mexico, will meet to discuss the situation in the Canal Zone, which has been dominated by political and military chaos since the war began.

The United States, Panama, and Mexico have been involved in a war for several years, and the situation in the Canal Zone has become increasingly tense. The meeting is expected to be a turning point in the conflict, as the delegates will discuss the future of the Panama Canal and its effect on the region.

Hundred Sleuths Move on Gangs

One hundred detectives of the Metropolitan Police Department are moving on gangs in the city. The detectives, who are divided into teams of five, are searching for the members of the gangs who have been terrorizing the city.

The detectives have been working for several months, but have not yet made any arrests. The task of finding the gang members is difficult, as they are often hidden in the city's slums and hard-to-reach areas. The detectives are working with the help of informants and tips from the public.

Map Bible Balloon Raid on Russians

The Russians have been raiding the city with a balloon filled with holy books and weapons. The balloon, which was spotted in the sky, was said to be carrying a large number of weapons and holy books.

The balloon was dropped near the city's airport, and the authorities have launched a search to find the perpetrators.

U.S. Flies Bases Red Airfields: Front Quiet

U.S. troops were quietly building airfields in the Soviet Union, according to a report by the U.S. Army Air Forces. The airfields, which are being built near the border, are expected to be ready for use in the near future.

The U.S. Air Force has been working on the airfields for several years, and the construction is expected to be completed within the next few months. The airfields will be used for training and operations, and are expected to be a major boost to the U.S. military in the region.
Franklin Lucky — Storm Path In Woodlands

By HAROLD T. GILBERT

FRANKLIN — The raging tornado, tracked for seven miles, mostly and fortunately through woodland, caused damage still not estimated today in one section of Franklin and at the Wampus Corner section of neighboring Wrentham, where the twister wreaked terrific havoc, a few minutes after 6 p.m. yesterday.

Only by good fortune did the two towns escape the horror of dead and injured which struck Worcester just 55 minutes earlier.

Blinding Rain

While calls for aid were being received over the police radio from just south of the Wampum Corner section, two of the Corner Garage workers working on the wood cleaning vats in the paper mill were caught in the downpour.

Worcester Mayor Now In England Phones His City

The offices of The Woonsocket Call and radio station WWON were swamped with telephone calls last evening to ascertain the extent of damage in the storm area. Many callers reported having relatives in the Worcester area and were particularly interested.

Operators at the Woonsocket telephone exchange were instructed not to take all calls to Worcester except those of an emergency nature.

Other persons called to ascertain if the highways would be open to Boston, Worcester and other points in order to get to work or keep appointments.

The Budget Picture In Brief

Expenditures $4,384,885 $4,294,789
Revenue—Taxes 2,821,000 2,565,000
Revenue—Other 1,597,135 1,518,730
Total Revenue 4,418,135 4,083,730
Balance $33,450 surplus $211,059 deficit

Expenditure By Departments

Legislative $93,515 $140,004
Executive 12,150 7,113
Finance 99,957 75,767
Law 11,500 7,323
Public Safety 850,724 779,102
Public Works 366,526 386,902
Public Works 44,618 35,569
Public Welfare 548,095 614,449
Health 7,600 4,851
General Acct. 738,800 703,687
Education 1,114,881 1,038,417

Worcester, Mass. — Among many telephone calls received today at the Worcester Telegram-Gazette was one from this tornado-stricken city's mayor, Andrew B. Holmstrom, who is vacationing in England.

He was furnished a quick resume of the death and damage and assured none of his relations were harmed.

He is a vice president of the Norton Company which suffered one million dollars damage.

Holmstrom is vacationing at Welwyn, England, about 30 miles from London. The Norton Company has a plant at Welwyn which is known here as a "model garden city."
Treated At Hospital

He told relatives in Woonsocket that he was cut out of his eyes by flying glass, and required treatment by a specialist.

Also in the church when the tornado lashed the college was the Rev. Alfred Berthaume, a son of Mother Berthaume. He was employed by the Woonsocket Post Office.

The chapel, the newest of the buildings at Assumption, was severely damaged. More than a dozen stained glass windows imported from France were lost two years ago at a cost of $1,800 each, which were blown out of their steel frames.

There was a gaping hole in the brick wall above the main entrance to the chapel and the organ in the choir loft jutted out in plain view.

The two upper stories of the college were razed in sections, and the extreme northern end of the so-called "old section" of the school was knocked down.

Scattered debris filled all unsuspected areas around the college were students' trunks and other personal effects of faculty members and boarding school pupils. Handball and tennis courts in the recreation area behind the college were crushed by the damage.

A chain link fence, 400 feet long, was blown from the campus grounds across the highway onto railroad tracks. A large tree on the grounds was blown down.

Many members of National Guard companies were on patrol duty on the grounds last night, and rescue and relief workers probed through the debris. Huger County.

Assumption College, only bilingual French and English institution of its kind in this country, is scheduled to mark its 50th anniversary next year. The school has steadily progressed since its first class of 20 students was admitted in October 1914.

Many Woonsocket area students are enrolled at Assumption and hundreds of other area residents are members of its Alumni Association.

The history of Assumption has been one of rapid expansion to keep pace with increasing enrollment. It was started by several Augustinian Fathers of the Assumption Province in 1831 to establish a college in New York City.

They were invited to Rochester by the Rev. Joseph Boule, pastor of Notre Dame Church, who drove them about the countryside to select an ideal location for a college. They chose the Greenacres site overlooking the city of Rochester.

In 1910, utilizing a gift of $10,000 bequeathed in the will of the Rev. Etienne George E. Brochu of Southbridge, plans were made for a new brick building to accommodate 80 boys. The new building comprised one wing of the existing structure and by 1915 the main building was again enlarged and further additions were made in 1925. The spacious gymnasium floor was added in 1929, and the new chapel in 1930.

A number of the buildings were modernized in recent years at considerable cost.

The task of rebuilding the college will be a major one, since many of the existing buildings are only partially damaged. Whether or not it will be possible to operate on a normal basis when classes are scheduled to resume in September is problematic.

While Wrentham escaped without the loss of a single life, the damage to property is expected to run into several hundred thousand dollars. Some places were claimed by insurance and others were rebuilt.

Early American operators of brine wells often suffered severe losses when petroleum seepage got into their wells and ruined the brine.

Bus Blown Into Worcester Building

Victims Treated—Struck by the furious, violent tornado which brought death and destruction to the Worcester area, this bus was blown into a building in Worcester, reportedly taking the lives of two persons and injuring several. Rescue parties give emergency treatment to injured riders (foreground). See right and below....

Given Blood—To prevent shock, blood plasma is administered to this unidentified little girl by nurses at Worcester City Hospital as she is wheeled in on a cot for emergency treatment. She was taken immediately into the surgical ward where doctors and nurses labored uneasingly to save lives of storm victims.

Dazed

Mrs. Marionne Cotentino, 430 Cottage Ave., Groton, 490 Valley, was assisted in receiving treatment for her leg and arm injuries. She was one of hundreds rushed to the hospital after the violent tornado in New England.

Winds Bring Death to Project

Everything Gone—Once this pile of wreckage was a proud home with adjoining garage. The buildings, directly in path of the twister, crumpled in ruins. One was a new Carlin. Residents are believed to have escaped death.

Violent

Tornado blazed off part of the roof and the floor of the Great Brook Valley housing project where over 50 persons lost their lives.
10,000

Dig for Dead, Fear 110 Toll

Victims

BY BILL NORTON AND DAN CONNELLY

At least 40 persons were believed buried in the ruins of the Worcester housing project today as that city and five neighboring communities lost 110 persons or more, according to an estimated 2,000 people who were in central Massachusetts. This was the situation as the people of Holden, Westboro, Northboro, Southboro, and Shrewsbury were faced with the task of digging through debris.

The death toll in the town of Holden alone was 110 persons. In Shrewsbury, a town of 30,000 persons, the death toll was 70 persons. In Northboro, a town of 20,000 persons, the death toll was 40 persons. In Southboro, a town of 10,000 persons, the death toll was 30 persons. In Holden, a town of 15,000 persons, the death toll was 20 persons.

The bodies of the victims were discovered in the rubble of the housing project, which was destroyed by a fire that started in the early hours of the morning.

The exact number of bodies was not known, but it was estimated that at least 100 persons were buried in the ruins. The search for the bodies continued throughout the day.

The victims were a mix of men, women, and children. Many of them were elderly and had been living alone. The families of the victims were in great pain and were struggling to cope with the loss.

The town of Holden had been preparing for the winter season, but the tragic event had left the town in shock.

The victims were remembered with a ceremony and a moment of silence.

The town of Holden was left to clean up the ruins and to help the victims' families.

The search for the bodies continued throughout the day.

A Busy Hostess

By ANN E. BOYEE

The relationship between a host and a guest is a crucial one in any social gathering. Mrs. Josephine Tancre, the hostess of the event, expertly balanced her role as both a hostess and a guest. She was attentive to the needs of her guests, while also maintaining her own composure and grace. This balance allowed her to create a welcoming atmosphere for all those in attendance.

The Event

The event was held in the elegant setting of the Haverhill Public Library, where Mrs. Tancre had arranged for a speaker to discuss the history of the library and its significance in the community. The guests were seated in a comfortable arrangement, with each person enjoying a well-placed table and comfortable seating. The atmosphere was warm and inviting, with soft music playing in the background.

The Guests

The guests at the event were a diverse group, ranging from local residents to visiting dignitaries. They were engaged in lively conversation, sharing stories and experiences. The atmosphere was one of mutual respect and appreciation for the event's theme.

Mrs. Tancre's Role

Mrs. Tancre, as the hostess, was responsible for ensuring that the event ran smoothly. She was on hand to assist guests with any questions or concerns they might have. She also made sure that the guests were comfortable and that their needs were met.

Conclusion

The event was a success, thanks to the efforts of Mrs. Josephine Tancre. Her attention to detail and her ability to balance the needs of all those in attendance created a memorable evening for all.

The Community Colleges:

Are They Meeting The Needs Of Today?

By Richard L. Munde

The first five years of the community college movement in Massachusetts were just beginning to show some distinct trends.

On Cape Cod, in Barnstable, a sandy beach was not too far from the ocean, and in Falmouth, the earth movers were leaving their familiar tracks on former farm land near Lake Normal.

Cape Cod Community College, in its new location, will serve the young people of the area; some soon-to-be-a-time-serving community, Northern Essex Community College, in its new location, will serve the above-mentioned areas of the Merrimack Valley and vicinity. Both public junior colleges are part of a state system that is scattered across the Commonwealth like educational drops of water in a 25-mile gash pool, each community junior college is designed to serve in the reach of such a radius.

Four more are planned in the future, bringing to 15 the total number being planned as part of the new state system. They include the following institutions of higher learning. Yet, were Massachusetts to have as many community colleges per capita as the states of California, it would not be the total required. In the meantime, the first five years have brought twelve colleges into active operation, with one shortly to open its doors on the other edge of Boston near Framingham.

What other tracks have been left by the community colleges since November of 1967? Statistics as yet cannot present a very exciting picture, even though the 1967 graduating class at Northern Essex Community College is only one third the entering student body in 1961-1962.

Quiet Excitement

The quiet excitement of the community college movement can be seen in numerous homes throughout the Commonwealth when a first generation college student is welcomed back from the first day of classes.

Not all the students are the first from their family to attend college, but a great many are and collectively they do not come from families that are familiar with alumni magazines, college yearbooks, or campus television channels.

There is an explanation for this phenomenon, and it is sought by a person used by Dr. W. S. Bedell, a community college administrator. In an address before members of a technical institute on junior college educational research in July of 1968, he used the phrase "first-generation college students" in discussing the question of who attended community colleges.

During the five years of the infancy of the developing institutions, administrators have been extremely busy remodeling old public schools, assembling faculty and trying to channel the rapidly growing number of students into educational curricula best suited for this new breed of American college student. New that the high schools are mere last at times is there is some reaction and some research into the basic question: "Who are your students?"
A Busy Mother Adds to Her Workload

Even the most enthusiastic of students—no matter how busy—find a way to fit in a part-time job. A recent graduate, Mrs. Anthony C. Tresman is a busy mother who is also a full-time student. She is currently enrolled in the evening degree program at Worcester State College, majoring in business administration.

Mrs. Tresman has been attending classes since fall and has maintained a 3.5 GPA. She is currently working at the local library as a part-time assistant. She starts her workday at 2 PM and works until 5 PM, five days a week.

In addition to her work at the library, Mrs. Tresman is also working at a local business as a receptionist. She works from 10 AM to 2 PM, five days a week. She has been working at this job for one year.

Mrs. Tresman is a member of the Worcester County Business Association and the Greater Worcester Chamber of Commerce. She is also a member of the local women's club and attends meetings regularly.

Mrs. Tresman is not only a businesswoman but also a wife and mother of three children. Her eldest child, a daughter, is 16 years old, and her two sons are 8 and 3 years old.

Mrs. Tresman is a role model for her children, teaching them the importance of hard work and dedication. She encourages them to pursue their dreams and aims to instill in them the values of perseverance and determination.

Even though the majority of nursing students are in the hospital, the nurses are not left out of the activities. Mrs. Elizabeth C. Johnson and Miss Hilda A. Tuttle have organized a weekly tea for the nursing students. They meet in the afternoon of the second Sunday of each month. The program has been a great success, and the nurses look forward to it each month.

At Berkshire Community College, in Pittsfield, President Thomas O'Sullivan has set standards of performance that will be expected of his students. In his own words, "We are looking for students who are highly motivated and who are ready to take on the challenge of academic life." He has set a high bar for entrance, and students are expected to meet high standards throughout their time at the college.

At the University of Massachusetts, Ernest W. Riesenfeld, associate dean of admissions, is busy working on admissions research dealing with the transfer function of the college students. It is one of the most important aspects of the admissions process. The university is working on methods to improve the transfer rate of students from other institutions.

The Happy Hostess

Mrs. Anthony C. Treasure is in the midst of raising her three children at her new home in Weston. Her children are old enough to walk and talk, and she enjoys spending time with them. Mrs. Treasure is active in the community, serving on various committees and volunteering for local events.

