The Massachusetts Public Records Law (M.G.L. Chapter 66 & Chapter 4, Section 7(26)) provides that every person has a right to access public information. This right of access includes the right to inspect or be furnished a copy of any public record within ten (10) business days following the receipt of a request. A state agency is only required to provide records that are in existence and is not required to create a new record based on information in its custody to accommodate a specific request.

QCC conducted the search exactly as specified in your request and there was one email that resulted from this search, which is included as an attachment. As the college understands your request, there were no other non-email responsive records.

Sincerely,

Karen Hutner  
Director of Strategic Communications and Public Relations/Records Access Officer
