Science or Lab Science Elective		3-4	ESCI 270 Science Elective or ESCI 200 Lab Science Elective		3
Total QCC Credits		60-61	Total Nichols Credits		60

This agreement may also apply to all [IN-PERSON BSBA Degrees](#) and will be evaluated on a case-by-case basis.

*Students must take both ECO 215 Principles of Macroeconomics and ECO 216 Principles of Microeconomics to have the Macroeconomics transfer credit meet the ECON 223 Introduction to Economics Business Core Requirement.

Students can transfer in up to two (2) courses that count towards their Concentration Requirements and Electives. Additionally transferred in courses will be given the listed equivalency but would count towards Free Electives instead of towards the Concentration.

Example: Student that transfers in GBUS 220, MGMT 337, and EPS 378 will have GBUS 220 and MGMT 337 go towards the Concentration, and EPS 378 go towards Free Electives.

This transfer course mapping to the BSBA in General Business has been provided as part of the agreement. Courses that are mapped as a “concentration requirement” or a “concentration elective” may count differently for concentrations other than General Business, but the majority will transfer in the same way for all concentrations.