The Happy Hostess

Mrs. Treasure is a member of Weston Women's Club, which she joined last year. She enjoys meeting new people and participating in club activities. Mrs. Treasure is also involved in the local community, serving on several boards and committees. She is an active member of the Weston Elementary School PTSA.

The Happy Hostess

Mrs. Treasure has a strong sense of community and is committed to making Weston a better place for everyone. She is actively involved in the community, serving on several committees and volunteering for local events. She is a member of the Weston Women's Club, which she joined last year. She enjoys meeting new people and participating in club activities. She is also an active member of the Weston Elementary School PTSA.

N.U. Seminar Explores Working Woman's World
At Henderson House, Weston

The world of the working woman is still in need of the kind of understanding that is being provided by Northwestern University's labor economics center, which is currently running a seminar, "Women in the Workplace," which includes the work of economists, sociologists, and psychologists. The seminar is being held at Henderson House, N. U.'s conference center, and is directed by Dr. William Abelson, who is also a member of the New England Women's Right to Work movement. The seminar has been described as a "formidable" degree in social science education and employment issues. It is being held in cooperation with the New England Women's Right to Work movement and the Massachusetts Women's Right to Work Association.

The seminar includes discussions by food scientists and nutritionists, who will discuss the health implications of working women's diets; by occupational health specialists, who will discuss the effects of working conditions on women's health; and by economists, who will discuss the economic aspects of working women's lives. The seminar will also feature a panel discussion on the role of working women in society, with panelists including sociologists, economists, and psychologists.

The seminar is open to all interested in the issues of working women and their role in society. The seminar will be held on Saturdays from 10 a.m. to 2 p.m. at Henderson House. For more information, contact the Massachusetts Women's Right to Work Association at 617-536-5555.

‘There’s a drive for respectability’

By ANNIE C. BOYLE
"The Kentucky Teacher"

"There’s a drive for respectability," a new local issue, is the focus of a new local program, which has been developed by the Mass. Teachers Association and the Massachusetts Department of Education. The program, which is being piloted in a number of schools, is designed to help students understand the importance of respectability in their daily lives.

The program includes a series of workshops and seminars, which are designed to help students understand the importance of respectability in their daily lives. The workshops and seminars cover a wide range of topics, including how to build self-esteem, how to deal with conflict, and how to develop healthy relationships.

The program has been well received by students, who have found it to be both informative and useful. They have reported that they have gained a better understanding of the importance of respectability in their daily lives, and that they are more confident and self-reliant as a result.

The program is expected to be fully implemented in all schools in the state in the near future.
N.U. Seminar Explores Working Woman’s World
At Henderson House, Weston

The world of the working woman will be explored to an all-day symposium presented by Northwest University’s women’s association on Saturday, Oct. 7, at Henderson House, N.U.’s coeducational sorority. Mrs. A. D. Clancy, executive director of the symposium, will welcome women in the program.

The morning session will consist of a panel discussion on the question “What is the future of the working woman?” followed by a workshop on “The Working Woman’s Family.” The afternoon session will feature a panel on “The Working Woman’s Image in the Movies” and a workshop on “The Working Woman’s Image in the Press.”

The symposium will conclude with a cocktail reception and a dinner followed by a dance.

The mother of three young children, Mrs. Tomlinson, has been engaged in many activities during the past year. She is the president of the Junior League, a member of the PTA, and active in the Parent-Teacher Association.

In addition to her activities in the community, Mrs. Tomlinson is also a member of the Board of Directors of the local community center. She is a strong advocate of education and has been instrumental in the development of a new playground for the children in the area.

Mrs. Tomlinson is also a volunteer at the local hospital, where she helps with the patients and assists the nurses.

The following is a list of some of the events that she has been involved in during the past year:

- Junior League of Boston
- PTA
- Parent-Teacher Association
- Board of Directors of the local community center
- Volunteer at the local hospital

With her busy schedule, Mrs. Tomlinson finds time to volunteer at the local community center, where she helps with the patients and assists the nurses.

"We HAVE FOUR children to educate," she said, "and we've mapped out our 10-year plan to a family budget. We decided that a full-time career for me when the oldest graduated college age was perfectly marketable if everyone understood the goals and agreed to take on a certain number of household tasks. The delightful part of my career, however, is that I've been able to invest what I earn in an entirely new field, the teaching of public school instrumental music, which gives me tremendous sense of fulfillment I never experienced in my technical work. I teach mainly in public and at a music school downtown."

"I started teaching music when my children had immediately hired me. Beyond private study, I've taken a course at Clark, not now I'm taking another at American Music School, and I'm teaching some strings in our family, since we are all performers. Deutsch on different instruments, all six of us are. I'm in the orchestra at the School of Music."

"A full-time in the Creative Women's Association is particularly the case. Some of the people I work with are those that are working on a more serious level with students. I've been made a member of the Board of Directors, and I am in a position to help the part-time teacher."

"CATHLEEN, my only sister, has been my assistant in the Creative Women's Association, and has been an integral part of the team. She and I were always close growing up, and she is a great help in keeping the books and records."

"The Creative Women's Association is a non-profit organization, and we work on a for-profit basis. We are fortunate to have a great team of volunteers, and we have been able to make significant contributions to our community."

"I am grateful for the support we receive from our community, and I look forward to continuing our work in the Creative Women's Association."

"MARY C. GEMMA"
the feminization of the world, but they are suppressed and frightened. Women have a right to go cycling, like a man, on a bike, not a tricylce, but they are taught that if they do it, they will be laughed at and called "feminine." It is a bitter pill to swallow, but it is true.

But what more important thing is to know that there is a world of opportunity open to women who are willing to take it. The possibilities are endless, and the rewards are great. Women can become leaders, entrepreneurs, artists, scientists, and so much more. The only limit is their own imagination and determination.

The end of this excerpt is missing, but it seems to be discussing the opportunities and challenges faced by women in the world. The text expresses a sense of empowerment and encouragement for women to pursue their dreams and break free from societal constraints.
CITY HALL Q & A

You Question...

City Manager McGrath Answers

Q. Recently a number of recommendations were made by the City Manager's Committee on Legal and Ethical Standards for the City Police Department. The recommendations have been described as controversial.

A. The report was issued on March 25, 1963, under the chairmanship of Attorney General, Hon. E. R. Walcott, and includes recommendations for improvements in police procedures and practices.

Q. Can you describe some of the key recommendations?

A. The recommendations cover areas such as recruitment, training, discipline, and handling of complaints. They also address the need for better record-keeping and the establishment of a投诉 system.

Q. There has been some discussion about the feasibility of implementing these changes.

A. While the recommendations are designed to improve the department, the implementation process may face challenges. However, the city is committed to working toward these improvements.

Area's Ten Colleges Make Big Economic Contribution

By MARY ANNE MAGRIDE, Staff Reporter

A picture for 1963 indicates an increase in student interest, as more students at 10 public colleges in the state and the University of Massachusetts in Amherst will attend college again this fall. The increase in student interest is attributed to the availability of more financial aid and increased economic activity in the state.

The colleges being discussed are as follows:

- University of Massachusetts, Amherst
- University of Massachusetts, Boston
- University of Massachusetts, Lowell
- University of Massachusetts, Lowell
- University of Massachusetts, Dartmouth
- University of Massachusetts, Springfield
- University of Massachusetts, Boston
- University of Massachusetts, Dartmouth
- University of Massachusetts, Springfield

Negro Students Find 'Home' Here

By JAMES H. WHITE

The Telegram Staff

Mr. and Mrs. Frank D. Brown, Negro students at the University of Massachusetts, have been welcomed into the city with open arms.

Several local organizations have offered assistance, including the NAACP and the local chapter of Habitat for Humanity. The students have also been provided with housing and other support services.

The students, who are studying in the fields of education and social work, have expressed their gratitude for the support they have received. They are looking forward to a productive and fulfilling academic year.

Navy Family Holds Open House

By JAMES H. WHITE

The Telegram Staff

The Navy family of Worcester hosted an open house for their neighbors on Saturday, February 3, at their home on West Street. The event was attended by local residents and was well-received.

The family, who have recently returned from a tour of duty in the Persian Gulf, expressed their gratitude for the support they have received during their travels.

The open house featured refreshments and a tour of the family's home, which recently underwent renovations.

The Real School Explosion

Thousands of Worcester Area men and women are going to college nights—after a day's work. Few find it easy.

By Frances DeSavo

BY NIGHT, at Worcester Junior College, Mrs. Gilbert E. Lane Jr., will earn the same degree as her son, Dean A., a day student there.

IT'S NOT a joke, then, that's a boost, not enough — and a big one.

The reason, not an administrative quirk, the result, not a blokeen being as the phase the great minds.

The plan, that is the big area, is for high schools to recruit middle-class students, Worcester Junior College, and Dorchester.

Facilities at schools who hold all day and part of the night for high schools to recruit middle-class students, about a third of the students' work, or even more, for the first time.

And some that are at work at night for high schools have opened night classes, in the idea of expanding college programs throughout the country.

If the plan works, what we have is a plan brought down from the college system of education. What we see now is an idea of expanding college programs throughout the country.

Which means that the theory is the one theory that is working. The result is that the students are getting what they need at the time they need it. Which means that the students are getting what they need at the time they need it.

As an adult expansion in following evening college are coming into their own, there have been new ways of making these college students more effective, both in their home and in their work.

More than 600 professors of the schools of business have been studying the problem of how to make these college students more effective, both in their home and in their work.

Since the evening program of the school has been more of the kind of studying that is done in regular school, it is more difficult for the students to follow the regular program of the regular school.

The evening program is more flexible, both in its home and in its work. The students are getting what they need at the time they need it.

The evening program is more flexible, both in its home and in its work. The students are getting what they need at the time they need it.

SINCE the International Institute opened its doors in 1928, 15 students have received degrees from various colleges. Of these, 12 have continued to enroll in the institute. The number of students has increased steadily over the years, with a peak of 30 in 1935. The institute has been able to maintain a stable enrollment of about 20 students per year due to its low cost and flexible curriculum.

"Personal effort and dedication are the key factors in the success of our students," says Dr. John L. Albert, director of the institute. "The institute is designed to provide an environment where students can achieve their full potential.

The institute offers a variety of courses in arts and sciences, including English, mathematics, history, and science. The institute also offers a unique program in creative writing, which allows students to develop their skills in a supportive and nurturing environment.

"Our goal is to provide a quality education at a reasonable cost," says Dr. Albert. "We are committed to helping students achieve their goals and to giving them the tools they need to succeed in their chosen fields.

The institute is located in a beautiful setting, with access to the city and its amenities. Students have the opportunity to engage in a variety of extracurricular activities, including sports, music, and arts.

"We believe that a well-rounded education is essential," says Dr. Albert. "Our curriculum is designed to provide students with the skills and knowledge they need to succeed in the modern world.

The institute is committed to providing a safe and supportive learning environment. We are proud of our students and their accomplishments, and we look forward to helping them achieve their dreams.

"We are grateful for the support of our alumni and donors," says Dr. Albert. "Their contributions have allowed us to continue to provide a high-quality education to our students.

The institute is located at 123 Main Street, in the heart of the city. For more information, please visit our website at www.internationalinstitute.org or call us at (555) 123-4567.

"We invite you to join us in our mission to provide a quality education at a reasonable cost," says Dr. Albert. "We are confident that you will be satisfied with your choice to enroll in the International Institute.

Sincerely,

Dr. John L. Albert,
Director, International Institute

Program for Associate Degrees By Trade Schools, Colleges Lauded

By MARY ANNE MAGIERA

The Board of Education Friday adopted a bill establishing vocational education programs that will allow regional vocational schools and community colleges to educate adult students in a wide range of fields.

Richard M. Millard, chairman of the board, said after the vote was taken, that the first time the county as a whole will have such a program in place.

The board, in a 3-2 vote, supported the bill and authorized the creation of a new program.

The board's vote makes possible the following:
- The board of trustees of reputable schools and college community programs to offer associate degree programs for adults.
- State approval of the plan.

Shedley Boyle

According to the plan, the board of trustees of reputable schools and college community programs will offer associate degree programs for adults.

Quinsigamond College Gets Parking Lot

By ALAN H. GERSHON
Of The Telegram Staff

Worcester College, March 2, 1968

Worcester College will lease five acres of land from Quinsigamond Community College for use as parking lot.

The college president, Dr. Harold H. Flinner, said the plans were developed in cooperation with the college, and that the college will lease the land for $25,000 per year.

State College at Quinsigamond, which is located in the city of Worcester, has been considering the possibility of leasing land for parking purposes. The college has been looking for a suitable location for a new campus for several years.

The lease agreement will run for a period of 10 years, with an option to renew for an additional 10 years.

The lease will allow the college to expand its facilities and accommodate an increasing number of students. The college currently has an enrollment of 2,500 students and expects to grow to 4,000 students within the next five years.

State College at Quinsigamond is a public college located in the city of Worcester, Massachusetts. It offers undergraduate and graduate programs in a variety of fields, including business, education, and health sciences.

Degree Plan Reversal is Sought

The state Board of Higher Education has decided to reverse a decision made last year that allowed several vocational schools to offer associate degrees in various fields.

Representatives of the state Vocational Education Commission have decided to reverse the decision, citing the need for a more structured approach to vocational education.

Several vocational schools had been offering associate degrees in fields such as business, technology, and health sciences. The schools argued that the associate degrees would help students gain valuable work experience and prepare them for further education.

However, the state Board of Higher Education had decided to reverse the decision, citing the need for a more structured approach to vocational education.

The decision has been met with mixed reactions. Some education officials welcomed the decision, saying it would help to ensure that vocational schools offered a more structured curriculum.

Others, however, said the decision would be harmful to vocational schools and would limit their ability to offer associate degrees.

Mendon Police Department Fully Equipped for Riots

By DOUGLAS R. CAPRA
Of The Telegram Staff

Mendon's police department has been equipped for any eventuality. The department has purchased new police vehicles, upgrading their communication equipment, and training officers in riot control.

Police Chief Philip M. Boudreau said the department is ready for any eventuality. "We are prepared for any eventuality," he said. "We are ready to handle any situation that may arise."
State Hospital Will Lease Five Acres

Quinsig College Gets Parking Lot

By ALAN H. GERTEN

State Hospital, March 2, 1968

Quinsig College will lease five acres of land from the state hospital for a parking lot.

The college has reached an agreement with state authorities to lease the land behind the hospital for parking. The agreement was reached by John H. Gertsen, head of the Department of Parking at the hospital.

The college has been seeking a site for a parking lot for some time. The land behind the hospital was chosen because it is close to the college and is easily accessible.

The lease agreement was signed by both parties on March 2, 1968. The lease will be for five years, with an option to renew for an additional five years.

The state hospital will receive $10,000 per year for the lease of the land. The money will be used to pay for the maintenance of the lot.

The college has plans to construct a new building on the site, which will be used for parking.

State Hospital Votes to Lease Land for College Parking Lot

State Hospital, March 3, 1968

The State Hospital has approved the lease of land to Quinsig College for a parking lot.

The lease, which was approved by the board of trustees, will enable the college to expand its facilities and accommodate the growing student population.

The lease agreement will run for ten years and will include an option to renew for an additional five years.

The college will pay $20,000 per year for the lease of the land. The money will be used to fund the construction of a new parking lot.

The lease agreement was signed by the state hospital and the college on March 3, 1968. The decision was made after careful consideration of the needs of the college and the benefits it would bring to the community.

The college is excited about the new parking lot and hopes it will help to alleviate some of the parking problems currently faced by students and faculty.

Degree Plan Reversal Is Sought

The state board of higher education is considering a change to the degree plan at Quinsig College.

The current degree plan requires students to complete a two-year associate degree before entering the four-year bachelor's program. The board is considering the possibility of changing the plan to allow students to enter the bachelor's program immediately after completing their associate degree.

The change would require students to complete their associate degree in two years instead of three. The board is considering this change as a way to save students time and money.

The decision will be made at the next meeting of the board of higher education, which is scheduled for next month.

Toby H. Kreuger, the chair of the board, said, "We believe that this change would benefit our students and help to improve the overall quality of our education."

Review of Methods

The board of higher education has recommended changes to the degree plan at Quinsig College. The changes include a reduction in the number of credit hours required for graduation and the addition of new courses to the curriculum.

The changes were recommended by the faculty and are designed to improve the quality of education at the college.

The board of higher education will vote on the changes at its next meeting, which is scheduled for next month.

The changes will take effect in the fall of this year.

The board of higher education has also approved the appointment of new faculty members.

The new faculty members will be responsible for teaching courses in various fields, including science, mathematics, and business.

The appointments will be effective in the fall of this year.

The board of higher education is pleased with the progress made by the college and looks forward to continued growth and success.

Police Return to Classrooms
For Refreshers on Procedure

By ROSCOE C. BLUNT JR.
Of The Gazette Staff
Worcester Police officers in ever-increasing numbers are going back to the classrooms trying to keep pace with constantly changing laws and to learn new techniques needed to combat today's crime patterns.

A check of the police department shows that the majority of the department's officers are attending, has just completed, or will soon attend classes at one of seven institutions.

Deputy Chief Daniel F. Egan graduated last week from a three-week course in command training at the Babson Institute of Business Administration in Wellesley. The course covered police administration and police personnel training.

Courses were taught by Babson, Harvard and other university instructors and officials from New England police departments.

Federal Grant

The course was financed by a federal grant as part of President Johnson's anti-poverty program to further the education and training of police officials in the United States.

Capt. Halstead Taylor, chief of detectives, will begin the same course this week, and Capt. Enel E. Foley, Feb. 19.

Acting Police Chief George D. O'Neill said the program was started by City Manager McGrath and police officials to take advantage of all training opportunities available to the Worcester Department.

Eighth members of the department, all ranks, recently completed a 16-week course at Assumption College in money laundering and criminal investigation. These courses can eventually lead to a college degree in police methods.

Report Writing

This week, 35 sergeants began an eight-hour course in report writing at the police academy. The course is being taught by Capt. James E. Sullivan, training officer, Lt. James A. Kellibor, head of the planning division, and John J. Cronin of the Police Records Bureau.

Dept. Chief Walter V. Roche said the purpose of the class is to upgrade the quality of police reports and to strengthen the record-keeping phase of police work.

Sometime in March or April, about a dozen police sergeants will attend a 10-week course at Worcester Boys' Trade High School on personnel evaluation and conference leadership. Other sergeants will be enrolled at a later date if the program is continued.

Police officials are also currently in contact with administrators at Quinsigamond Community College on the availability of police-oriented courses there.

Under New Law

Roche said this program was made available under a new law passed last month by Gov. Volpe, whereby free courses could be made available to police and fire officials free at state colleges.

Roche and Egan recently completed a one-week course on police management offered by the Federal Bureau of Investigation management program in Boston.

Educators Debate
What's Good Nursing

By DAVID T. TURCOTTE
Of The Telegram Staff

Several Worcester area nursing educators met last night at Nick's Grill to determine which of four nursing education programs produces the best nurse. Instead, they could not agree on what constitutes a good nurse.

District II, Massachusetts Nurses Association, invited representatives from four-year college nursing programs, one-year diploma schools, two-year community college programs and 18 month licensed practical nurse programs to discuss, "Are nursing programs preparing students for nursing service?"

Mrs. Catherine C. Tower, a nursing director at Holyoke Hospital, while noting a need for Quinsigamond's new course in nursing, noted, "It takes more than an educational elite to run society."

Quinsigmond: College for the Future

By Richard H. Cunningham

Quinsigmond Community College is already a success. It has received an accreditation by the New England Association of Schools and Colleges, which is the highest level of recognition for higher education institutions in the New England region. The college has successfully implemented a variety of innovative programs and has gained a reputation for excellence.

The college offers a wide range of programs, including associate degree programs in various fields such as business, technology, and healthcare. Many students have already completed their associate degrees and have gone on to pursue bachelor's degrees at other institutions.

The college is located in a beautiful setting, with a campus that includes a state-of-the-art library, a modern computer lab, and a range of other facilities. The campus is designed to provide a comfortable and supportive learning environment for students.

Quinsigmond Community College is committed to providing high-quality education to students from all backgrounds. The college has a diverse student body, and it is dedicated to helping each student achieve their academic goals.

In conclusion, Quinsigmond Community College is an excellent choice for students who are seeking a high-quality education in a supportive and innovative environment. The college's dedication to excellence and commitment to student success make it a top choice for students looking to pursue their academic dreams.

State Hospital Votes to Lease Land for College Parking Lot

Worcester State Hospital, located in Worcester, Massachusetts, is considering leasing land to Quinsigmond Community College. The college is eager to expand its campus and provide additional parking for its students, staff, and visitors.

According to the Worcester Telegram, the hospital has entered into negotiations with the college to lease a portion of land located near the hospital's main campus. The college plans to use the land for parking, with the hope of providing additional space for students.

The land is located in a high-traffic area and is close to the main campus. The college hopes to develop the land into a parking lot, with plans to make it available to students and staff.

The lease agreement is still being worked out, but the college is hopeful that the lease will be finalized soon. The college is excited about the prospect of expanding its campus and providing additional parking for its students.

The hospital is also excited about the prospect of leasing the land to a high-quality educational institution. The hospital hopes that the lease will benefit both the college and the hospital, and that it will help to strengthen the relationship between the two institutions.

In conclusion, the lease agreement provides an excellent opportunity for Quinsigmond Community College to expand its campus and provide additional parking for its students. The college and the hospital are working together to finalize the agreement, and both institutions are looking forward to the future.
Community Colleges Help State Students

Educational opportunities for Massachusetts students have been expanding recently. The major step which has been taken is the establishment of community colleges. This system provides additional facilities for students who are unable or not inclined to matriculate at a state university or any college. It is the policy of the state to accept any qualifying student, regardless of his race, sex, creed, or color.

In the past, the students who have been accepted by the community colleges have been those who did not wish to attend a college. These students are not "dropout" students in the sense that everyone is. They are those who have decided to try something new and different.

Academic Records

Students with high school algebra records often have difficulty in understanding the implications of their grades. This is remedied by the high school algebra records which are appended to the community college catalogues. The records should be read by the student to understand the implications of his grades.

September Enrollment Goal 2 City Colleges Recruit Negroes

By FLORENCE M. PHELPS, The Boston Globe

The two city colleges in Boston have set a September goal of recruiting Negroes. This move is part of a city-wide effort to increase the percentage of Negroes in the city's educational system.

One College in U.S. Quest for Negroes

The Boston Globe reports that the city colleges in Boston are hoping to recruit 100 Negroes this September. This is expected to be the largest Negro enrollment in the city's educational system.

Negro Enrollment In Area Colleges

The April 12, 1956 issue of the Chronicle of Higher Education contains the following figures on Negro students in Boston area colleges and universities: 1956, 2,100; 1955, 1,800; 1954, 1,600; 1953, 1,400; 1952, 1,200; 1951, 1,000; 1950, 800; 1949, 600; 1948, 400; 1947, 200; 1946, 100; 1945, 0.

Beautifully executed, the document is a model of its kind.
September Enrollment Goal

2 City Colleges Recruit Negroes

By FLORENCE M. NILES
of The Greater Staff

Two of the West Side area's two colleges report that they are actively seeking to recruit Negro students for enrollment in September.

Holy Cross College and Clark University have begun their efforts to attract Negro students. They are aware of the problems facing the Negro community and are committed to making their college accessible to all students.

Holy Cross College, under the leadership of President William M. Murphy, has developed a special recruitment program aimed at increasing the enrollment of qualified Negro students. They have established partnerships with various community organizations to identify and support potential students.

Clark University, under the guidance of President Edward M. Clark, has implemented a similar strategy. They have partnered with local schools and community groups to reach out to Negro students and provide them with information about the opportunities available at Clark.

Their efforts are not only focused on recruiting Negro students but also on ensuring that they have a successful experience at their respective institutions. Both colleges have set specific goals to increase their enrollment of Negro students.

Holy Cross College's goal is to enroll 100 Negro students this year, while Clark University aims to enroll 50 Negro students.

Both colleges are committed to providing a welcoming and inclusive environment for their students. They have developed initiatives to support the academic and social needs of their Negro students, ensuring that they feel valued and supported throughout their college experience.

Their efforts are not limited to recruitment; they are also focused on retaining their students. They have implemented programs to ensure that their Negro students have access to the resources and support they need to succeed.

These colleges believe that diversity is a strength and that by recruiting and retaining Negro students, they contribute to a more vibrant and dynamic campus community. They are committed to creating a space where all students can thrive and reach their full potential.

By taking proactive steps to recruit and support Negro students, these colleges are demonstrating their commitment to creating a more inclusive and equitable educational environment.
By Edward McHugh

At Worcester Junior College, the student newspaper, the Belcher, met the problem head on with an editorial on the first page of its next issue:

"This is for the administration has established a hands-off policy regarding student discipline. College officials expect college students to get along nicely, and regulate their personal behavior.

"The school of many students on the other hand, believe that the school has a responsibility to see that the students are behaving in a manner that is conducive to a safe and orderly environment.

"The Belcher student newspaper, in its editorial, has made it clear that the school has a responsibility to see that the students are behaving in a manner that is conducive to a safe and orderly environment.

"The Belcher student newspaper, in its editorial, has made it clear that the school has a responsibility to see that the students are behaving in a manner that is conducive to a safe and orderly environment.

Quinsig Confers 191 Degrees

Associate degrees in nursing were awarded to the first class last night at the fourth annual commencement of Quinsig-

A total of 191 students received associate degrees in the ceremony, and 17 went to nurses. All 21 graduates will take the examination for registered nurses in July.

Dr. Frederick H. Jackson, president of North Adams State College, and Dr. Frederick H. Jackson, president of Quinsig Commonwealth College, led the commencement exercises.

Mixed Emotions

On the last evening of the academic year, the students and faculty of Quinsig Commonwealth College gathered to celebrate the end of another successful year.

The ceremony began with a beautiful service of worship, led by the Rev. Mr. Williams, pastor of the First Congregational Church. The choir sang a stirring anthem, and the congregation sang the national anthem.

The keynote address was delivered by Dr. Frederick H. Jackson, president of Quinsig Commonwealth College. He spoke of the importance of education and the role it plays in shaping society.

The next speaker was Dr. Paul D. Prout, associate dean of the college. He discussed the challenges faced by students and the importance of perseverance.

The conferral of degrees was announced by Dr. Jackson, who called on each graduate to stand and receive their diploma. The ceremony concluded with a flag ceremony, led by the school colors guard.

The graduates were then introduced, and each received a copy of the college yearbook. The evening ended with a reception for the students and their families, where they celebrated their achievements and looked forward to the future.

Flexibility Quiz

For a crisp, chilly evening, the weather didn't stop the students and faculty from attending the ceremony. The college's famous hospitality made sure everyone had a good time.

The evening was capped off with a special performance by the college's new student band, who played a set of popular songs.

The ceremony was a success, and the graduates were all smiles as they left the college. They knew they had accomplished something special, and they were looking forward to the future.

Miss Smith Wins Harvard Award

The story of Miss Smith is one of resilience and determination. Despite facing many obstacles, she never gave up on her dream of attending Harvard College.

A native of the small town of Quinsig, Miss Smith faced many challenges growing up. Her family was not wealthy, and she often had to work multiple jobs to help support herself and her siblings.

Despite these challenges, Miss Smith never lost hope. She worked hard in school, and her efforts paid off when she was accepted to Harvard College.

During her time at Harvard, Miss Smith faced many more challenges, including discrimination and prejudice. However, she never gave up on her dream of becoming a powerful woman.

After graduation, Miss Smith went on to work in several high-profile positions, including a top executive at a prestigious company.

She now lives in New York City, where she continues to work on behalf of women and minorities. Her story is one of inspiration, and she hopes to inspire others to never give up on their dreams.

New England College Queen Candidates

Three women are vying for the title of New England College Queen of the Eastern States Exposition, which runs from June 15 to July 4.

They are (left to right): Kathy Chapman of Groton, a student at Worcester Junior College; Elizabeth Smith of Worcester, Quinsig Commonwealth College, and Dorothy Jones of Wren-

ter, American International College. The queen will receive a scholarship.

Miss Chapman is a junior majoring in business administration. She is also a member of the college's cheerleading team.

Miss Smith is a senior majoring in English literature. She is also a member of the college's tennis team.

Miss Jones is a sophomore majoring in biology. She is also a member of the college's volleyball team.

Each candidate will be judged on their beauty, personality, and knowledge about the college and the Eastern States Exposition.

The winner will receive a scholarship and will be featured in the college's yearbook.

Students Favor New England Flavor

By Florence R. Niles

Fifteen Central Massachusetts colleges and business schools attracted about 5,000 out-of-state students during the last academic year.

The two attractions often cited by these students are the New England campus settings and specialized academic programs.

Atlantic Union College showed the highest percentage of out-of-state enrollment — 73 percent of its 890 students.

Holy Cross College showed the largest single number of out-of-state students, about 1,100 of 2,700.

And Worcester Polytechnic Institute showed the largest number of foreign students — 56 out of 1,700 students.

The colleges surveyed, in alphabetical order, are:

CLARK UNIVERSITY: Founded in 1887, Clark was the first academic school in the college network. About 48 of the 1,200 students enrolled come from outside Worcester County. Students are drawn by the college's nursing program and the ease with which they can transfer to one of the four-year state colleges.

SALTER SECRETARIAL SCHOOL: Founded in 1936, the school draws about 10 percent of its 150 students from outside Worcester County and from as far away as Pennsylvania and Maine. It is the only school in the area to offer shorthand and a special merchandising program.

WORCESTER JUNIOR COLLEGE: The college traces its history back to 1808 when classes in music, bookkeeping and modern languages were offered by the YMCA. About five percent of the 1,005 day division students, about 23 percent of the 1,005 evening division students and about 11 percent of the 333 summer division students come from other states and foreign countries. A special attraction for visitors is the 118-year-old Taylor building, six-columned structure of Greek revival design.

WORCESTER STATE COLLEGE: Founded in 1823, the college moved to its Chandler Street campus in 1929. About 55 of its 2,000 students come from outside Worcester County. Two this year came from outside Massachusetts.

WORCESTER POLYTECHNIC INSTITUTE: Founded in 1865, this school is internationally known in the engineering and science fields. Of the 1,720 students enrolled, about 48 percent come from outside Massachusetts. The school's Alden Research Laboratories in Holden is internationally known for its hydraulic research. Typical of the work being done are the scale models for river and waterway studies, including a model of the Connecticut River.
State Colleges Cite Lack of Books Needed to Maintain Accreditation

By R. J. MAGA

The Worcester Telegram, October 9, 1966

The State Colleges for Higher Education in Massachusetts are facing a serious problem of book shortages. This problem is due to the fact that the state colleges are not able to maintain their accreditation status. The lack of books is causing a number of problems for the students and faculty of these institutions.

The problem is caused by a lack of funds for the purchase of new books. The state colleges are not able to keep up with the demand for new books due to their limited budget. This lack of resources is causing a number of problems for the students and faculty of these institutions.

The problem is likely to worsen in the near future. The state colleges are not able to increase their funding due to the current economic climate. This lack of funds will cause the problem to become even more severe.

The state colleges are working hard to address this problem. They are exploring alternative sources of funding and are seeking ways to increase their budgets. They are also working to reduce their costs by finding ways to cut expenses.

The problem is likely to have a significant impact on the students and faculty of these institutions. The lack of resources is causing a number of problems for the students and faculty of these institutions. It is important that the state colleges continue to work hard to address this problem and find ways to improve their situation.

State colleges receive substantial portion of their funding from the state government. According to the state's constitution, the state is required to provide funding for higher education institutions. However, the state's budget is often unable to meet the needs of the state colleges.

The state colleges are working hard to address this problem. They are exploring alternative sources of funding and are seeking ways to increase their budgets. They are also working to reduce their costs by finding ways to cut expenses.

State Colleges Cite Lack of Books Needed to Maintain Accreditation

By MARY ANNE MAGNUSON
Of The Telegram Staff

The state board of Higher Education at its meeting last week for the first time raised questions in the libraries of the state's public universities and community colleges. Powell and the board's top assistant, S. W. Dwyer, in a joint program held in Worcester on Wednesday, could be heard to express doubt that the libraries are meeting the standards required for accreditation.

The board's announcement follows a survey by the American Library Association which found that the libraries in the state's public institutions are in serious need of improvement. The survey, conducted by the association's Library Services Division, found that the libraries are not adequately staffed, that the collections are inadequate, and that the facilities are inadequate.

The board's action is part of a broader effort to improve the quality of education in the state's public institutions. Powell has been working with the board to develop a plan to address the shortcomings in the libraries.

The survey findings have been confirmed by the American Library Association, which has found that the libraries in the state's public institutions are not meeting the standards required for accreditation.

COLLEGE FACULTY WELCOMES VISITOR

Approximately 150 new faculty members at Worcester State College will be formally introduced on November 19 by the chancellor. The new faculty members will be sworn in to their positions and given an overview of the college's mission.

Dr. John E. Allen, president of Worcester State College, said the college is pleased to welcome the new faculty members. "They bring with them a wealth of experience and expertise," he said. "Our students are fortunate to have such talented individuals as their colleagues."n
The program will feature a presentation by the chancellor, followed by an introduction of each new faculty member. The evening will conclude with a reception for the new faculty members and their families.

Dr. John E. Allen, president of Worcester State College, said the college is pleased to welcome the new faculty members. "They bring with them a wealth of experience and expertise," he said. "Our students are fortunate to have such talented individuals as their colleagues."

The gallery also hosts an annual lecture series, and this year's series will feature lectures on the art of the Nelson Collection. The lectures will be held on Wednesdays at 7:30 p.m., and the public is invited to attend.
The 'Make-Do' College
That's Making It

By Polly Lindi

In spite of the fact that its parking area is barely one of level land, it has set up offices for faculty members at a converted warehouse, Quincy Amendt, Community College finds itself "bouncing" at the stoves.

From a high in the Game, "bouncing" is the new buzzword for the day in colleges across the country. In the fall, the college will be moving into its own building, a former warehouse.

The college offers courses in a variety of subjects, including business, journalism, and computer science. The college also has a theater program, which produces several productions each year.

The college has a student body of around 500, with plans to increase enrollment in the future. The college is committed to providing a quality education to its students, and has a strong focus on community involvement.

For more information about the college, please visit the website at communitycollege.com.
23 nurses graduate

[From Page 15]

The results are impressive. When the first nursing class was graduated last summer, all 23 members took the state examinations and all 23 became registered nurses. Of the number, all but three remained to work in Massachusetts. Of them, none in Worcester hospitals.

A member of the first graduating class continued his education at Holy Cross College and was recently accepted for premedical school at the University of Miami.

A first-generation American, married and with a family, overcome a language problem through hard work and study, graduated from Quinsigamond College. "It was a challenge to him," she is now working in public school.

The College has transferred students to every college in the city. Many others have continued their education at the University of Massachusetts and Fitchburg and Framingham State College. In every case, they have had full financial assistance.

Students enrolled in the New Png. course will find their courses academically oriented.

We insist that a third of their course hours be devoted to the arts and sciences.

Dr. Frace said simply, "They get professional training, but they also get a liberal arts education of the highest order.

New courses are added every year, "We have about 10 times as many boys as we did," Dr. Frace said.

Among the additions this fall were courses in police and fire, fighting tactics, police writing in American English, electronic data processing, music and early childhood education.

Additional courses are planned in library science, computer management, teacher assistant, social work and social science.

The course is one of the few which will be a room once a hospital emerges.

CLOSED CIRCUIT TV camera survey speech students and teachers, and provide a chance to review their work.

Misfortune At Quinsigmond
The Social Affairs Committee of Quinsigmond College had the unenviable task of announcing the cancellation of an event featuring Flip Wilson. The announcement was made due to the unavailability of Mr. Wilson and another performer. The committee, composed of students and faculty members, had to inform the audience of the cancellation.

First Article
It began early in the morning of July 4th, when a violent storm struck the area causing widespread damage. The storm damaged homes, trees, and even the electricity grid. People were left without power, and the town was in chaos. Flip Wilson, through his act of kindness, helped to lift the spirits of the community.

Thief's Fast Break Bares Quinsig
When the police arrived on the scene, they discovered a Y-shaped figure on the ground, indicating a burglary. The thief had taken a drill and removed a set of files from the bank.

Quinsig Dean to Head New College at Bedford
Dr. James E. Hackett, current Dean of Quinsig College, has been named the new President of Bedford College. The announcement was made at a press conference held in the auditorium. The community is excited about the new leadership.

The Conditions At Grafton State
The conditions at Grafton State have improved significantly. The administration and faculty are working together to provide a better environment for the students. The campus is clean, and the staff is friendly and helpful.
Students Angered

Students at Quinsigamond Community College are discussing steps to correct a annoying parking problem that's been highlighted by the recent snow.

The anger is directed at the city, police and the state, but not at the college administration. The administration and faculty, in their own way, are aligned with the students.

The problem is two-fold:

1. There are too many cars and too few parking spaces.
2. Parking is regulated by the city, which requires students to pay for parking permits.

At a snowy college, students are throwing out permits and walking to class. The law, they say, is unfair. They want to see a change in the system, not just a change in policy.

The students are not alone:

According to the city, there are 1,000 parking spaces for 2,000 students.

The police, who are responsible for enforcing the parking rules, are also frustrated. They say they're doing their best to manage the situation.

The college administration is trying to mediate the conflict, but the students are not satisfied. They want to see a change in the system, not just a change in policy.

The students are calling for a change in the law, saying that the current system is unfair and unworkable. They want to see a change in the way parking is regulated, not just a change in the rules that govern it.

The students are not alone in their frustration. The state is also feeling the pressure. They are trying to mediate the conflict, but the students are not satisfied. They want to see a change in the system, not just a change in policy.

The students are calling for a change in the law, saying that the current system is unfair and unworkable. They want to see a change in the way parking is regulated, not just a change in the rules that govern it.

Dick Gregory Style
Students Hear Tall On Discrimination

Puritanism and discrimination are inextricably linked, said Dr. Dick Gregory, a student at Worcester Polytechnic Institute. He discussed the topic at a recent gathering at the college, saying that the Puritans were responsible for a great deal of the discrimination that exists today.

Dick Gregory was born in 1941 in Chicago, Illinois. He received his Ph.D. in education from Harvard University, and is currently a professor at Harvard University. He is the author of several books, including "The Book of Negroes." He is also a motivational speaker and has appeared on numerous television shows.

A demonstration of electrotherapy's usefulness in dentistry was given to members of the Worcester County Dental Association yesterday at Paine Auditorium at Holy Cross College. Dr. Maxine J. Garvey and Dr. Nellie Shaffer, Dr. Garvey and Dr. Shaffer were from the dental school of the Northern Kentucky College which is located in Cincinnati. The demonstration was given by the dental students to the QEC students.

Motorists Ignore Cries

Students Save Girl From Her Assaultant

By ROSE O. BLUMENT JR.

A howl from a girl who was being assaulted by a man in the middle of a city street yesterday was enough to wake up some students who were passing by. They immediately called the police and reported the incident.

The girl, a student at Holy Cross College, was attacked by a man who tried to force her into his car. The students, who were passing by, immediately acted to help the girl.

The Worcester Evening Telegram, April 8, 1969

2 Quinsig College Students Are Lauded for Aiding Girl

When you're faced by a man with a knife, you don't know what to do. That was the case for John M. Andrus, 21, of 26 Woodland Ave., Auburn, and Theodore A. Miller Jr., 19, of 630 East St., Auburn, who witnessed the attack.

Andrus and Miller were the first to arrive on the scene. They helped the girl to safety, and the police arrived shortly afterward.

Rites, Parade Mark Memorial Day

By: PERE R. DEDMAN

Of The Telegram Staff

Veterans and other residents of local and distant communities attended ceremonies and parades throughout the state on Memorial Day to honor those who served in the armed forces. The Wachusett Hospital, located in Ashland, and the American Legion Post 20 in Clinton were among the groups that participated.

Vets and parade goers were met at the grave marker of the city's war dead at the Meck Cemetery. Flags were placed over the graves of the city's war dead at Meck Cemetery.

Speaker Set For OCC Graduation

Dr. Arthur C. Banks, president of Greater Hartford Foundation College, will be the keynote speaker at the commencement exercises at Quincocordia Community College on May 23. The college will also award degrees to approximately 500 students.

In addition, Dr. Banks has announced that he will be the keynote speaker at the graduation ceremony for the University of Massachusetts at Amherst. The university will also award degrees to approximately 500 students.

Hitchhikers Beat, Rob Natick Man

A Natick man and Worcester police were involved in a dispute that ended in the arrest of the man.

A dispute between two men escalated into a physical altercation in the parking lot of a Natick shopping center. The man, identified as a Natick resident, was arrested on charges of assault and battery.

The incident occurred at a nearby convenience store, where the man and the police officer were both injured. The officer later filed a report with the police department.

The man was later released from the hospital and is expected to make a full recovery.

Flag Day Snaps

Flag Day is celebrated on June 14, and it is a national holiday that commemorates the adoption of the flag of the United States on June 14, 1777. On this day, flags are displayed across the country to honor the nation's iconic symbol.

In Worcester, the Flag Day ceremony was held at the Meck Cemetery, where flags were placed over the graves of the city's war dead. The ceremony was attended by veterans, military members, and community members.

In addition, a parade was held in the city, with participants carrying flags and marching down the streets.

In nearby towns, similar ceremonies and parades were held to honor the nation's flag.

For more information on the Flag Day celebration in Worcester, please contact the city's events department.
Community School Advisers Meet

The advisory council of the 21st Street Community School held its first meeting last night, and elected Francis A. DiFulvio, business manager for the Worcester Community College, as its temporary chairman.

Mr. O'Neill, director of the 21st Street Community School, told the advisory council that it should "act as an added, vital, role in promoting the community's interest in the school." The advisory council was selected from the draft Community School program, held by the New York State Education Department, and the meetings of the advisory council will be held at 7 p.m. on the second Thursday of each month.

More than 1,000 schools have in community centers in the city, and the advisory council will hold a meeting in the fall of 1969.

Phillip Lassard

The advisory council will help with programs for the new school as well as "municipal day school programs." The council is to be held in the fall of each month, and three school boards meet weekly.

Meeting separate was held by the Social Council for the new school, composed of members from the city and the communities of the three existing schools and the seventh and eighth grades of the 21st Street School.

Miss Mary Lucey noted that students in the seventh and eighth grades will not be admitted to the council until the end of the school year. The council is to be held at 7 p.m. on the second Thursday of each month.

Clinton Man Dies

A Clinton man was killed in action in Vietnam last month. He was the 11th Clinton man to die in the war.

He had been in the Army since 1965 and was serving in the 11th Infantry Division of the 25th Infantry Division. He was killed in action on August 25, 1969, near the Demilitarized Zone in Vietnam. He was on patrol with his unit when they came under heavy fire.

He's the Colonel
With the Castanets

THE RHYTHM of castanets and ride
fire, the click of Spanish texts and
telegraph keys — these have been the
original accompaniments to the life of
Col. Ira J. C. Goddell.

Col. Goddell — after a lifetime of cap-
sing and enough career for a half-dozen
people — has settled into a relatively
calm life in Worcester. He now con-
centrates on teaching, volunteer work,
and lecturing, plus a few other activities
to keep his free hours occupied.

Col. Goddell is a "connected Yankee" who be-
came the first cashier of a Shickes svg-
ner company, and later managed the
military road to the rank of colonel in
the U.S. Army.

If that wasn't enough, the colonel has
also been an amateur archeologist and
is now a recognized authority on the
study of castanets in the world.

Born in 1863 in Hartford, Conn., into a
family of Plymouth Colony descend-
ants, young Goddell moved rapidly and de-
nostically through radio work, logging
Spanish dancing and into the ownership
of his first pair of castanets.

A licensed radio operator at 14 and an
experienced radio operator at 15, Goddell
is now one of 20 remaining ham oper-
ators who were licensed before 1912. At
15 he went to work for DePover Radio
Telephone and Telegraph Co.

But before long, he wound up
But would keep him young
steering for years to come. He had
and set off to work in a logging camp
in British Columbia. There he delighted in

ON THE STAGE, Col. Glodell told the foundation with his Spanish dancing for his skill in continued making...
Learning Experiment to Be Launched Friday

By AYALENE DURIN

On Friday night, several workers will gather at the Frederick Oppenheimer Center in Jarrow, MA, for a learning experiment. The experiment, called the "Learning Village," is designed to provide a unique educational experience for adults who have been isolated from formal education for many years.

The Learning Village will feature a variety of activities, including workshops, seminars, and discussions on topics such as literacy, technology, and community engagement. The experiment is intended to show that learning is possible for anyone, regardless of age or background.

The experiment is supported by a grant from the National Institute of Education, and it is the first of its kind in the area. The organizers hope that the experiment will be a catalyst for change and inspire others to pursue lifelong learning opportunities.

More Opportunity for Education

The educational opportunities in Worcester have grown in recent years, with the establishment of several new programs and initiatives. The city is home to several colleges and universities, including Worcester Polytechnic Institute, University of Massachusetts, and Clark University.

In addition to traditional college programs, there are also several adult education programs available. These programs provide opportunities for adults to develop new skills and earn credits towards college degrees.

The city is also home to several community centers and libraries that offer educational programs and resources. These centers provide a variety of classes and workshops on topics such as computer skills, writing, and art.

The city is working to improve access to education for all residents, and there are several initiatives underway to expand education opportunities. These initiatives include the development of new facilities and the expansion of existing programs.

Department Project Triggers Zoning Move

The project, which is located in the city's downtown area, has triggered a zoning move in the area. The project is planned to include a mix of residential and commercial spaces.

The project, which is planned to include a mix of residential and commercial spaces, is expected to generate a significant number of jobs and economic activity in the area.

The project is being developed by a local developer, who has promised to work with the city's planning department to ensure that the project is consistent with the city's zoning regulations.

Quinsigamond CC Names 10 to Staff

Quinsigamond Community College has announced the appointment of 10 new faculty members.

The new faculty members include:

- Dr. Lisa Brown, a professor of English
- Dr. Robert Smith, a professor of History
- Dr. Sarah Johnson, a professor of Mathematics
- Dr. Michael Green, a professor of Science
- Dr. Elizabeth Gray, a professor of Social Science
- Dr. James Black, a professor of Business
- Dr. Lisa Davis, a professor of Nursing
- Dr. Jennifer White, a professor of Education
- Dr. Susan Lee, a professor of Humanities
- Dr. Jane Miller, a professor of Fine Arts

The new faculty members will join the college's existing staff of 150 faculty members and 200 staff members.

Area Colleges Get Grants

The Community Foundation of Worcester County has awarded grants to several area colleges for educational programs.

The grants include:

- $50,000 to Worcester Polytechnic Institute for a new science program
- $40,000 to Clark University for a new humanities program
- $30,000 to UMass Lowell for a new engineering program
- $25,000 to WPI for a new business program
- $20,000 to Quinsigamond CC for a new nursing program

The grants are intended to support the development of new programs and initiatives at these colleges. The colleges are expected to use the funds to hire new faculty members and purchase new equipment and supplies.
Inside Report
Cornell's New Order

ITHACA, N.Y. — The Cornell College, the University's administration, which is considered one of the nation's top 10 universities, has announced a new order. The new order aims to address issues related to academic freedom and student rights. The announcement, made by President James C. Perkins, in an interview with the New York Times, described the changes as a "community" decision made in consultation with students and faculty. Perkins also noted that the new order reflects the university's commitment to "academic freedom and student rights." The new order includes provisions that ensure students have the right to freedom of expression, including the right to organize and participate in political activities on campus. It also emphasizes the importance of academic freedom and the value of diverse perspectives in the classroom. Perkins emphasized that the changes are intended to ensure a "welcoming and inclusive" environment for all students, regardless of their background or beliefs. The new order takes effect immediately and will be the foundation for future decision-making on campus. It is hoped that the new order will create a more open and inclusive environment for all students, allowing them to express their ideas and engage in healthy dialogue. Perkins emphasized that the university is committed to fostering an atmosphere where all students can thrive and achieve their full potential.

College Consortium Serves 500 Students

By MARY ANNE MARGERA
Of The Telegram Staff

About 500 Worcester area students are being brought into the Consortium in an early registration at colleges more than 1 mile from the city limits. The Consortium, which is a joint venture of the University of Massachusetts at Worcester, Holy Cross, Worcester State College and the Catholic University of Sacred Heart, is being handled by the Consortium on a student-by-student basis. In addition to the regular early registration, the Consortium is also open to students at the New England Institute of Technology and the University of Rhode Island.

The Consortium offers a wide range of courses, both in the arts and sciences, and the fields of business, engineering and education. The Consortium is being handled by the Consortium on a student-by-student basis.

Former State Senate President William B. Thompson, a Democratic candidate for governor, announced that he would be happy to discuss the problem of the state's fiscal crisis with any of the major candidates. Thompson said he would be happy to discuss the problem with any of the major candidates.

Consortium Enriches Area Music

By RAYMOND MARIN
Telegram Music Critic

One of the most exciting moments of the Consortium during its first festival was the performance of the Consortium in High School in Worcester. The performance was a tour de force for the participating students in the Consortium's music program.

The Consortium has been developing during the past year and a half. There was no high-pressure campaign to achieve its performance. It was an internal decision made by the Consortium to present a program of music which would be enjoyed by the students and the public.

The Consortium has been working towards a greater emphasis on the performing arts. The Consortium is planning to expand its music program and to include more performances in the future.

The Consortium is planning to expand its music program and to include more performances in the future.
Hungary's Last Non-Communist Head Explains Czech Reform at Quinsig CC

By NANCY L. KAPLAN

The Telegram Oct. 2, 1969

Prime Minister Palmaz of Hungary, who is resigning as a non-Communist head of the government, said on Monday that the reform of the Czechoslovak Communist government was a "necessity" for the country.

"It is not a question of whether the reform will be successful," he said. "It is a question of whether the reform will be applied with the necessary speed and efficiency." He added that the reform was a "great step forward" for Hungary and that he was confident that it would be successful.

The reform was announced last week by the Czechoslovak Communist party, which said it was aimed at improving the economy and reducing corruption.

Mr. Palmaz said that the reform was a "necessity" for Hungary, which has been under a Communist regime since 1948.

He said that the reform was more than just a "technical" measure, but was a "political" measure as well.

"It is not enough to make reforms," he said. "We must also change the mentality of the people." He added that the reform was a "great step forward" for Hungary and that he was confident that it would be successful.

Quinsig Gets Southbridge Offer

By HELIODOR D. ELLIOTT

SOUTHBRIDGE — The Quinsigamond Community College, which has been granted proprietary status by the state legislature, has appointed a Southbridge resident to its board of trustees.

The new board member, who will take office in July, is Mr. John W. French, a prominent local businessman. He has been a strong advocate for the establishment of a community college in Southbridge, and has contributed significantly to the college's development.

Quinsigamond College Plan Enthusiastic Superintendents

The Quinsigamond Community College, which was established in 1964, has appointed two enthusiastic superintendents to oversee its operations.

The college, which serves over 3,000 students, has announced the appointment of Dr. Robert J. Smith as president and Mr. William J. O'Brien as vice-president.

Dr. Smith, who has been a professor at the college for over 20 years, brings a wealth of experience to the position. He is widely respected for his commitment to educational excellence and student success.

Mr. O'Brien, who has served as the college's dean of student affairs, is known for his strong leadership and dedication to student well-being.

The appointments were announced by the college's board of trustees, who praised the candidates for their vision and leadership.

Moore Is Named To College Bd.

HOPEDALE — Richard T. Moore Jr. of 21 Main St. has been named to the Board of Trustees of Quinsigamond Community College, Hopedale, Mass.

Mr. Moore, who has been a long-time supporter of the college, has been involved in local community organizations. He served on the board of trustees of the Hopedale Public Library and is currently a member of the Hopedale Chamber of Commerce.

The appointment was announced by the college's president, Dr. Paul J. Pinto, who praised Mr. Moore for his commitment to education and community service.

Quinsig Seeks W. Boylston Land

By J. VICTOR POSTHANE

Quinsig, Commonwealth of Massachusetts, September 10, 1970

Quinsig has submitted a proposal to the Commonwealth of Massachusetts for the acquisition of land near the Massachusetts Turnpike. The proposal is aimed at establishing a new hospital campus.

The proposal includes the development of a comprehensive medical and research center. The center would be located near the existing hospital and would include a state-of-the-art facility.

Secretary Cosponsor Course

The CPS Program for Secretaries is a joint project in which the CPS/CSA cosponsor course for the CPS course given annually on the first Friday of October. In order to earn the CPS certificate, students must complete the necessary course requirements. The program is designed to provide students with the skills and knowledge necessary to enter the field of secretarial work.

Dr. Persson

The CPS Program is directed by the National Secretaries Association. The program is designed to provide instruction in the skills necessary for successful employment in the field of secretarial work. Students enrolled in the program will receive instruction in areas such as word processing, filing, and computer operations.

Mrs. Elizabeth B. Webber, Head of the Department of Business Administration, was present to conduct the program. She was assisted by Mrs. Elizabeth B. Webber, who is the department head.
Inflation Plus Student Aid

Area Colleges Hike Tuition

Inflation and increases in student aid have spurred a rise in tuition at the 18 area colleges to make up for the increased costs. Clark University, Assumption College, New England College, Holy Cross College, and others have announced tuition hikes for this fall.

The tuition hikes will take effect in September. The hikes vary from a few hundred dollars to several thousand dollars per year.

For example, at Clark University, the tuition increase is $1,200 for in-state students and $1,500 for out-of-state students. At Assumption College, the tuition increase is $1,000 for in-state students and $1,200 for out-of-state students.

Some colleges, such as New England College, have announced tuition hikes of up to $1,500 for in-state students and $2,000 for out-of-state students.

QCC to Offer Course In Inhalation Therapy

Quinsigamond Community College is offering a new course in inhalation therapy. The course is designed to provide training for nurses, respiratory therapists, and other health professionals.

The program includes lectures on the physiology of the respiratory system, pharmacology, and techniques for administering respiratory treatments. Students will also have the opportunity to practice on mannequins and simulations.

The course will be offered in the fall semester and will require a prerequisite of basic anatomy and physiology.

City Sharing in Grant For Teacher Training

The Worcester Public School District is participating in a grant program to support teacher training. The grant is sponsored by the Robert Wood Johnson Foundation and will provide funding for 10 teacher training programs in the district.

The program includes workshops and seminars on topics such as effective teaching strategies, classroom management, and professional development.

Schools Involved

Four schools are participating in the grant program: Stuart Vocational Technical High School, Alexander Hamilton Middle School, and two elementary schools.

Open-End Educational System Described at Kiwanis Meeting

The open-end educational system was described at a recent Kiwanis meeting. The system allows students to transfer credits and progress at their own pace.

The system includes a variety of educational programs, such as vocational, technical, and college preparatory classes.

The Kiwanis club is interested in supporting the open-end educational system and is considering ways to provide funding for the program.

Other Approaches

The state Department of Education is also exploring other approaches to increase access to higher education. These include expanding Pell Grants, increasing funding for public universities, and creating partnerships with private institutions.

Assumption Prep School To Close Doors in June

By MARY ANNE MAGERS
Of The Telegram Staff

Assumption Proprietary School — New Jersey's oldest Catholic training school for boys — will close June 30. Financial problems, a reduced number of students, and a need for a new headmaster are some of the reasons behind the decision.

A history of the school and a graduate's perspective are on Page 4.

Irene Ter Haar

School was established in 1892 and closed in 1970. The school's main building, the former Assumption College, is now a residential complex.

The campus is open to the public and is available for rental.

Nixon Gets Israeli Commandos Soviet Group To Attend
**Prep School May Become OCC Campus**

By DAVID R. LYNCH

Two Worcester legislators believe today they will be able to have the state buy Assumption Preparatory School for use by Quinsigamond Community College.

OCC's Robert J. Foley and Rep. Stephen H. Leavitt, both Worcester Democrats, are sponsoring the measure.

The trustees of the school, which has a Catholic boarding school for boys -- are anxious to see the legislation passed. The board has told its members that it will close June 6 if nothing is done.

A special session of financial experts forced the school to close, according to the head of the board, Robert H. Johnson.

**Worcester College Union Adds Up to Big Success**

By MURIEL L. McConnel

An unusual feature of college life is the existence of a college union at Worcester College Union, which is an organization of students.

The purpose of the group is to provide social activities for students and to promote their interests. The union also sponsors various events throughout the year.

**WJC to Discuss Assumption Prep**

Worcester Junior College trustees will discuss Assumption Preparatory School when they meet today. The school is affiliated with Assumption College and was originally founded as Assumption Preparatory School.

Verne E. Edmunds, assistant superintendent of the junior college, said the trustees will discuss the matter at their meeting today. "We are interested in the possibility of buying the property," he said.

**Board to Study Assumption Sale**

The board of trustees for Assumption College will study the possibility of purchasing Assumption Preparatory School, which it is believed would be a good deal for the college.

The board has appointed a committee to study the matter, which will report its findings to the board at its next meeting.

The committee will consist of the president of Assumption College, the senior vice president, and the chairmen of the finance and personnel committees.

**Students Selected for 'Who's Who'**

Several students at Worcester College have been selected for the Who's Who, which is published annually.

The list includes students from Assumption Preparatory School, which is affiliated with Worcester College.

The Who's Who is a list of students who have achieved excellence in their field of study.

**Assumption Prep in Worcester to be closed June 7**

Worcester Junior College trustees have voted to close Assumption Preparatory School on June 7 due to financial difficulties.
Patients Need Parental Care

Worcester Telegram, Wednesday, Mar. 8, 1970

A film, "A Two Year Old in the Hospital," will be shown March 10 at the Quinsigamond Community College in Worcester, according to Dr. Sarah O. Smith, principal of the college.

The film, produced by the American Academy of Child Healthcare, depicts the experiences of a two-year-old who was admitted to the hospital after a fall. It is designed to help parents understand the needs of their children in hospital settings.

The film will be shown as part of the college's "Parent Education" series, which aims to provide information on various aspects of child care.

Favors a Takeover By Community College

To the Editor:

On May 7, an article appeared in The Gazette reporting that officials in the Assumption Preparatory School in the city of Worcester, Massachusetts, were planning to close the school at the end of the current school year and have it taken over by a community college.

The article stated that the school was facing financial difficulties and that the school board had decided to close the school in order to save money. The article also stated that the school had been losing students and that the school was in debt.

The article went on to say that the school board had approached the city of Worcester and the state of Massachusetts about taking over the school. The article stated that the city had expressed interest in taking over the school, but that the state had not.

The article ended by saying that the school had been in operation for over 100 years and that it was a important institution in the community.

Funds to Be Asked To Buy Prep School

By MaryAnne MacDermott

The Assumption Preparatory School in Worcester is facing financial difficulties and is seeking funds to purchase the school.

The school has been in operation for over 100 years and has been a cornerstone of the community. It currently has an enrollment of 120 students and offers a rigorous academic program.

The school is facing financial difficulties due to declining enrollment and a decrease in state funding. The school has been struggling to keep up with the costs of maintenance and operations.

The school board is seeking funds to purchase the school and has begun a campaign to raise the necessary funds. The school has already received some contributions from alumni and friends of the school.

The school board is hoping to raise enough funds to purchase the school by the end of the year. The school will be closed if the necessary funds are not raised. The school board is hoping to find a new location for the school and to reopen it as soon as possible.

Donahue to Seek Med School Cash

By GERALDINE A. COLLIER

Dr. Edward A. Donahue, President of Assumption College, said today he will ask the Senate in its next session to appropriate an additional $3 million in the capital study budget to meet the requirements of the nursing school.

The Senate on Friday night voted to appropriate $2.3 million for the medical school.

The state had estimated the cost of building the second medical school building at approximately $1.5 million.

Donahue said that the state legislature included the additional $3 million in its capital study budget for the immediate implementation of the plan to build the new medical school.

The Senate also voted to appropriate $2.3 million for the medical school.

The legislation passed in the Senate will be considered by the House on Monday.

2 Student-Mothers Earn Their A's and Lots More

By MARY ARNE MAGDER

Of The Telegram Staff

Two mothers, one from a suburban home and the other from an urban city environment, had little time to consider before they began to strive to overcome the handicap of three degrees and the joys of college life at a coed college.

Mrs. Patricia Ryan, 38, and Instructor LaVan, 25, are the authors of the article. Mrs. Ryan and her two children, aged 8 and 9, attend the University of California at Berkeley, and Mrs. LaVan and her daughter, aged 10, are enrolled at the University of Southern California.

Mrs. Ryan, a mother of two children, is a student in the psychology department. She has been a student at that University for the past five years and is planning to complete her degree this year. Mrs. LaVan, who is in the English department, is completing her degree in English and is planning to return to her home state of New York.

Mrs. Ryan said that she enjoys the opportunity to be at college, but she also enjoys the time she spends with her children. She said that she is able to balance her college work and her family life by taking advantage of the many resources available on campus.

Mrs. LaVan said that she enjoys the challenge of college work and the opportunity to learn new things. She said that she is glad that she is able to continue her education and pursue her interests.

Mrs. Ryan and Mrs. LaVan are examples of the many student mothers who are striving to earn their degrees while caring for their children. They are an inspiration to all who are faced with similar challenges.

Summer College Enrollment Here Belies National Trend

By MARY ARNE MAGDER

Of The Telegram Staff

The summer college enrollment here belies the national trend. Although the number of students enrolled in summer college programs is increasing nationwide, the enrollment in the University of Southern California is dropping sharply.

This year, the University of Southern California is offering 116 courses in summer school, down from 146 last year. The drop in enrollment is due to the high cost of tuition and the difficulty of balancing work and school.

However, the University of Southern California is still offering a wide range of courses, including business, education, and arts. Students interested in summer college programs are encouraged to contact the university for more information.

The state had estimated the cost of putting up the entire building of approximately $21 million. But, when the bids were opened two weeks ago, there was a response at the State House that the cost was more than $3 million, more than the original estimate according to Donahue.

Donahue said that during the state review, the additional $2 million paid for the capital building budget, but noted that the entire building cost would change as the bids were open to the public, lowering the cost of construction.

Teaching Hospital

Donahue said that the state had approved the capital budget, which also included $2 million for a teaching hospital for the minimum school district, but said that the final decision on the hospital would be made by the state.

Area Classes Shrink

Fewer Entering Private Colleges

By MARY ANNE MAGERS
Of The Telegram Staff

Students enrolling in Worcester area colleges are not being challenged by the high tuition, low performance rates, and lack of athletic facilities. The two-state, four-year, junior program has been expanded to meet the needs of students.

There are 100 fewer new students at Becker College, 100 fewer at Assumption College, 100 fewer at Bridgewater State College, 100 fewer at Framingham State College, and 100 fewer at Salem State College. The total decrease is 500 new students, down about 10 percent from last year.

Seven of the state's eight public schools have fewer students than last year. The only exception is the University of Massachusetts, which has about 300 more students, up about 10 percent. This increase is due to the increased demand for education at the state's leading universities.

Recent Enrollment

A record enrollment of 1,416 students was expected during the opening week in the 1974-75 academic year. The number of students at each college is as follows:

- Becker College: 1,234
- Assumption College: 1,012
- Bridgewater State College: 1,175
- Framingham State College: 1,230
- Salem State College: 1,010
- University of Massachusetts: 1,590

Enrollment is up by about 10 percent from last year, when there were 1,292 students.

The increase is due to the increased demand for education at the state's leading universities.

The state's eight public schools have fewer students than last year. The only exception is the University of Massachusetts, which has about 300 more students, up about 10 percent. This increase is due to the increased demand for education at the state's leading universities.

Quinsigamond Issue
College Textbook Irritates Parents

Several parents have already filed a complaint about a new English textbook for the Quinsigamond Community College. The book, "The American Experience: A Partial Reader," contains more than 155 pages of essays, including works by Allen Ginsberg, Robert Frost, and Marshall McLuhan. Parents are concerned about the content of the book and have contacted the college administration.

The book was brought to the attention of the parents by their son, a student at the college. The parents said they were shocked to find that the book included material they considered offensive.

One parent, Mrs. John Smith, said, "I can't believe my son would be exposed to such material. It's inappropriate for a college textbook.

Another parent, Mr. Jane Doe, said, "I was really surprised when I saw the book. It's not something I would expect to see in an English class.

The parents have decided to file a complaint with the college administration and are considering legal action.

The college administration has responded by saying they will review the book's content and consider making changes if necessary.

Quinsigamond Textbook Protested

By Paul J. Cleary

The college is currently reviewing the book and is expected to make a decision soon.

The parents are demanding that the book be removed from the curriculum and that the college administration take steps to prevent similar incidents in the future.

The college has also expressed concern about the potential impact of the book on students and is working to address any concerns that may arise.

For more information, contact the college administration at (508) 555-1234.

Hmura Surprised at Reaction To His Opposition to Book

By Lee J. Mercuri

The college administration has decided to take action to address the controversy.

The administration has announced that the book will be removed from the curriculum and that similar books will not be used in any future classes.

The administration has also apologized to the affected parents and has offered to provide additional resources to help students who may have been exposed to the book's content.

The administration has also vowed to take steps to prevent similar incidents in the future.

For more information, contact the college administration at (508) 555-1234.

Legislature May Act
State Signs Pact To Acquire Campus

By MARY ANNE MADERA

The Board of Trustees of the University of Massachusetts has signed a letter of agreement with the State of Massachusetts to acquire the campus of the Worcester State College. The agreement, signed by the college president, Dr. John A. T. P. Williams, and the state's governor, Edward J. Memorial, will pave the way for the college to become a state university.

Worcester State College has been designated as a state university, with the state providing funds for the college's expansion and development.

This agreement is a significant step in the college's mission to provide higher education to the residents of the region.

College's Here See No Necessity for Increasing Campus Security

By JONATHAN R. TALLER

The Telegram Staff

While many students are concerned about campus security, most campuses are taking steps to ensure the safety of their students. At Worcester State College, the administration is taking the necessary steps to ensure that the campus is safe.

The college has installed new security cameras, increased police patrols, and enhanced the emergency response system. These measures are expected to improve campus safety and provide a safe environment for students.

The college also encourages students to take responsibility for their own safety by being aware of their surroundings and reporting any suspicious activity.

WSC to Test Educational Program

By NANCY LANE HAGGARD
The Telegram Staff

Worcester State College has announced plans for a three-week program to be held in conjunction with the college's annual summer session. The program, which will be held July 10-30, will focus on the development of educational programs for junior high and high school students.

The program will be conducted by faculty members from Worcester State College and will cover a wide range of subjects, including science, mathematics, and social studies. Participants will have the opportunity to work with experienced educators and to gain hands-on experience in teaching.

The program is open to students who have completed at least one year of high school and are interested in pursuing a career in education. Tuition for the program is $350 per week, including room and board.

Colleges Here See No Necessity for

By JONATHAN R. TALBOT
Telegram Staff

While many colleges across the country are experiencing financial difficulties, the situation at Worcester State College appears to be more optimistic. According to college officials, enrollment figures for the fall semester are on par with those of previous years, and donations from alumni and other donors have increased.

"We believe that our students and faculty are more committed than ever to the success of our institution," said President John O'Sullivan. "We are grateful for the support that we have received from our community, and we will continue to work hard to ensure that Worcester State College remains a thriving academic community."
City Officials, Legislators Meet
School ‘Crisis’ Studied

BY MICHAEL J. FAROEE
The Boston Post

The executive committee of the Massachusetts School Executive Council met last week with officials of the Massachusetts School Executive Council to discuss the crisis in the school system. The council is concerned about the lack of funds for new buildings and the need for more teachers. The meeting was held to discuss the potential solutions to these problems.

State Agrees to Buy Former Prep School

By the Evening Telegram

The board of trustees of the former prep school has agreed to sell the school to the state for $3 million. The sale will provide the state with a new location for a new school, as the former prep school is no longer viable. The state has been searching for a new location for a new school for several years.

The state has agreed to purchase the Assumption Preparatory School in Worcester for $6.8 million. The school will be used as a new location for a new school. The purchase was approved by the governor's council.

Assumption Property Purchased

BOSTON — The execu- tive council of the Massachusetts School Executive Council has approved the purchase of Assumption Preparatory School in Worcester. The council approved the purchase on the basis of the need for a new location for a new school.

Ohio School Board Reconsidering

The governor's council has reconsidered the purchase of a new location for a new school. The council approved the purchase on the basis of the need for a new location for a new school.
Prep School Purchase Papers Signed

Final papers were signed yesterday for the $1 million purchase of Attleboro Preparatory School by the state of Massachusetts for the training of the Massachusetts Regional Community College.

Attleboro Preparatory School's directors and administrators have been working with Massachusetts Education Board officials since last November to finalize the purchase of Attleboro and the land for the proposed regional community college.

Quinsigamond will take over the property's current use as a dormitory and will construct a new dormitory and office building on the former campus.

The property includes 12 acres of land and a 100-room dormitory and a general store on the site of a former Quinsigamond Community College dormitory.

Educator to Appear

Quinsigamond Community College President John S. Allain has invited Educational Consultant Dr. John J. Allain to speak at the college's annual conference on December 19. The conference will be held at the college's main campus in Worcester.

Shuttle Buses Transport Students

Worcester Consortium Project

Shuttle Buses Transport Students

By MARY ANN M. AGUILA

The Worcester Consortium, a joint venture of the University of Massachusetts, Worcester, and Quinsigamond Community College, is providing a shuttle service to transport students between the three institutions.

The consortium announced the shuttle service earlier this year, and it is scheduled to begin operations in January.

The shuttle will operate daily from 7 a.m. to 7 p.m. and will pick up students at specific locations on each campus.

The consortium is also exploring the possibility of adding more stops in the future.

New Fire Chief

Worcester residents have reason to rejoice as the high-profile position of fire chief will be filled by Joe T. Wachter, who will replace Chief Joseph F. Kelleher.

Wachter, a seasoned fire officer, will bring years of experience to the position, having served as chief of the Fire Department for over 10 years.

The new chief is expected to enhance the department's community outreach and emergency response capabilities.

A Suggestion
For Girls' Trade

To the Editor:

This letter is for the official of the Doral State Normal School, the only girls' trade school in which I'm affiliated with the Doral program.

Dear ladies, I have attended various girls' trade schools and can highly recommend Doral State Normal School. I have a number of young women being trained there and I sincerely believe it is the best of its kind.

The main reasons for this are:

1. The faculty is excellent. They are well educated and have a wealth of experience.
2. The curriculum is well-balanced, covering a wide range of subjects.
3. The facilities are modern and well-equipped.
4. The school is located in a beautiful area.
5. The students are well-behaved and respectful of their teachers.

In conclusion, I highly recommend Doral State Normal School for girls interested in trade careers.

Sincerely,

[Signature]

C.O.P. Gives Low-Income Adults a Chance to Reach for Teaching Careers

From the page:

Contingent on Page 1

The Commonwealth Opportunity Program (C.O.P.) of the Massachusetts Department of Education in Boston has designed a dual program for adults who wish to become teachers. It combines a two-year teacher training course with a one-year classroom teaching experience in local schools.

The program, which began in 1970 with permission from the Board of Education, is designed to provide a practical and theoretical approach to teaching. It is currently offered at eight local Boston schools.

The program consists of three parts:

1. A two-year teacher training course at Northeastern University.
2. A one-year classroom teaching experience in local schools.
3. An additional one-year teaching experience in local schools.

Recent graduates of the program have included teachers, social workers, and consultants. The program is open to all interested adults, regardless of their educational background.

Museum Classes Begin Next Tuesday

The Worcester Art Museum is accepting applications for its new series of classes for children and adults.

Working for Diplomas

The museum's School of Art and Design is currently accepting applications for its new series of classes for children and adults. The program offers a variety of classes, including drawing, painting, and sculpture. Applications are due by the end of the month.

Town Elections Provide First Test For New Crop of Under-21 Voters

Continued from Page 1

The election was a significant event for the young people in the town. It marked the first time that the under-21 age group had the opportunity to vote in a municipal election. The turnout was high, with a large number of young people casting their ballots.

Two Electors

The election was also significant for the town's two electors, who are responsible for casting the votes of the under-21 age group. They were elected to represent the young people in the town.

Money Pinch Swelling
State College Applications

By MARY ANNE NAGIERA
Of The Telegram Staff

Applications for admission to this year's fall freshman class are down between 2.5 and 8 per cent from last year's record-breaking numbers. It seems that the public colleges are facing a tough time attracting students.

The public colleges are having trouble getting enough from the state and federal government to accommodate the increased numbers they need to maintain.

The colleges are now addressing the issue by raising tuition and requiring students to take more courses.

State College Applications Swelling

Continued From Page One

The surge in applications is due to the relative ease of admission at the public colleges compared to the private institutions.

The surge is expected to continue as the economy improves and more students look for higher education opportunities.

City Council

Continued From Page 17

The city council has approved the budget for the coming fiscal year.

The budget includes funding for various city departments and projects, including a new park and a new library.

The council also approved a resolution supporting the state's effort to increase funding for public education.

Residents and city council members have praised the city's efforts to improve its infrastructure and provide quality services to its residents.
C.O.P. Spells Opportunity To 40 Determined Women

By JONATHAN J. TELSER

"If you want to make a difference," says Mary McMillan, "you must be willing to start small. And that's what we're doing here at C.O.P."

Women are the heart and soul of C.O.P. (Citizen's Opportunity Program), a non-profit organization dedicated to empowering women through education and leadership development. C.O.P. provides opportunities for women to gain skills, knowledge, and confidence to pursue their goals and make a positive impact in their communities.

Women are encouraged to participate in various workshops and conferences, which focus on topics such as entrepreneurship, leadership, and personal development. These events are designed to provide women with the resources and support they need to reach their full potential.

"We believe that every woman has the power to change the world," said McMillan. "Through C.O.P., we are empowering women to take control of their lives and make a difference in their communities and beyond."
Students Operate Consortium Bus

A new Worcester transportation system is making possible one of the major advantages of the Worcester Consortium for Higher Education: a new consortium bus service between the campuses of WPI, Clark University, Holy Cross College, and the Worcester Art Museum serving students who are traveling to campus or to other than their own.

The Consortium Bus is planned to serve 110 students beginning in December. The service is expected to improve campus transportation, as well as provide an alternative to public transportation. The bus service will be provided by New England Transportation Co., Inc., a local company.

For more information, contact the Consortium Office, Worcester, MA. 01609.

Quinsigamond Five Has Speed, But Lacks Height

By NICK CURRAN
Telegram Staff Writer
Quinsigamond Community College's basketball team has inches to catch up to in the feet tall, and the freshmen have failed to perform up to expectations from last year. The club, which Charley Hall has called a big improvement over last season.

"One thing, we played all the game last year," he said. "This year we played 24 games last year, we have now won 24 games this year." Quinsigamond Community College, 1942.

Judge, Sullivan Co-Captains
Our defense was better than our offense. All but five of the team were able to score more than a point.

Joe Leopoldi, a 6-6 guard from the Brooklyn, N.Y., and Bob Sullivan, a 6-6 guard from Framingham, Mass., are the co-captains. Center, David V. Hoge, of Holyoke, Mass., is also a co-captain.

With a team of 12, we have 3-0 and 4-1 in our last two games, Charley Hall said.

State Whips Lowell, 92-72, In Opener; Cushing Has 25

Worcester State College's basketball team opened up its season on Wednesday night and was hampered in its opening game by a high-scoring player. Lou Cushing, a 6-4 center, scored 25 points for the host team.

The game was controlled by a 6-2 guard from Lowell College in a New England Junior College Conference. The player, who has a high-scoring ability, scored 25 points in the opening game. Cushing, a 6-4 center, led the host team with 25 points.

We were over the top, said Mr. Bunion. He added: "We were over the top. We were in complete control of the game."

"The game was controlled by a 6-2 guard from Lowell College in a New England Junior College Conference. The player, who has a high-scoring ability, scored 25 points in the opening game."

Lancers' Ball-Hawking Delights Dyson

By J.G. SEIDSON
Gazette Sports Writer

"This has been an uncannily tough two months," Appropriately, the Lancers' ball-hawking was in full effect when the Babson boys put away the last of their arch-rivals on Saturday night at the end of a 105-yard drive. The Lancers, led by Captain John Thompson, captured the ball on a 35-yard interception by halfback Bob King and scored the game's only points on a 25-yard field goal by Jim Flanagan.

The Lancers, down by a 14-0 halftime mark, rode the back of Thompson and halfback Bill King to a 28-14 victory over the visiting Rebels. Thompson, who had three interceptions and two touchdowns, scored two touchdowns, one on a 10-yard run and the other on a 40-yard pass from King.

Thompson'sTDs came on a 40-yard pass from King and a 10-yard run. He also had a 20-yard catch and a 40-yard run. The Lancers' second TD came on a 15-yard run by halfback Bill King.

The Lancers, led by Thompson, King, and quarterback Jim Flanagan, scored two touchdowns, one on a 10-yard run and the other on a 40-yard pass from King.

Thompson'sTDs came on a 40-yard pass from King and a 10-yard run. He also had a 20-yard catch and a 40-yard run. The Lancers' second TD came on a 15-yard run by halfback Bill King.
**Clark Hustle Pays Off**

The Crusaders impressed in prep for UCLA.

By Dick Cerasulo, The Worcester Telegram

Clark could not hold quick starts in the early going.

The Crusaders had been prepared for the Holy Cross Crusaders 3x10 with a 10-3 margin victory over the University of Holy Cross yesterday.

Clark hustled its way to a 3-1 lead before the Crusaders were able to come back and overtake the lead.

**State Hosts Fitchburg: Clark Away**

The state hosts Fitchburg: Clark away.

Clark hosts Fitchburg State College at 7:30 tonight. The game will be played at the Worcester Academy at 7:30 tonight.

Clark has a 20-10 record in the conference and is 9-3 in the state championship.

**Hazard Spats: Quinsigomond Past Andover**

The Quinsigomond Credit Union has made it to the second round of the state championship.

Andover has a 10-10 record in the conference and is 9-3 in the state championship.

**Quinsigomond Accepts Bid To Tournament**

Quinsigomond has accepted a bid to participate in the state championship.

The team has a 20-10 record in the conference and is 9-3 in the state championship.

**Alcindor Should Be Ready: Lacey Slips UCLA Drills**

Los Angeles Star - Lacey Alcindor is an injured left foot.

UCLA is expected to be without Alcindor for the next few games.

Lacey played well in the game, but was limited in his playing time due to the injury.

**Quinsigomond Tops Gardner College**

Quinsigomond is the top team in the state championship.

Gardner College has a 20-10 record in the conference and is 9-3 in the state championship.

**Quinsigomond Is 87-79 Victor In Fitchburg Tilt**

Quinsigomond is the top team in the state championship.

Fitchburg has a 10-10 record in the conference and is 9-3 in the state championship.

**Quinsigomond CC Five Triumphs, 75-72**

Quinsigomond is the top team in the state championship.

CC Five has a 20-10 record in the conference and is 9-3 in the state championship.

**2 College Games Set for Tonight**

Forester State College will host Worcester Technical High School at 8 tonight.

Northfield High School will host Northbridge High School at 7 tonight.

Coach of the Holyoke Community College, thanks to his team's 18-0 record, has high praise for Marriott, who guided the Quinsig to the first ever victory over a team from Holyoke.

Junior College Cage Test Gets Under Way at Clark

The Junior College Cage Test, a tournament to determine the best junior college basketball team in New England, got under way on Tuesday at Clark College. The tournament will feature teams from Vermont, Massachusetts, Connecticut, and Rhode Island.

Quinsig Blanked By Framingham

Framingham defeated Quinsig 78-0 in the first round of the Junior College Cage Test. The game was played in front of a packed house at Clark College.

Quinsig Nine Wins Pair in Greenfield

Quinsig and Nine played to a stalemate in the opening round of the Junior College Cage Test. The game ended in a 51-51 tie.

Quinsig's Turco Stops Tech, 3-1

Paul Turco, goalie for Quinsig, made 3 saves in the team's victory over Tech. The game was played at the new field hockey stadium at Clark College.
Tonight's Foes Follow Different Routes

Becker, Dean Reach Final of Jaycee Tourney

By Jim Condroy
Telegram Sportswriter

The word tonight is often used to describe a game or event that is about to start. In this case, it refers to the Becker and Dean teams reaching the final of the Jaycee Tourney.

Becker's victory was quite impressive, scoring a 21-point lead against Worcester JC. The game was characterized by a series of精彩的表现 by both teams, but Becker managed to maintain their lead throughout the game. The final score was Becker 98, Worcester JC 77.

Dean, on the other hand, had a tougher time against Worcester JC. They scored 13 at the end of the third quarter, but the game was much closer. The final score was Dean 91, Worcester JC 87.

Both teams will now face off in the championship game, which is scheduled for tomorrow night. The winning team will be the Jaycee Tourney champions.

Marzilli, Lecuyer Named Quinsig's Best

Two Worcester College seniors, Marzilli and Lecuyer, were named the Most Valuable Players of the Quinsig Tourney. They both showed exceptional skills in their games, helping their teams win.

Marzilli, a forward, was the best scorer with 18 points, while Lecuyer, a guard, was the best defender.

The Quinsig Tourney is an annual event that attracts some of the best college basketball players in the region. This year, Marzilli and Lecuyer's performances were outstanding, earning them the top honors.

The other players who participated in the Tourney were:

Bob Payton at Becker Junior College scored 18 points for his team.

Kevin Lecuyer at Worcester College was named the tournament's Most Valuable Player.

Paul Turner at the University of Massachusetts scored 15 points for his team.

The Quinsig Tourney is a testament to the skills and talent of these college basketball players.
Inexperienced' Dean Cagers Defeat Becker in JC Finals

By Jim Connolly

Two perfect years of basketball at Becker College bought a pair of boys, who were just starting their first year at the college, a trip to the finals of the Massachusetts Junior College State Basketball Tournament. The game will be played May 1st at the Wooden Bowl.

Although the Becker team is very young, with only two returning players, the college is determined to make the most of this opportunity. The team has already shown their skills in preliminary rounds, and are expected to perform well in the championship.

Quinsig is Host To AIB Tonight

Andrew Institute of Physical Education is the host to AIB tonight, and Quinsig is expected to make a strong showing. The college has been in good form lately, and their players are looking forward to the challenge.

HC Frosh Hand Quinsig 87-61 Loss

In a highly anticipated game, HC Frosh proved too much for Quinsig. Their tight defense and strong offensive play resulted in a decisive victory.

Community Colleges Slate Cage Tourney

Community Colleges are gearing up for their annual cage tourney. The tourney will feature a variety of colleges from across the region, and promises to be a exciting event.

AIB Wins Over Quinsig In Thriller

AIB pulled off a stunning win over Quinsig in a thrilling match. Despite a strong performance by Quinsig, AIB managed to secure the victory with a narrow margin.

Quinsig Five Wins Over Framingham

Quinsig secured another victory in their recent match against Framingham. Their defense was strong, with only 11 points scored against them.

Two College Tilts Set for Tonight

Two college tilts are scheduled for tonight, adding to the excitement of the tourney. The games are expected to be close, with both teams vying for the victory.

Turn to DEAN Page 12

Frank McDonald at Becker Junior College marks the 61st year of his coaching career. He is considered a valuable player for his club.

Three Worcester Teams Advance in Jaycee Tourney

By Jim Connolly
Telegram Sportswriter

The offices of the Worcester Telegram & Gazette were abuzz with excitement as the final scores of the Jaycee Tourney were announced. Three local high school teams had advanced to the championship round, a feat that had not been accomplished by a Worcester team in over a decade.

The first team to advance was the Narragansett Indians, who defeated the Blackstone Valley Brahmans in a hard-fought battle. The Indians were led by senior captain Mike O'Connor, who scored a crucial goal with only seconds left on the clock to secure the victory.

The second team to advance was the Central Massachusetts Spartans, who defeated the Greater Worcester Wildcats in a high-scoring game. The Spartans were led by junior striker John Smith, who scored three goals and assisted on two others.

The third team to advance was the Quinsigamond Community College Chiefs, who defeated the Holyoke Community College Crusaders in overtime. The Chiefs were led by sophomore forward Rachel Johnson, who scored the game-winning goal in the 89th minute.

With all three teams set to face off in the championship round, the entire city of Worcester was buzzing with anticipation. The final game would be held at the Worcester Memorial Auditorium, and tickets were selling out fast.

In other news, the Southbridge High School football team clinched the WPIAL championship with a 38-7 victory over the rival Northbridge High School team. The Southbridge team was led by senior quarterback John Doe, who threw for 248 yards and three touchdowns.

The Worcester Telegram & Gazette will have full coverage of the championship games in next week's issue.

Miss Takala Is Married

Miss Ann Marie Takala became the wife of Robert J. Trabue yesterday morning in the Episcopal Church of St. John the Baptist. A reception was given in the Parish Hall of the church,

Parents

The bride, who resides at 113 Whipple St., is the daughter of Mr. and Mrs. Michael J. Trabue, 113 Main St. Her bridesmaids were Misses Mary J. and Margaret J. Trabue of the church, and Misses Mary J. and Margaret J. Trabue, sister of the bride.

Conseal of Honor

Miss Margaret J. Galvin of Framingham, cousin of the bride, was maid of honor. Bridesmaids were Misses Mary J. Trabue and Ann M. Trabue, sister of the bride.

Quinsig Nine Turns Back Framingham

Framingham - Joe Saporito and Paul LaRusso delivered the big headlines of the game when the Framingham Community College baseball team defeated the Assumption College baseball team, 6-3, in baseball yesterday.

LaRusso also pitched nine innings in helping Saporito to record his first win in the big league. He allowed two hits, while striking out four.

Saporito's pitching was his best of the season, and he held the Assumption batters to a minimum of hits.

Framingham's offense was led by LaRusso, who had three hits and scored three runs. He also drove in two runs with a double and a single.

The game was held at the Colby High School field, and it is the first time the teams have met in the regular season.

The Assumption batters were held to one hit, while the Framingham team scored six runs.
1966—Year of Failure for Bay State Higher Education

- construction in model-era
- budget a recipe for failure
- countless students denied education
- democrats, republicans share blame

By Kermit Munroe
Chairman of the Massachusetts community college system who is leaving to become president of the Allegheny County community college system in Pennsylvania.

The Willy Harrington Commission completed its deliberations more than a year ago. An important legislative program was approved by the General Court and two promising new boards have been appointed to: "get Massachusetts moving again" in all areas of education.

Massachusetts stands first among the states in the effort to make its support of public, post high school opportunity.

Moreover, on the basis of specific action taken by the executive branch in the budget now before the General Court, Massachusetts will move even further backward in the next year unless the present direction is sharply reversed.

Improvement is not self-generating unless all responsible public officials honestly agree on the goals to be achieved.

I believe there is, at the present time, a critical emergency in the financing of public higher education in Massachusetts. If the present policy of the executive branch is actually carried out, the only losers will be the citizens who propose that their tax dollars be used to create genuine opportunity.

It is true that over the past five years there have been some encouraging signs of change on Beacon Hill. Educational issues have been discussed in full. New colleges have been approved and funds to build them have been provided. But in some of these developments, many critical areas have been neglected with results that are now bringing all institutions to a halt.

The most recent annual budget for college construction, totalized more than $40 million dollars. This sum was for the development of new college space at the University of Massachusetts, the new state colleges, the two technological institutes, and the eleven regional community colleges.

Only five years ago the total construction budget of Massachusetts for all purposes, was $2.2 million dollars. This sum was for public higher education alone.

Yet, the excellent professional staff of the Bureau of Building Construction, which is responsible for all capital projects in General Fund Agencies-schools, hospitals, prisons, etc.-has remained relatively stable. There has been a large increase in construction volume for which the Bureau of Building Construction is responsible, but it has been obliged to do the increased work with fewer professional hands for the job.

It is ridiculous to expect more to be done with less, but this is what has occurred over five years. Each instance of public higher education has its own horrid tale to tell about construction delays which have adversely affected plans and enrollments.

Let me confine the detail to a single instance, the renovation of the old Hoboke High School and stores in Hoboke. The Hoboke Community College received acceptance into the State system in 1964 and the Massachusetts Board of Regional Community Colleges accepted the school to serve the southern Connecticut Valley region. It is now late in 1969 and the announcement, to be used as a science building, will hardly be ready for use in September. The large high school will not be renovated until there years after funds were appropriated. The two buildings will accommodate 1500 students when completed, but this September the school will be limited to 150 students, regardless of the number of qualified applicants.

Three years to renovate an existing building suggests that a major emergency has developed in public college construction.

Who is to blame for such incredible delays?

The General Court, in response to need, appropriated the funds in anticipation that the project would be completed within a reasonable period of time. Some delay results from the college end, with changes in plans developing as the bill period approached. Or, an agency responsible for a project does not give the time and attention it deserves.

Some delays are both unavoidable and perhaps even necessary, but the present criticism goes beyond this. In that the Bureau of Building Construction cannot maintain the volume of construction which is now annually budgeted by the General Court, most of it for public higher education.

A simple analogy would be to put five pounds of apples in a one pound paper bag. If all five pounds are put in, the bag will break, so it is necessary to put in one apple each time another one is removed. This saves the bag, but is more, but there is a long wait for the last apple.

Recent delays in public higher education construction are indefensible as public policy, and solutions will require energetic and imaginative leadership in the executive branch; survival possible changes will have to be considered, and soon.

The identical experience of other states ought to be helpful in our higher education construction crisis. New York has created a separate authority to build college space and dormitories for all colleges, public and private, in response to a slowing down within the existing state building process. That is now functioning, and an evaluation could be obtained readily which would suggest how it might best be adapted to the prevailing needs of Massachusetts. A new and creative approach will have to be devised to meet the demands of recent years. It might also be feasible to grant construction authority to governing boards, with the

[Note: The image contains a partial citation: "M.B. SHADY, MAY 28, 1969"]
full protection of existing public laws relating to building and contracts. The present board is required to review all plans and specifications of all projects, from a state police board in a complex research building in a University. The laws of Building Construction are in no case to be used by public officials for the construction, or response to a real public program change that stresses the necessity of public higher educational expansion. Thus, programs are developed in some of the institutions and student interest is reflected in planned enrollments and faculty budgets. The last result is long, slow, and painful delays in the Board of Building Construction.

The delay reflects, with great clarity, a total failure to anticipate public programs that were projected by all units of public higher education more than two years ago.

That failure, specifically, is the responsibility of the executive branch and it has extended over the regimes of both Democratic and Republican governors.

Careful planning is essential if public funds are to be used for their intended purposes, but the current budget crisis means that the governor must recognize the great need for public higher education. Herein lies the danger of planning and allocation of scarce resources for public educational needs. There is a long tradition of simple and resourceful solutions to educational problems, and the governor must recognize the need for public higher education. The governor must take all steps to meet the needs of public higher education, taking into account economic factors and the needs of the state.

The situation, which has delayed improvement for five long years, has now resulted in a need for more action.

The failure to develop a modern, comprehensive establishment that is necessary to destroy the value of public education. The purpose is to destroy public higher education. The issue is whether to consider Massachusetts public higher education to be in the middle of a critical emergency, and I say that phase deliberately.

The problem begins for the Massachusetts Board of Regional Colleges with an enrollment level of 1000. The total student enrollment projected for September, 1966, is clearly outside of the question unless a major change in policy is made.

Next to the regional programs and now to the state, the programs in computer technology are among the new programs that are being sponsored by the executive branch. At no time was there any assurance that the entire $20 million in additional money is available for these projects. The entire state is an example to the worth of the best and of the best minds that can be spared.

The entire state is a reminder of the need for a thoughtful consideration of the needs of the community colleges in Massachusetts. The community colleges are the first to recognize that yield to be made in these programs and the results are impressive. The Massachusetts Community Colleges have a mission of equal or greater importance to provide maximum opportunity for all students who need and want added training.

This vital other half of the purpose of the new schools can never be emphasized without discussion, after capable and dedicated professional staffs in every region of the state have found the methods of the school's work in industry and students to promote better life chances for individuals and better skills to meet present economic needs.

In fact, the budget submitted by the governor this year for the support of community colleges in Massachusetts is an open invitation to the Board of Regents to close the door on these two units, to reduce enrollments, and to ignore the needs of public higher education and the needs of the state.

And this without a single morning discussion. The budget as submitted in January and now before the House Committee on Ways and Means will not permit the 31 existing colleges.

The entire state is an example of the worth of the best minds that can be spared for the state. The community colleges in Massachusetts represent the first effort in the United States to provide two years of college without a local tax.
continued from page 9
financial constitution. In other states the local communities often contribute up to $300 for each resident who attends a regional two-year college. In addition, the state governments often contribute $500 per student and the student pays $300. Thus, $500 is available for the support of each student and the funds are derived from three sources.

Massachusetts has only two sources, the state and the student, and the Massachusetts Board of Regional Community Colleges has recommended a new approach to funding the schools to the Board of Higher Education. This approach has been in providing new hope for achieving the goal of comprehensive programs and at the same time of eliminating the fast growing schools from the dead hand of the executive branch.

The board is proposing that existing, state-supported community colleges be raised to $300 a year or $600 more than is charged at the present time.

This action would be taken, however, only if the state increases its present contribution of about $490 per student to $600 per student, per year, in the operating budgets of all schools. (The state now appropriates about $490, but this includes $50 contributed by each student for application and tuition.) In short, the Massachusetts Board cannot meet its responsibilities to students, taxpayers,

"This slipshod (state budget) system is intolerable if the truly excellent range of college opportunity is to be developed...

of the economy unless $600 per student is appropriated in the annual budget. To achieve this, the board agrees to an increase in its present contribution of about $490 per student to $600 per student, per year, in the operating budgets of all schools. (The state now appropriates about $490, but this includes $50 contributed by each student for application and tuition.) In short, the Massachusetts Board cannot meet its responsibilities to students, taxpayers,

"The failure to develop a modern executive establishment (at the State House) threatens to destroy the value of public investment in education."

continued from page 20
the total planning incapacity of the executive branch.

If the state rejects the proposal then of course students would not be increased by the board. But the recommendation is made in a positive way and it assumes that even an unmodified executive branch can be shaken from its lethargy.

The Massachusetts Board of Regional Community Colleges is ready to help itself but it will not be a viable partner in the development of higher education at public expense.

No serious educator can continue to ignore the challenge which is now before the public institutions of higher education in Massachusetts.

If the present budget proposal is, by some misfortune, enacted into law, then I recommend a deliberate reduction in enrollments at all public colleges in order to meet quality standards.

That is, if the taxpayers and the political leadership of the state cannot, for any reason, meet the minimum price of educational quality, then the appropriate boards of control should allow their present excellent plans and cut back on the number of students to be admitted next September.

A truly comprehensive community college, for example, serving a total population in excess of 260,000 people, cannot function properly if less than $500 of bond money per student per year. The present budget of the executive branch provides something less than $400 per student and closes the door firmly on essential opportunity for young people. Reduction in fiscal support from previous levels, then, is what has been proposed.

What has been said about the absence of serious budget evaluation in the executive branch in relation to the promising community college systems is true of other public college systems as well.

I must also add that there is no partisan intent in my recommendations or remarks.

Democratic governors have shared the blindness of Republican governors

The General Court, with its alarming degree of personalities, offers no long range plan.
All major reforms in the past 10 years in Massachusetts have developed their momentum outside of the political parties...and the establishment of the state government.

Therefore, I suggest we can all be thankful that the present situation in public, higher education will not be repeated when a major portion of the public realizes that their own lives and fortunes are directly affected.

Looking just a little into the future it is clear that the conflicts with children under fourteen years of age will be dependent upon public institutions for close to half of their children's college training.

I doubt that the citizens of Massachusetts are willing to plan two systems—one essentially private, high cost, and selective, and the other public, low cost, and mediocre.

Yet, this year, so far without public discussion, this is what is being proposed in the proposed state budget for higher education. If this first backward step is taken then the future pattern will be even worse. As a thoughtful resident and a professional who cares deeply about the outcome, I can only hope that the discussion this year will be made from full public view and with a clear understanding of the consequences.

Many writers never get a good critical evaluation of their work until their obituaries are written.

The critics must file copy either at an hourly rate or with furious frequency. They must report the new. His frequency must always be to its significance. One of the irrelevancies of art is that there always have to be something new, in fact, a bad Pop-Up art, and he who has no complicated comments on the public can be on the hook until all that can be said is that it was written under the extreme pressure of professional, mundane, and petty-public promotion.

LIFE advertising is a newspaper of a commercial nature. The advertising is in a complicated concern. Those who are financially interested in advertising a book at one exalted total and in a competitive market is a depression psychology which is no longer true.

The last report of the executive branch is compartmentalized by the logic of the executive branch. It would be better if the report was not threatening to the public concerned with educational values.

Alliances reforms in the past 10 years in Massachusetts have developed their momentum outside of the political parties and outside of the establishment of the state government.
